## Acknowledgements

This is an important opportunity for me to thank all of those friends, colleagues and people who encouraged me in writings.

I naturally begin with my family wife Dure-Jahan, daughter Meher Rana an Economist played caring, loving, supporting and guiding role in my life. My grandson Rai`d Rana and son in law Dr. Talha Rana a source of happiness and inspiration for me. “My utmost happiness lies in the smile of an innocent child.”

So to, has the enduring moral compass of my late father Rana Ghulam Sabir, a former Parliamentarian whose advice I try to follow throughout my life. “O, son, try to help human kind, if for some reason not possible, never think and act harming human being physically, mentally or economically.” Blessings of my mother Zohra Begum has always been with me.

I am grateful to a prisoner who in 1995 attracted my attention toward transferring of prisoners from a prisoner van to sub jail in the Courts, hand cuffed and chained in fetters. Under influence of this incident. I wrote the first ever pamphlet of my life “Dangerous Animals are kept behind the bars in Zoo, Dangerous human beings are kept behind the bars in Jail”. Human kind is the best creation of all, should refrain from committing crimes. This was distributed in jail and among general public for raising awareness. Over a million of such pamphlets relating to different socio, economic, political issues, interfaith harmony and peace, have been distributed.

This book is the selection of writings from my three books, uptill Dec.2010.

Special thanks to Mr Saleem Raza a wisdom friend, who has been encouraging, supporting my writings from the day one.

Among teachers of my educational institution Mr. Anwar and late Professor Mr. Javed Sheikh whose guidance played important role in my life.

Thanks to Mr. Pervaiz Saeed, a writer who wrote back cover of this book.

I am thankful to Mr. Farrukh Sohail Goindi, a writer, intellectual, activist and publisher for helping me in publishing this book through his Jumhoori Publications.

***Rana Ehtisham Rabbani***

## **Culture Of Peace**

We live in a world where violence is not only rampant; it is normative. War as a staple of foreign policy; violence against women; the often-invisible violence of poverty, racism, and all forms of discrimination; political and religious polarization with demonization of ‘the other;’ a dehumanizing penal system; the degradation of the environment; and the glorification of violence in movies, films, television, music, and video games are taken for granted as just the way things are. It doesn’t have to be like this. We can do better.

We stand at a critical choice point in human evolution – do we continue down this path or choose another way to be together in this one planet we all call home? Around the world, many are choosing the peace path, and working at the very foundations of society to change basic assumptions, norms, and behaviors, and to build new institutions, methodologies, and alliances– in short, to build a culture of peace.

We have the opportunity to accelerate our efforts on behalf of this mission. But first we must know, ‘What is a culture of peace? What are we trying to establish?’

A working definition of peace will help with this quest. In *The Peace Book: 108 Ways to Create a More Peaceful World*, (The Peace Company; adapted from pp. xvi-xvii) I have written:

Peace is more than the absence of war, violence, or conflict, though that is an important first step. Peace is a presence—the presence of connection.

Inner peace is about connection with our true and natural self, and a sense of being part of something larger. This connection gives rise to serenity, balance, and a feeling of well-being. [We connect to the living spirit of life itself that allows us to know all people as our brothers and sisters, and every living being – including the earth – a relative.]

Peace with others is about our connection with the open heart, through which we remember our shared humanness. This brings us to the practice of conflict resolution, forgiveness, and reconciliation. [We connect to the power of love that transcends fear, anger, sorrow, and aggression, and leads us to compassion and a desire to end the suffering of all.]

Peace in our communities and in the world requires a connection to respect for our multiple differences, and for the right of all people to justice, freedom, and dignity. This leads to trust, community, and co-existence. [We understand we are all in this together, that all people have the same basic needs and desires, and so we act for the common good rather than for the benefit of a few.]

Peace is a state of mind and a path of action. It is a concept, a goal, an experience, a path. Peace is an ideal. It is both intangible and concrete; complex and simple; exciting and calming. Peace is personal and political; it is spiritual and practical; local and global. It is a process and an outcome, and, above all, a way of being.

**Louise Diamond**

## **WISDOM**

Wisdom is a thinking which leads and guides the human towards positive way of living. All spheres of life, moral material, structural and professional which does not harm humanity. Every human is blessed with wisdom, degree varies can be seen in human working in various field of life. Farmers, Craftsman, Inventors etc.

Wisdom can be polished and refined speaking, writing and its application in life. Humanity can achieve more benefits if every child on earth is provided facility of education according to his ability without any prejudice.

Life will totally be changed on earth in the benefit of humanity based on the principles.

Truth, Justice, Love, Tolerance, Equality, Positive Thinking, Sharing of Resources and Knowledge.

## **PEACE IS IMMINENT**

Human fight for  
Food, resources  
Some grab  
Leads to greed and lust  
Through accumulation of wealth, power

Emerges and arrogance  
Preparation of arms, conspiracies  
Over shadow humanity  
Cause disparity, deprivation, economic imbalances  
Spreads poverty, despair  
Killing of innocent  
Through terror, nuclear blasts,

Peace evades  
Contemporary world, through media  
Awareness for oneness of humanity, equality

Peace ensures safety, existence  
Sharing resources, techs and tools  
Sans discrimination  
Lead to prosperity, tranquility  
Peace is imminent.

## **GLOBAL PEACE AND PROSPERITY**

God almighty will appraise the vice or virtuous deeds of the people on Dooms Day. God Almighty has bestowed a blessing of intellect and wisdom upon human beings. The Control of good or bad human beings is administered by the laws.

Hoarding system of improper wealth by a few people is also controlled through legal procedure.

All this is done for peace, security and prosperity of the human beings.

Now it depends upon the people what sort of governing, operandi, they choose for themselves as well as

to appraise how honestly and dishonestly they perform their duties.

AS YOU SOW, SO SHALL YOU REAP!!

## **PEACE AND ITS HOPE**

(“Aman ki Asha”)

The Peace is a synonym of human life. The hope to love the life is termed as “Asha” or HOPE. All human beings have not only deep fondness for life, they like it, love it and struggle hard to lead it in the best possible manner. The human life begins from childhood and to end up in the old age as per his Destiny. Some human beings pass away from this mundane world after their birth, some in their youth and the majority after reaching the old age.

Since the inception of the universe the man has been in search of food. And after provision of food, the urge for power sprang up. The people started waging wars with others to stabilize their power and control. The massacre gained momentum. All sorts of weapons were invented. It started from sticks, clubs, daggers, arrows and swords. And today have culminated to destructive arms like Drones, Missiles, Atom Bombs, and Chemical Bombs in possession of the human beings.

There is vista, pattern and source to spend an excellent life and that is only the ‘path of peace’, and this sprouts up with love, fraternity, behaviorism and an ambience of tolerance with each other.

To maintain and sustain this ambience, it is essential to indulge in dialogues, discussions among the people in

case of any dispute or difference (even after fighting a war).

And to make the dialogues and discussions successful and meaningful, good intentions are 'sine qua non' from both the parties. After all it is basically the mankind who are residing in both the countries. If this canon is acknowledged the all human beings have the right to live. And a person irrespective of this color, race, religion, faith, region, caste, fraternity, tribe, citizenship should treat other men at par and his needs are taken up as own needs. Then success in such negotiations is bound to be fruitful. Otherwise, hunger, poverty, pauperism and deprivation of basic facilities are ought to be the destiny of the major population of the world.

The poets write national anthems and songs. The musicians compose music of these songs; and the singers sing and broadcast on radios, television to enliven the emotions and passions of the public.

On the contrary, a poor citizen spends his life quite in deprivation for want of pure drinking water, clothing, abundant healthy food, job opportunities and medical treatment etc. One can imagine the plight of such deprivation. Such conditions pose a 'Question Mark' (?), to greatness of the mankind.

If a husband and his wife in their home keep on wrangling with each other, it will cast a bad impression on their children. And their growth will certainly be affected. They will resort to peevishness and anger even on petty issues.

In the same way, the generations of the countries quarrelling and wrangling among themselves and their

small differences and wrangling go to become regularity of the sort. The situation of such countries assumes the same portrayal as of the people remaining in the same house in spite of their differences.

In our villages the people of two groups lacking the sense of peace and education get devastated due to quarrelling with each other. The youngsters are murdered. The same scenario holds good with such two combatant countries that are forced to spend billion of rupees of their annual purchase of weapons, to nurture their differences which are resold as scrap a long time due to non utilization thereof. Whereas this much spending can provide sufficient food and basic facilities to all the human beings of the rival countries.

At this stage in the year: 2011, the world rulers are considered most intellectual and wise rulers. But their competence, capability, far-sightedness, loves to humanity and awareness about future events seem to be doubtful. The people of these countries ought to rise to exert pressure on their rulers for their own betterment and welfare. Because it is the people who have to face all the good or bad consequences thereof.

Probably the world power might not like to see the masses of this sub-continent peaceful and heading towards any progress. Steps are required to be taken to safeguard against their sabotaging conspiracy.

The bigotry and hatred between the combatant countries are created to such a level that they are kept in darkness about any constructive efforts to revive their relationship. They will try to block the passage of water so that the people of the opposite countries may not survive and go thirsty and hungry for want of it.

This is, therefore, the Message of peace i.e. ‘Aman Ki Aasha’ to lead a better and happy life, to live and let others to live mirthfully. It is anticipated that ‘Aman Ki Aasha’ will foster the bloom and fragrance of friendship, love and harmony. The coming generations will also flourish under the ambience so created spring.

If the European countries being the hub of two World Wars in the past, could lead an exemplary atmosphere of peace and unity, why not the people of India and Pakistan could revive the atmosphere of peace, cooperation and relationship once again. Not only that, they both can play a pivotal role for the amelioration and welfare of the global humanity.

Today’s Actions..... Today’s Steps..... For Peace.

Today’s Comfort..... Comfort plus Anthems and songs of peace and prosperity for coming races for ever.

Wishful life for the entire humanity.

Happy life rife with peace, love and harmony.

Indeed the life is a gift for living people..... A gift if the living people go on with peace and mirth!

LIFE, THY NAME IS.

## **A LITTLE TALK**

The Satan has been declared a reprobate in all the educational and religious books because he is a symbol of wickedness altogether and spreads evil in the world.

But what name would be given to a person who commits wickedness following the policy of the Satan?

## **A SMALL WORD**

The world would remain in the clutches of war, pauperism and poverty so long as the rulers are haunted by the conception of ruling by dint of power.

## **THE PEOPLE OF ALL THE RELIGIONS STICK TO THEIR OWN RELIGION DEEMING IT THE ONLY RIGHTEOUS ONE**

It is but natural that every new born child basically inherits the religion of his parents. When he grows up, starts observing the surrounding atmosphere, he yearns to study the teachings of other religions. And if impressed by the contents of other religions by comparing with his own religion according to his knowledge and wisdom, he proceeds to adopt it instead. Otherwise he would prefer to carry on with the religion of his parents.

There might have been the instances of converting into other religions in the past but it is beyond probability to do so through coercion in this age of media. Nor is it possible to inflict any damage or pressure to the people of other religions through any conspiracy as its reaction has come out quite destructive in the past. One cannot hesitate to die if he is not in a position to take revenge with force. The suicidal cases are manifested every day.

The powerful countries of the world are required to bring about changes in their policies for the survival of the global humanity as well as their own.

This universe is for all of us. The knowledge and resources are also a common entity.

All human beings must be made partakers thereof.

## **THE HOLY PROPHETS AND THEIR UMMAHS**

All Holy Prophets of all religions presented a practical example of leading a good life to humanity through their characters and acts. They all led a simple life. They were all upright, honest, pious, righteous and just Prophets. They conveyed the same message to their followers.

Are the Ummahs of the Prophets are today leading their lives according to the tenets delivered to them by their Messengers?

## **QUARRELS BASED ON RELIGION/ CONVICTION**

Why do the people belonging to the same Sect and religion quarrel among themselves? Why the followers of one religion battle with the followers of other religion? Is this all pursued to get Heaven, Superiority over others or just for the sake of mental satisfaction? What if the adherents of a religion or sect supremacy for any reason?

Are all human beings are provided with the basic required food, pure potable drinking water, sufficient medical care and justice?

This universe has been created by the Lord for the sake of humanity. Does the humanity not meant for living collectively, peacefully with manifestation of tolerance and behaviorism with each other?

Will the followers of a particular religion pray to God granting those offspring of that very religion or sect?

Every child inherits the religion/sect of his parents after his coming into being.

The decision to convert himself later occurs only after getting maturity, otherwise will prefer to adhere to his parents' religion.

Who grants them children?

Who is the Creator of the Universe?

To murder a man due to his religious conviction tantamount to negation of the existence of God Almighty because his soul has also been fostered by God.

## **THE DAMAGE TO SUSTAIN FOR AVAILING UNDUE BENEFITS OF RELIGIOUS TEACHINGS**

All the religions of the world are cosmopolitan/universal religions. Their teachings and directions are also universal for that matter. If some one tries

to take undue benefits through the religious teachings, he and his companion, if any, are got to be meted out retribution thereof. And rest of the world is also affected by it.

Is it not so, that the world is confronted with the problems of peace and harmony because of such misdeeds of the rulers?

## **THE RELIGION.....LOVE OR HATRED**

None of the religions in the world has preached the teachings of hating a human being. One who detests another man due to his religion, sect, race, region, profession or for other reasons, is included in those who negate even their own religion. All religions propagate the message of peace, tranquility and love with each other. That is why these teachings have been welcomed and acknowledged by every human being.

Islam is an accomplished religion in Toto. It disseminates comprehensive messages of peace, harmony, love and welfare of the humanity. The followers of Islam are bound to abstain from hating each other due to their factionalism 'inter se'. Such example leads to convince about a Muslim's conduct and behavior.

## **THE CELESTIL RELIGIONS VS OTHER RELIGIONS IN VOGUE**

God created a human being and descended him on earth. He also descended the Messengers at different intervals for his guidance to lead a good life. There are

three big religions in the world viz: Judaism, Christianity and Islam. But ironically the rulers of these religions have devised a separate 'religion' of their own. Its nomenclature is to rule. And some times they do not hesitate to sacrifice the teachings and tenets of their celestial religion just to uphold their so coined religion. Its glaring examples are to kill one or more human beings, or to imprison them, as well as to wrest the resources and means of human life to apply the tactics of fraud and deceits etc.etc.

That is why the whole world is involved in the gratifying selfishness. There are 10% Rich people, 20% Middle Class and 70% are those who are spending their lives below the line of poverty. In this way, the rulers indulge in the negation of their religion despite being its followers customarily. God has ordained the welfare of humanity through all the religions.

Are they disobeying the ordain of God?  
Are they aware of God's prescribed punishment?  
God is the Seer of all!

## **MAN WANTS LIGHT**

It is in the nature of the human beings to like the light. God, the Creator of the universe, has set up the system of day and night. People go to work at day times and take rest and sleep at nights. How can one work if the day is without any light?

Each vice is a source of spreading social darkness in the society. That society gets groped in the darkness where the vices are in plenty. If a person apprehends darkness in the surrounding atmosphere, he should appraise

if himself is not a cause of such darkness. He has certainly no right to protest if he too is included in those who are responsible to create the darkness.

The vices of any society can be rooted out through the collective efforts.

“Lo! Good deeds annul ill deeds. This is a reminder for the mindful.” (Surah: Hud-114)

## **ALL RELIGIONS OF THE WORLD ARE TRUTHFUL**

The followers of all the religions of the world hold their religions as Truthful. How could the veracity of that religion be proved? It will be held a true religion if its followers truly act upon the dictates of it. The Holy Book will remain just a revealed book even if its followers do not go by it.

If their own deeds are based upon fraud, injustice, adulteration, theft, dacoits and plundering, yet their claim to hold their religion is true poses a question mark.

## **SEEKING FORGIVENESS OF SINS, YET COMMITTING VICES**

In this world the followers of all the religions go their places of worship to seek forgiveness of Lord for the sins committed by them. Is it not manifested that they revert to commit vices and sins once again after coming out of their places of worship?

It might be the cause of mushrooming of wickedness in the world.

## **A MINI DOOMSDAY---BEFORE THE DOOMS DAY/ THE DAY OF RESURRECTION**

There is a specific mention of the Dooms Day or the Day of Resurrection in all the religious books. When it will occur, the heat on earth will be quite unbearable. “And the mountains will become as carded wool.” The earthquakes will occur, oceans will boil up and an inaudible shriek will roar.

As a matter of fact, a sort of Dooms Day does happen to all those destitute human beings of the world who are deprived of pure potable water, required clothing, shelter and proper food etc. Similarly neither medical facilities are available to them in case of neither any ailment nor jobs and nor justice. Their women are confronted with undue oppression. Their children, instead of going to school, are put on compulsory labour without any payment etc.

Will not such people want the occurrence of the big Dooms Day sooner so that they may come at par with all others?

The responsible figures must take care of such deprived peoples otherwise----?

## **THE BELIEVERS IN RELIGION --- GOING ALOOF FROM RELIGION**

All religions of the world have outlined the specific methods to lead a laudable life in their respective religions. The advent of different religions occurred at different times. The battles were fought among the believers on the basis of their own convictions simply because the people of old conviction did not accept the followers of new religions.

It has conspicuously observed that they could not finish each other. Nor can they do even now. The followers of every religion resort to preaching the teachings of their own religion to assert that their religion is the best one for humanity. The notable point is that are these followers truly abiding by the teachings of their religion? And if they are faithfully acting upon their teachings then why the world is fraught with violence and battles? Half of the world population (including the people of all religions) is deprived of, potable drinking water, abundant food and other facilities etc.?

There should be a dialogue between them to find out that who are followers of a religion (irrespective of their residing any where in the world). Who are fortunate enough to avail all the basic human facilities whatsoever?

In this world every human being has got a basic right to be provided with all the necessary human facilities, irrespective of his being follower of any religion of the world.

## **WORLD RELIGIONS AND HUMAN DEPRIVATION - A THOUGHT FOR NEW GENERATION**

There is one thing common in all religions whether celestial or non-celestial and that is the welfare of the humanity. It means that all the human beings of the world should have the basic human facilities like: potable clean drinking water, food, accommodation, medical treatment, security of life, jobs and justice etc.

Are the followers of all the religions are enjoying these basic facilities? The division of the global humanity is based on the religions. But the majority of their followers, except a minimum percentage, remain deprived of the necessary human facilities.

Why is this deprivation?  
What is the actual issue?

So here is it an alarming thought for the new generation!!

## **THE ‘RULER’----A WORD, THE ‘SERVANT’----A WORD**

The man had had been kept on in slavery for thousands of years. A change in the ruling system of the human life has been brought about a few centuries before, because of which the democracy thrived. It is, indeed, an organism of ruling through the Representatives of the people. However, this governing system could not root out the discrimination between the VIPs and general public.

However, a new era is now going to dawn upon. All human beings will be treated at par in this system. The rulers will not bid orders. Rather they would feel elevated by serving the masses. The word 'government' would be replaced with the word 'service' and the word 'rulers' would now be 'Servant'.

A change will be effected in the Dictionary. And the Representatives of the public would try to surpass each other in competition.

### **DO THE BELIEVERS OF DIFFERENT RELIGIONS EXERT TO PROVE THEMSELVES TRUTHFUL INSTEAD OF INITIATING ANY WELFARE ACTIVITIES?**

It is humanly nature that one does not recognize other than his own religion if that sans human betterment and virtues. God advented all global religions through His different Messengers for the welfare of humanity.

They are, ipso facto, demanded to act collectively for the amelioration, benefit, peace and harmony of humanity instead of proving the superiority of their religion over the others.

If they keep on quarrelling with each other, nothing but devastation will be the outcome thereof.

Fie upon those rich people who do not keep their poor religious brethren no matter wherever they live. The poor are leading a deplorable life. Does it go to the implementation of their religious teachings?

On the other hand, it should practically be ensured that no human being remains hungry whether he is Muslim, Christian, Jew, Hindu, Sikh or Buddhist.

Is it pragmatically so??

## **HAZRAT MOSES AND THE PHARAOH**

The history narrates the event of Holy Prophet Moses and Pharaoh as a paradigm of war between vice and virtue. The Prophet Moses at that time wielded the miraculous power by God Almighty. This is a glaring example of the oppressor and the oppressed human beings of this age.

Today the oppressed are not having such miraculous power. They, therefore, have no option but to defeat such Pharaoh-like Oppressors through their well concerted struggle.

“Praise be to Allah, Lord of the World!”

## **THE RELIGIOUS PILGRIM**

The followers of every religion pay homage to an acknowledged holy place according to their own conviction. They do it with the intention that their past sins might be forgiven and they start a good life anew. For this purpose they beg repentance of their sins and vow not to repeat sins. If a person reverts to committing sins once again after returning from the Pilgrimage, won't you call him anything but a “Religious Tourist”? Because he had

pledged at his holy center not to repeat his sins. He is thereafter liable to be called a 'Tourist' and not a Pilgrim!

Although the majority of the population belongs to several religions, yet there exists hunger, nudity, poverty, quarrels and hoarding of fatal weapons. Are they all not the true followers of their respective religions?

All religions do preach the message of truth, peace, and justice.

## **VAIN DISPUTES BASED ON RELIGIONS AND CONVICTIONS**

There had had ever been disputes in the world for taking possession of the regions having rich resources. Since recently the disputes have also started erupting between the people due to their religious tenets. The people of a particular religion/sect presuming to be superior to the people of the opposite sect plunge into objectionable rhetoric attacks.

If some body passes on defamatory and unethical remarks against a religious leader of a rival group, the followers of that very leader dogmatically take up emotional sensuality over their intellectual rationality. So they, in reaction, tend to revengeful attitude which obviously would result in beating, bruising, and killing etc. Both the parties have to suffer in such wrangling. One can also expect that such person might be working for some 'outsiders' as their agent.

Is it possible that the person of such religious party could avoid using such libel and objectionable remarks against each other? Such comments can be deleted

from the written books and brochures etc. The world population is around 6.5 billion people. Could the followers of one religion/sect can kill the entire population of the followers of the other sect? Is it possible??

The mankind, instead of quarrelling with the opposite parties on the basis of different religion or sect, should get united to work for the welfare, peace and tranquility of the humanity.

All global religions preach this message. The welfare and betterment of humanity lies in tolerance and accommodative behaviorism alone.

### **RELIGION---SECT---BIGOTRY ABOMINATION**

The people belonging to a certain religion, sect and its teachings harbor bigotry and abomination with a person just because of his connection with a different religion or sect. It can obviously be construed that the teachings and the interpretation of that religion or sect or either wrong or incomplete. Or the followers of those religions and sects could not comprehend its true meanings and explanations. Such disputes, battles and killings are conducive to defamation of that religion or sect.

Bigotry and hatred have never been the teachings and interpretations of any religion.

## **RELIGION---ENLIGHTENMENT FOR GUIDANCE BUT AN ULTERIOR MOTIVE FOR SOME PEOPLE**

Different religions were introduced at different intervals for the guidance of all human beings. All religions disseminate the message of goodness and piety for the benefit of the humanity. The goodness is palatable to every person but with the passage of time the people get distancing from the teachings of their respective religions preferring their ulterior, collective, tribal or regional benefits. Finally a stage does come when the religious teachings are utilized for personal, tribal and for regional advantages disregarding the fact that in that way they pose a perilous situation to Islam, Christianity, Judaism or Hinduism in one way or the other.

They very artfully try to mesmerize the mentality of the young and innocent people regarding the elevation of the religion as well as by giving them some temporary financial aid along with necessary weapons to use them for terrorism. They embark upon such destructive activities at their own or by inviting the followers of other religion to inflict their attacks either against a third religious force or a secular force. There are several instances of the sort in the past and present equally. It is, therefore, the responsibility of the people concerned to maintain and persist goodness and virtues.

Is religious a vulnerable entity to be utilized by the diabolical elements as a tool? The principles of humanity like: acquiring education, justice, trust, honesty, tolerance, respect, love and equality must be applicable to all. The peace is established by upholding these canons alone.

When the religious scholars or common persons knock at the doors of the peoples of other religions, they

have nothing to persuade them except the narrations and preaching of their own religion.

Their message is usually to extend invitation of goodness and virtuous acts. To accept or to reject the message depends upon their own sweet will. If a man embraces the message, he too will assume the responsibility to deliver it on to others.

The punishment to the disbeliever of God and Religion—God has His Own organism.

## **RELIGIONS INVOGUE IN THE WORLD----- LETHAL WEAPONS----GENOCIDE**

All religions are a source of guidance for spending the life in a better way. They all contain the best principles for the purpose. A cursory look on history would reveal that the battles were fought among the people on different occasions for different reasons. The cause of most of the wars was to wrest the resources and means of others. Some were, of course, fought for the sake religious conviction. If an analytical assessment of the believers of the religion is carried out, it will be construed that:

Past Or Future:

The followers of which religion invented, manufactured and

Ultimately used those lethal weapons?

The wars were fought between the followers of which religions?

The followers of which single religion fought among themselves?

How many people were murdered?

How many people killed the followers of one or more religions?

The followers of which one religion murdered the followers of one or more than one religions?

Which are the countries who have factories producing lethal weapons and ammunition etc.?

The followers of all the religions can appraise their acts to know the people who are active for the security and who are involved in the genocide of the humanity?

The history of mankind is just like a mirror. The people of all religions can see their faces therein. They ought to concentrate themselves to the welfare of the humanity instead of putting blames on each other. They should try to improve their deeds so that the security, peace and tranquility could be prevailed for all human beings.

Note: The details and description of all the past and present wars are available on internet system.  
(Web: History of Wars)

## **A FEW QUESTIONS TO THE FOLLOWERS OF DIFFERENT RELIGIONS OF THE WORLD**

What behavior with regard to facilities of life should be meted out to a man belonging to any other religion or sect?

1. Should he not be given a right of required meals?
2. Should he not be given a right of providing potable drinking water?
3. Would he not be provided proper medical treatment?
4. Would he not be entitled for any right of getting education facilities?
5. Would he be deprived of getting justice?
6. Should he not be provided the right of living peacefully because of his belonging to a different religion/sect?

The present world population is around seven hundred million people. All human beings, irrespective of having any religion/sect are the creation of only one God. He is “God of Mankind”.

If a man belonging to a particular religion or sect is presumptuous of enjoying the living rights, the man of other religion is also equally deserves the very same rights and privileges.

All human beings of the universe are inter-linked with regard to their social life, trade, commerce and other necessities of life etc. None can keep aloof from the sociological life of any religion/sect.

The life is a blessing of God. And every one is rightfully entitled for this blessing of God. To deprive one from a rightful living is just to negate the existence of God Almighty.

## **WHY MANKIND IS MANKIND--- A QUESTION---**

An animal, in the jungle, remains unaware about when to be killed by another animal. If the same situation is customized in the urban areas that to kill a man by another man, then what different will remain between a desert/jungle and an urban locality?

So what difference will remain between a human being and an animal?

The questions arises that:

1. What is religion?
2. What is a religious institution?
3. What about the knowledge and virtue?
4. Why then the establishment of schools to educate mankind?
5. What will be utility of the colleges and the universities?
6. Why then the appointments of the teachers and professors?
7. If a man has to kill a man then where does stand a country, a court, a parliament, administrative set up, the army and the police?
8. What for the existence of organizations?
9. What role a religious scholar would play and for whom?
10. What are responsibilities of the politicians?
11. What is the responsibility of the UNO?
12. How to define the characteristic and role of all the above mentioned elements?

Well! How to conclude the naturalism of mankind –  
How to define a social set up?

## **MAN--- “CREATION OF STATURE”... HIS MISERIES**

God Almighty says: “Surely We created man of the best stature” out of the entire creations of the universe. But he grows madly undiscerning about humanity when he adopts the characteristic of religious prejudice, factionalism, racial, national, regional and lust of wealth, bigotry along with the mental bent towards tribal fraternity, caste and profession etc. etc.

All human beings are indiscriminately human beings. Their miseries are begotten by the blind and prejudiced people.

## **TO HARBOUR BIGOTRY IS DISGRACE OF MANKIND**

God has created all human beings homogeneously:

It tantamount to degradation of a man on the basis of discrimination, ill-treatment and base behaviorism. Rather such acts of commission are, in a way, equal to insult of his Creator. No one can dare to degrade consciously his invariable Creator.

Some human beings do commit such acts unconsciously but sustain colossal loss by going to repeat them.

Note: The offshoots of bigotry in the world are religious, national, racial, color based, regional, fraternal, tribal, poverty and wealth bigotry etc.etc.

## **WHY PEACE AND TRANQUILITY NOT PREVALENT IN THE WORLD?**

Those countries or human beings would never let peace and tranquility prevail in the world whose ulterior motives lie in enmity or battle 'inter se'.

Whether there is religion, sect, fraternity, tribes or countries, they will never think of welfare of humanity. Instead they would redeem about their own betterment and welfare. They do conceive their betterment in the hostility of the masses and the countries altogether.

The mankind benevolence lies in the benevolence of all mankind.

Such benevolence is beneficial for the posterity as well.

## **THE CUSTOMS OF THE PRIMITIVE WORLD**

The powerful rich countries of the primitive world artfully used to manage to keep the poor countries weak and poverty-stricken. But the powerful and wealthy people of the poor countries used to construe the people of their country as poor and impoverished ones.

What about the customs of today's world?

## **THE RELIGION AND THE POLITICS**

RELIGION: The prayers connote the wisdom of human life. Man does remember his Creator' blessings.

He humbly utters: “Praise Be To God, Lord of the Worlds”.

“Thee (alone) we worship: Thee (alone) we ask for help.” He faithfully reiterates God’s ordain, supplicate for help, subsistence and knowledge and intellect. He also begs pardon for his past wrongs and to show him the right path from now onwards. He vows to abstain from vices and to do good acts henceforth.

RELIGION; The religion guides human life to spend it through the basic principles of mankind in connection with righteousness, truth, justice, honesty, trust and faithfulness etc. etc.

POLITICS; The politics designs to mould human living on better pattern by making laws and rules through their elected Representatives. (The followers of different religions abide by their own dogmatic rules and regulations).

RELIGION; the religion preaches for guidance to follow the path of justice.

POLITICS; The people of those countries enjoy a comparatively better life whose politics bears good percentage of truthfulness and justice. Those countries whose ratio of percentage is exorbitant in falsehood and injustice, they are destined to selfishness and hurly burly conditions.

This is the responsibility of the rulers, leaders (religious and politics) of every country to function the country and the nations on exemplary pattern. Their own character should exemplify as a practical symbol.

‘As are the rulers/leaders----So are the circumstances of the country’.

## **SELF-SEEKING ----IDOLATRY**

A lot of people in the world presuming them as an ‘idol’ of entreaty often indulge in getting them worshipped in a state of self-seeking whereas the other human beings are gravely the victim of hunger, helplessness and poverty.

Most of the powerful rich countries are involved in the ecstasy of self-seeking idolatry. That is why the human majority remains entrapped in deprivation of basic human facilities.

But who cares for that?

## **THE DOCTRINE OF RELIGIONISM IS AN INNATE HUMAN OBLIGATION**

The soul is the creation of God Almighty. The soul has got no authority to do any thing both for the believer and the non-believer of God equally.

It is but an absolute ordain of the Creator.

The Hindu, Muslim, Sikh, Christian, Jew and the Secular ---are all human beings.

The religion and tenet of the child is obviously of his parents---an innate obligation of the child. Yesterday’s child is today’s grown up guy.

The hatred of mankind among themselves is the figment of their own creativity – just for their ulterior motives.

Hatred is not the ordain of God –nor it can be so indeed. God created mankind by himself – God endears mankind. Mutual love of mankind is a source of solace and peace for all.

There should be equilibrium in mankind's act – positive thinking – justice – honesty – and trust.

## **THE CONFRONTATION AMONG DIFFERENT RELIGIONS HUMANITY**

All adherents of different religions endeavor hard to prove their own religion as good and truthful one. There had had been demonstrations and discussions between the religious scholars in this regard. But ironically the result of defeat or victory of none was established. The religion is a source of guidance to lead the life in a befitting way practically, if they have got comparatively basic facilities.

But those who brag to be the followers of an exemplary religion should first analyze their act, if the human beings are dying of hunger, suffering from diseases for want of medical treatment, potable water is not available, remaining deprived of clothes, justice and shelter etc. before indulging in any competition and confrontation with any other religion to prove the superiority of their religious teachings and thus to manifest its practical demonstration as well.

The factual situation is such that they adopt some particular portion of their religion to suit their convenience. But they do not act upon other chapters which purvey all sorts of discomfort to others. The world population is approximately 6.5 hundred million people. Out of it 200 million are Christian, 1.30 hundred millions are Muslims, more than one hundred million are Hindus, one hundred million are the Buddhists and the rest are Jews, Sikhs and Parsi etc.

Each religion has made a mention of welfare and betterment of humanity at par. There is no difference between the rich and the poor. The only difference is that of facilities for others. But it cannot be put in the nomenclature of religion.

What about the teachings of that religion wherein a man is considered inferior to others due to his birth or nature of job? Rather he is not respected as a human being but addressed in derogatory way.

Today's age is an age of humanity. There is no superiority of any one over others due to his religion. Every human being is a human being in its true sense. To consider a man inferior or to classify him so is the disgrace of the humanity.

Every human being is rightfully deserved for equal provision of education, justice, clothing, medical facilities, potable water and shelter etc. to lead a befitting life irrespective of his belonging to any other religion, nation, race, fraternity. Otherwise the teachings and preaching of the religion will remain confined to arguments and discussions etc. to say the least.

The deprived will remain deprived for ever!

## **WHY DO THE POOR REMAIN DEPRIVED OF BASIC HUMAN FACILITIES?**

The dwelling of mankind inception from the very set up of the universe. They started their living in groups at different places. The groups were later on named as the Tribes. One tribe having lesser resources used to attack the other tribe to wrest their resources. This practice brought about the conception of waging wars in the world resulting in the scenario of defeat/victory of either tribe.

The tribes, in this process, succeeded in the formation of countries, which underwent a series of breaking and remaking of the countries off and on.

The leaders of the tribes or countries used to frighten their people of dire consequences of hunger and poverty if the rival tribe or country took possession of their country. Surprisingly a privileged circle in the entire history enjoyed all the blessings of life being the courtier or the agents of their kings.

However, it was in the 20<sup>th</sup> century that the people of those countries progressed and made inventions with special emphasis on education. Even the poor of those countries do enjoy all the basic human facilities of life like: pure potable water, clothes, food, medical treatment and justice. The poor of those countries take it as their disgrace to be called the poor. They claim that they are all equal with others.

A particular segment of people in the developing countries take benefit of all the facilities and in that way keep on frightening their people of the onslaught of the enemy country of dreadful consequences. Even ironically the people of one tribe or party warn their own people of any expected attack of the opposite tribe/party to snatch their resources thereby causing misery and hunger to them. They keep on harassing others unnecessarily.

The poor, in such circumstances, remain the poor without any basic human facilities. The poor would get all basic facilities only after turning to getting education, avoiding emotional decision about their life and keep on putting pressure on their State for basic facilities.

The rulers of poor countries befool their people just by accomplishing one or two, no doubt, the commendable projects of their welfare. The propagation of such achievements serves as a good pretence to keep on ruling the country by them. But the innocent poor look ahead for a better future and control on price-hike etc.

‘An imagination-----An opinion’.

## **THE BIRD AND THE HUMAN SOUL**

The bird nestles on a height ----Either on a tree or at any higher place. Similarly the soul of the mankind abodes on high echelon. The bird as per routine gets down on ground for food and does fly back to its nestle formed at any higher spot.

The same metaphorical conformity applies to the soul, which as per our earthly estimation stays for some

moments, hours, days or for some fixed duration in human body and finally returns to its heavenly abode.

The manifestation of this phenomenon is the dictate of God Almighty. God has been descending His Messengers from time to time for the guidance of the mankind. The life is a barometrical test of mankind. All his worldly deeds would pass through proper accountability to lend him either to an award of Heaven—an abode of eternal enjoyment, or to Hell as a punishment of burning in Fire for ever.

The decision to choose either of the path rests with the mankind. And God has granted intellect for this very purpose.

### **A LITTLE LOCUTION**

The happiness is the synonym of Heaven. Whatever state of pleasure and contentment one enjoys is the very moment of his heavenly boon in this world.

One gets Heaven even on this mundane world by helping the needy people.

### **A WORD OF TALK**

The secret of the progress of all developed countries lies in their constant struggle, hard work and action.

Ironically the people of developing countries look upon for any latent assistance or they are kept on waiting

for some aid from the developed as well as the developing countries.

God has granted wisdom exclusively to mankind out of His entire creatures. Now this depends upon the mankind how to utilize it!

## **MAN AND BENEVOLENCE**

The benevolence of mankind in the world occurs only when it does recognize his own reality and takes up to consider other human beings of his sort.

He has no quality of being a good human being if he is prejudice (discriminating and looking upon others as bad people) towards a Hindu, Muslim, Buddhist, Sikh, Christian, Jews or Parsi.

If he is prejudiced (discriminating and considering others as bad people) towards Russian, Japanese, Chinese, Pakistani, American or an African.

The bigotry (discriminating and considering others as evil ones) belonging to white or black race.

The prejudiced (discriminating and looking down upon others) hailing from different tribes.

The bigotry (discriminating and hating others) relating with different fraternity.

The condition of those people would be ameliorating day by day when they think themselves as

dignified persons. The people of other areas try to migrate towards those regions to lead a better life as well.

Note:- There are still some regions where the people are being deprived of better human life in the name of maintaining their primitive culture. No doubt the tribes are the source of their identification in the world. Each tribe has its own customs and traditions.

That is why they prefer their weddings within their own tribes.

But all human beings are at par with each other.

They should be taken care of as a whole in our social set up.

## **A LITTLE DISCOURSE**

The appellation is accorded to mankind:-

### **ON THE BASIS OF RELIGION**

As Hindu, Muslim, Sikh, Christian, Jews, Parsi and Buddhist etc.

### **ON THE BASIS OF HOME-LAND**

As Russian, Chinese, German, Japanese, American, French, Pakistani and Indian etc.

### **ON THE BASIS OF COLOUR**

White, Black, Whitish etc.

Similarly a certain name is given on the basis of tribes, caste and brother-hood etc.

The root cause of every bigotry and detestation is due to these nomenclatures, thereby making some people unduly beneficial and the others as backward on the pretence of merit.

Those who gain these temporal benefits have to face bad results at the hands of their posterity. The humanity has got to suffer due to all such prejudices. The world always remains under the threats of peace and harmony. The bloody battles have had taken a toll of millions of human beings.

The credit now goes to the progress and mushrooming of media to create glaring consciousness in the people. That is why the new generation has started launching upon the tasks of human welfare in spite of their belonging to different religions.

The future is the exaltation of humanity because of which the people will definitely lead a much better life sans all sources of prejudices.

## **THE POWERFUL COUNTRIES AND THE FUNDAMENTALS OF THE HUMANITY**

A powerful rich country in the world wields control on the issues of weak and poor countries directly or through its agents by dint of different Economic Policies so that it can easily utilize their natural and mineral resources for its own benefit.

This seems to be a 'sui generis' case according to the canons of humanity to keep its people prosperous at the

cost of the poor countries to let them suffer in misery, distress and poverty.

Do the people of those rich countries also would like to flourish and let the poor die for want of food?

Is this sort of double-edged diplomacy is destined for this world or is designed for the denizens of any other planet?

## **HATRED TOWARDS THOSE CAUSING HARM TO MANKIND**

These days a sort of drama of war is being portrayed between the followers of different religions. Occasionally chirpy rumors are floated amongst the people to augment hatred on the basis of religion. Thus the resources and means of various countries are snatched in the disguise of this hatred. The adherents of one religion cannot finish the followers of other religions through wars. Such double-crossed role of some countries is getting exposed now.

Only those countries and nations will hold grace and respect who would accord due regard to humanity. Those responsible for inflicting damage to mankind would face detestation from all other nations of the world. HAS THE DIE BEEN CAST FOR THIS PROCESS?

## **ALTERATION IN WORLD MAP OR HOMOGENEAL PROCESS OF MANKIND**

The world map has gone through various alterations since the establishment of the universe. Several countries emerged/reshaped on the globe at different times, and some lost their existence at all. Some re-emerged with new names.

Presently the boundaries of almost two hundred countries are seen on the globe. What would be scenario of the future world is yet difficult to assess?

The people are inhabited in the frontiers of global map. The changes in the boundaries do occur obviously due to the behaviorism of the people.

The world map remains in tact if the inhabitants maintain harmony among themselves. If a community feels on the lines of religion, lingual or racial pattern that they are being exploited, and are not being allowed smooth sailing in their interaction with others, then such humanity or group is forced to demand, protest and strive for the re-establishment of new frontiers. If they succeed in their crusade, a change does effect in the world map.

However, it has conspicuously been noted that the basic human facilities of the people of such new countries are not met because of the paucity of necessary resources for the entire population.

Is it probable to provide equal basic human facilities to all those human beings who endeavor to sustain or alter changes in the identification of their country? After all these bare minimum facilities is their births right.

The world is for us all-----Hence its resources should be meant for every one indiscriminately.

## **THE PRINCIPLE OF INTERNATIONAL HUMAN HARMONY**

Could the rulers of all the countries collectively devise such a universal program wherein all the human beings of the world are provided with:-

1. Abundant food
2. potable drinking water
3. Clothes
4. shelter
5. medical facilities
6. security
7. jobs based on merits
8. respect of mankind
9. freedom of expression according to internationally framed rules and regulations without any discrimination

## **HUMAN DYNASTY -----A 'REVERIE' FOR NEW GENERATION**

The mankind does belong to variegated colors, race, religion, profession, tribes and fraternity but virtually hail from only one dynasty/family and that is the 'dynasty of mankind'.

All human beings belong to this very dynasty because their hearts, brains, color of blood, eyes, ears, noses, faces, heads and legs are exactly the same.

The fundamental problems of all human beings are: food, clean drinking water, medical care, security, job opportunities and education etc.

It is, therefore, inevitable that there should be a collective effort to solve worldly human problems being linked to only one dynasty, for the betterment and welfare of all.

A new reverie for our new generation!

## **A DEVIATION FROM THE PRINCIPLES**

1. That Society will be prone to selfishness, if the followers of any religions of the society deviate from the teachings and principles of their religion.
2. If the people of any political or non-political party commit deflection from the prescribed principles of their party. The party will loose its popularity and its unity as well.
3. If the workers of an institution or organization deviate from their devised principles, that institution or organization is bound to be de-established.

The welfare and betterment of mankind is shrouded in abiding by its principles.

## **THE OBSERVATION OF EARTHLY MANKIND BY THE DENIZEN OF ANOTHER PLANET**

If the creation of another planet casts a look on this earth, it would be observed that this land is divided by the

boundaries of two hundred countries inhabited by the mankind. It would also be evidenced that a large number of Army troops have had been appointed to protect these boundary lines with an expenditure (official) of 9 Trillion Dollars per annum.

Besides, it would be over-looked from the sky that half of the population of the world is deprived of the basic facilities like: potable water, abundant food and clothes etc.

What conception about our world will be imagined by the denizens of another planet? They will probably consider us:

1. very intelligent people; Or
2. half intelligent and half abnormal people (i.e. mentally upset ones); Or
3. abnormal people (mentally upset)

This kind of conclusion can also be made by us at our own to ponder over.

## **THE USE OF HUMAN BRAIN CELLS**

God has blessed mankind with a gift of brain consisting of billions of cells. The man leads his life in accordance with the usage of these cells. When some one recalls his 'past', he would utilize his memory cells. Similarly he would apply the creative cells of his brain while talking about his 'future'.

All inventions having been made so far are the gratifying boon of the utilization of the cells respectively. All those nations or races who utilize such creativity cells do progress in the world and make headway.

But the nations who lag behind, they do nothing. They either envy other nations who surpassed or ultimately extend their gratitude to them.

That is one of the main reasons of the downfall of such nations.

## **HUMAN WELFARE IS BETTER THAN PREPARATIONS FOR WAR**

Two World Wars were fought in the European soil in the 20<sup>th</sup> century resulting in the massacre of people and devastation of billions of dollars. All those countries who were involved in the wars later realized their blunder and are presently living with peace and harmony with each other. Almost fourteen countries have the same Visa facilities for their population.

The country who did not experience the destruction of these World Wars is now fanatically concentrating on the welfare of their people. May God dawn wisdom upon them to learn a lesson from the massacre and losses of last two World Wars.

They should utilize the money to be wasted on wars, on the welfare of their population instead of spending on purchase of lethal weapons and other fighting devices. They should not ignore this fact that loss as a result of war

has to be sustained by both the parties equally. They should have no misunderstanding of being impregnable in case of war. This is a decree of fate.

Note: No defeated party will 'deck the winner with garlands'!

## **A SMALL TALK**

The anger is a temporal phase of mankind. One obviously would get annoyed if abused or given bad remarks. It sometimes results in quarrelsome. By this act both the parties have to sustain damage in one way or the other, apart from wastage of time.

As a routine one while proceeding to a journey would first estimate the expenditure to be incurred thereon. The estimation of the cost of 'launching on a quarrel' can be ascertained from such person who might have experienced the 'journey of any wrangling'.

Care must be taken to indulge in any sort of wrangling in this age of price hike.

Note: Both the parties of the countries having collective population have to sustain a lot of damage equally which ultimately results in the loss of the public indirectly.

## **A CLASS OF MANKIND**

A peculiar odor exudes from such a person who is proud, commits injustice and inflicts damage to other human beings.

The odor so smelt from his body can only felt by the people around him and not by himself alone.

If the people having such a smell are assembled at a place would never feel it but rest of the people residing nearby.

## **MANKIND IS HOMOGENOUS THE WORLD OVER**

A few years back when the means of communication and transportations were not fully progressed the people of different countries used to face a great deal of difficulties in inter-communication and contacts with each other.

If a nation gained superiority through force they were regarded as the people of rare characteristics by the defeated nation, whether they were Greek, Romans, Arabs, Russian, Chinese, Japanese, Spanish, American or Indian. A person visiting any foreign country was looked upon with curiosity.

Today the inter-communication between the people has become quite easy due to the development in the system of communication and transportation etc. It is now commonly felt that all human beings belong to the same genealogy. The eminence or superiority of a nation is acknowledged due to education and day to day inventions carried out. Obviously the nations progressing in the field of education and latest inventions would be deemed superior to other nations. And those who would create hindrance in getting education will be considered their 'traitors'.

1. All leaders and rulers do not tread on the code of their respective religions.
2. They do not follow the right path.
3. They do not make efforts with sincerity.
4. They prefer their personal gains.
5. They are not eligible for the responsibilities assigned to them.
6. They plan to keep the public obliged by giving them some facilities so that they turn up again in future for begging.

## **THEY WILL HAVE NO PLACE TO HIDE FOR THEM**

The world mankind would soon be developing consciousness and awareness to such an extent that there will remain no place to hide for the plunderers.

## **THE UNIVERSE IS LIKE A SCHOOL**

There are teaching classes from 1<sup>st</sup> to 10<sup>th</sup> class in all schools. A student goes to 2<sup>nd</sup> class after passing the 1<sup>st</sup> one. In this sequence a student relinquishes the school after passing the 10<sup>th</sup> class/Matriculation. When the students proceed to 2<sup>nd</sup> class, the new students occupy their seats thereafter.

In a similar process a human being passes out of the world after completing his physical age tenure. A new human being is born to replace him. The children of today will be parents of tomorrow.

God has at different times delivered His messages and guidance through Prophets to lead life in the school of universe.

For the Muslims the glorious Holy Quran contains a comprehensive code of life. One would undergo a test before God about the worldly life. Every one will be adjudged in accordance with his acts and deeds. The failure in this test, contrary to retaining in the same class in schools, would result to put him or her in the burning Fire of the Hell.

Note: No recommendations, imitations or bribe would be admissible in this test.

## **ONENESS**

GOD ..... The Creator of Soul  
Believers or non-Believers ... all have  
Soul ..... Unchained  
Creates He alone  
Body ....

Muslim, Hindu, Sikh, Christian, Jew or Infidel  
All but human

Child's religion .... Only an accident of birth  
Child today .... An adult tomorrow

Hatred among men .... Germination of vested  
interest  
Hatred ..... desireth not God, the pure and merciful

Man .... His own creation ... loves He most  
Ye Man ... disseminate love, happiness,  
knowledge, justice,  
Honesty and fair play  
Wherein lays the good, the safety and the harmony  
for all humanity.

## **SOME NOTORIOUS WORLD UNCLES**

There were certain uncles like: uncle Pharaoh, uncle Genghis Khan, uncle Stalin, uncle Hitler, and uncle Truman etc. (They were the uncles who were in the cause of massacre of countless innocent children, women and men, sick people and the old ones due to their policies and decisions).

They all belonged to only one lineage/family.

I apologize to the soul of a late uncle of that lineage whose name is slipped off my memory.

Note: In the present period over one million innocent people have been murdered in Iraq.

Who is the most notorious uncle of the day?

## **IT IS PROBABLE IN FUTURE**

It is certain that the future will be an era of knowledge and reasoning with fast progress of Inter-

communication of people, Tele-communication, Computer, Inter-net and increasing passion for education, to mature the general intellect and wisdom.

It is, therefore, conjectured that:

1. There will be only one pattern of education for students of the entire world in future.
2. There will be a single 'Lingua Franca' the world over.
3. The entire humanity will be benefitted from all the available resources of the world indiscriminately.
4. The people will not build big houses in the world and will not have the things whatsoever more than their actual needs.
5. There will be no discrimination and difference in the world amongst the poor, the rich, powerful, weaker, black or white persons.
6. The base of the economic organism of the world would be on the Islamic Zakat System.
7. There will be no boundaries among the countries the world over.
8. The cheap fuel will be invented as a substitute of oil in the world.

## **VIRTUOUS ACTIONS ARE LIKE FLOWERS**

Love is a pious and everlasting human passion. The people send flowers to each other as a token of love the world over. The last source of love is for God. Its best expression is demonstrated with good actions. The virtuous actions are like flowers. The fragrance of these flowers can be conveyed to God at any moment.

Besides, this fragrance is also felt by himself and the other persons around him. Thus the whole society goes fragrant.

## **EXPANSION OF CRIME AND THEIR PATRONAGE**

It is an indisputable fact that the crimes cannot spread without the patronage of the criminals the world over.

There are several kinds of patronage at various stages.

Who are the persons responsible for patronage the crimes?

## **PEACE**

Peace is life

Hatches serenity  
Generations germinate  
In peace

Wisdom shines  
Prosperity spurs  
Happiness springs  
Tranquility dwells  
Safety prevails

Love for those  
Who think, wish, speak, write, educate, express,  
organize,  
Participate, donate, contribute, PEACE  
Shun Prejudice, Hatred, Arrogance, Greed  
Condemn arms, weapons, its trade, terrorism, wars

Dislike discrimination of cast, colour, creed, race,  
gender,  
Region, faith, religion

Believe in positivity, dialogues, negotiations,  
harmony  
Unity of humanity, family, brothers, sisters,  
children  
Regards for those who love, respect, care, human  
beings beyond borders, boundaries.  
Blessings upon all.

**RESPECT WOMAN, WOMAN IS MOTHER  
GOD IS THE CREATOR OF UNIVERSE**

### **MOTHER**

I realized the factual value of my mother when I  
noticed that how the mother of my own children is  
nourishing the kid. She keeps standing on her foot for hours

when the child starts crying. She cleanses him off and on. She gets upset when she finds him in pain. she has to toil hard for him. She feels perturbed when the kid is found groaning. It is exclusively a mother to do such nursing. No one else can do that. The role of a father is just to evince affection to the child as well as to support the mother to mitigate child's problem and maintain her subsistence.

So please realize true regards of your parents. Give due honor to them because the salvation of us lies in this world and Hereafter by respecting them in true sense.

## **PEACE-AN AMBITON**

(Aman ki Aasha)

Peace if life.

Peace generates tranquility; so the generations prosper.

Peace accords honor to wisdom-A harbinger of prosperity.

The mirth glitters.....The stability prevails.  
Sense of Security does dominate.

My Salute to all those who:

Meditate;

Speak;

Write;

Set up organizations;

Pay donations;

Play their role for peace;

Spurn the bigotry, the hatred;

Denounce weapons, terrorism, fights and quarrels;

Dislike race and color of men and women;  
Discriminate in Faith and Religion

Projecting Sedition;  
Believe in Dialogues and Discussions.  
Are saturated with the passion of  
Peace.....Security.....autarky and stability.

Maintain fondness for peace and tranquility for the  
sake of human service.

So, this is my message of love and fraternity to  
those who are desirous of peace and harmony.

## **FOR THOSE WHO DISPLAY DISPLEASURE ON THE BIRTH OF A DAUGHTER**

It has been observed that the birth of a daughter is not welcomed in most of the societies in the world. The mother-in-law of her son's wife is reproached when a daughter is given birth despite her being a woman herself. The husband who is born of woman starts meting out excesses on his wife. The sisters of her husband being women themselves start quarrelling with their sister-in-law (Bhabi). It has also been noticed that all family members start hating a woman who gives birth to a female child.

The scientific research has proved that female body creates an egg and there are two sorts of cells in male body named 'X' and 'Y' cells. If the 'X' cell is stronger to get into the egg of a female organ, then a female child is born. And if 'Y' cell is stronger while connecting with the female egg then a male child is born. This research disclosure

establishes that a woman has nothing to do in all this process. She is not to be blamed for the birth of a male or female child.

She has to nourish a soul in her body for pretty nine months withstanding all sorts of pains and troubles.

## **THE MOTHERLAND**

The place where a person is born is called his country. Generally it is termed as 'mother-land' or 'Dhurti Mata' in Indian terminology.

The people of every country have devised rules and regulations in a concerted manner to lead their lives who neither violate these rules nor plunder its wealth and resources. Nor they indulge in any high-handedness with their home-land.

What title could be given to such peoples who commit such excesses?

## **GIVE DUE RESPECT TO LADIES**

The woman has been destined with several qualities. A woman is a creator, a guide and an assistant to mankind as well. She is just an element of peace and affection. Never despise a woman, nor commit any cruelty to her. Give due respect to her.

Whosoever commits oppression on a woman is an ungrateful person. Perhaps he has no idea that a man is great if he is kind to woman.

## **THE CHARACTER**

A woman can play an important role in the progress of her country or society for that matter provided she is granted all such facilities which are available to mankind. The role of a woman in this scientifically advanced age is quite momentous one for the progress of a society or country altogether.

## **IF VICE IS NOT CONSIDERED VICE THEN.....?**

If the vice or wickedness is not considered as a vice or remedial measures are or not taken against it, then it becomes an unavoidable part of a society.

## **WAITING FURTHER FOR 9 TO 15 YEARS**

What loss or damage is sustained by the countries where the governments are dissolved in a quick sequence?

When a government starts functioning, it launches certain projects for the betterment of its people. For this purpose a committee consisting of some experts makes out a comprehensive report after reviewing different aspects of

such projects. It obviously requires certain time-log of one to three years.

If the government is dissolved during this period, the projects are also postponed. Then a new government takes up the postponed projects. The projects are doomed to be postponed once again in case the government meets the same fate.

If in this sequence three governments are dissolved within a period of 9 years, the projects meant for the benefits of the people fall into abeyance for almost 9 to 15 years. During this period it is but the masses who sustain huge losses.

That is why that such a country or a nation lags behind the other countries of the world. Who would be held responsible for it?

## **THE BEST SCHOOL THE BEST COUNTRY**

The schools and the academic institutions are established the world over to impart proper education to the children. The annual results of only those schools would certainly be the best ones whose teaching staff are punctual and pay full attention in teaching. They are not lethargic. Discipline is maintained during games. The gate-keepers also perform their duties with alacrity.

On the contrary, the annual results of those schools would not be better if the teaching staff is careless in attending the classes. No discipline is taken care of during supports activities. The students go in fighting amongst

themselves and tearing the uniforms of each other, occasionally knocking the heads of each other in fighting with flow of blood from their noses etc. The gate-keepers are found care-free in the performance of their duty.

Similarly the countries of the world are just like schools. It depends upon the rulers that in what way they rule the country. If it is runs like a good school, the peaceful ambience will prevail with increasing pace of progress. Otherwise there will be turmoil chaotic conditions all around.

The entire onus lies with the rulers undoubtedly because the masses are generally innocent like the school children.

One Question: If a gate-keeper of a school is made the Head Master/Principal of the school, what will be the standard of that school?

## **A GIFT TO THE POSTERITY**

If a politician covets, he will gift out a system of covetousness to his offspring.

If a judge commits injustice, he will gift out a rule of injustice to his progeny.

If a bureaucrat indulges in dishonesty, he will gift out a policy of dishonesty to his children.

A guardian of Crimes will certainly gift out and deliver an organism of criminology to his progeny.

If a business man applies deceitful tactics in his business functioning, he is supposed to gift out the fraudulent tools to his own children as well.

### **WHO IS INTELLIGENT --- IF THEY WERE NOT?**

Every ruler who embarks upon power usually brags that all his predecessors were quite incompetent. They were not up to the required standard. He is a better and an intelligent ruler than they were. The question is that if the problems of the people remain unchanged in his tenure also, who will be considered an intelligent ruler?

They also presume that the country would not survive if they are no more in power. God is the Cherisher, the Omnipotent, and the Great!

### **THE ROGUE AND THE BEGGAR**

What is the difference between a notorious rogue and a medicating beggar? One exceeds to beg through the force of guns. The other one being poor spreads his hand before a person for begging.

Both are of the very same pursuit to beg to meet up their own requirements.

### **AN EXAMPLE FOR NEW GENERATION**

The defense budget of Japan after 2<sup>nd</sup> World War was only one percent (1%) of its total income. Japan,

therefore, converted its full concentration on industrial development and thus became a big industrial country of the world despite being a small as per its land area. Now this country is capable of giving aid to other countries. This is a glaring example for the developing countries of the world as well as the new generation.

## **WHO IS WISE?**

If two neighbors happen to quarrel with each other and resultantly spend 70% of their total earnings in litigation, is it probable to make up their domestic expenditure like food, electricity, fuel, medical treatment and transportation etc. out of the balance of 30% of it?

Similarly, if two neighboring countries consume 70% of their total national income on the purchase of weapons, arsenals, tanks and fighter jets etc. Then how will it be possible to meet up the costs of roads, electricity, hospital and other necessities of life out of the remaining 30% of the national income?

In our villages when two parties tend to fight with each other and if due to prolonged litigation, they get to poverty along with diseases etc. by spending lot of expenses towards advocate fees etc. they finally gave in and resort to compromise with each other. Are not the villagers wiser than the rulers of those countries?

## **A WEALTHY MAN**

How would it be explained when a wealthy man snatches the food of the poor by dint of his different

tactics? And what to say if the rich countries wrest the resources of the poor countries for their ulterior motives with their different kinds of manipulations?

Are not such countries worse than the poor countries? Although they are called the wealthy countries, yet virtually they are quite contrary to their position?

## **THE STRUGGLE OF A FEEBLE ANT**

A person was sitting in a tire puncture mending shop. He noticed that a piece of a thread was moving on its floor. The electric fan was also on. He thought that it might be shaking because of air blowing. However, when observed more minutely, the thread was being moved by an ant. It moved the thread slowly to its hole.

If a feeble ant can take a big thread to its destination, why not the people being the ‘Crown Creation of God (‘Asharaful Makhluqat’), could turn the society to goodness and welfare.

It is only possible if we are apt to render selfless service to humanity and have the passion of honesty, faithfulness, altruism and devotion.

Such are the peoples who are really an asset to their nation!

## **PALM LINE---THE GREAT PEOPLE---- AND THE DISPOSSESSED HUMAN BEINGS**

Most of the world Palmists makes prediction about the future lives and events of only the rulers, leaders and

the wealthy men, after looking at the lines of their palms. Have they ever pondered over the palm lines of the deprived persons? Amazingly there must be countless people whose palms must be bearing the familiar or rather better luck lines than the rulers and the leaders etc. Historically “Bucha Suqqa” has been the ruler of Afghanistan in the past.

There has been increase in poverty not because of these lines but due to unjustified division of food supplies and wealth in the world. Unfortunately the distance between the lines of poverty and richness has been increasing with the passage of time. The fear of complication amongst the mankind is posing a Question Mark (?) to all of us. The revolutionary change, therefore, is the need of the hour.

## **A LITTLE TALK**

The world mankind has literally circumscribed God Almighty into various nomenclatures and argues about such names: God, Brahman, Krishna, Buddha, Fire, Sun and Deity god etc.

They do not ever assert that the life is the composition of goodness and virtue and not vice and wickedness.

## **WHY THE WORLD NATIONS ARE AT LOGGER-HEADS WITH EACH OTHER?**

There is a code of ethics for the betterment of mankind in all the religions of the world. The followers do

act upon those ethics. Why do the nations quarrel with each others while having such golden morals? If they fight for food, they should devise a 'modus operandi' for its equal distribution.

There is scarcity of food grain in the world to meet up the requirement of the entire world. The only problem is that of its distribution on parity basis.

There is no such anecdote that a region of the world might have excessive quantity of food for their cats and dogs whereas the dispossessed people of the other regions starve for want of food.

A revolutionary change has got to be brought in for this purpose.

## **SOME WORLD AREAS WITH ABUNDANT FOOD SUPPLY AND SOME AREAS WITH NO FOOD AT ALL**

Why can't the countries having much more food grains provide it to the people of those countries with no foods like a state of famine there? The rising human consciousness will curse those countries who used to wrest the resources of food grains of other countries for their own 'ulterior motives' in the past.

In future only those countries would be accorded due respect who would dish out their resources/food supplies etc of more than their own need. Even presently there are such persons in the world and one of them is a wealthy man named Bill Gates who donates billion dollars

for the welfare of deprived people. Let us hope that some more wealthy persons might come forward with this conception to better the fate of the human population.

## **HOW TO DISTINGUISH BETWEEN GOOD AND BAD PERSON?**

When a man is haunted by the ecstasy of power.  
When a man is driven by the trance of authority.

When a man is moved with the rapture of wealth.

When a man is over-powered by the lasciviousness.

When a man of justice and authority is involved in the greed of wealth.

When a man is under the state of intoxication.

When a man goes mad/insane.

When a man is the victim of injustice and deprivation. When a man is hungry.

## **MAN'S FAILURE TO DISTINGUISH BETWEEN THE GOOD AND THE BAD**

When a man falls prey of hunger for want of food, and some times succumbs to starvation. Haunted by this

fear he would strive his utmost to support his family inmates day and night.

He would toil hard with all obligations to make both ends meet for the survival of his children. Some times he fails to distinguish between the good and bad if over-powered by starvation.

The powerful rich persons, some times create such circumstances to enslave or subordinate the helpless and poor people, so much so that they find themselves groping in the darkness because of their limited sources of income. Their salaries are intentionally reduced. Loans are extended to them on unbearable terms.

Thus the poor are deprived of basic human facilities. Their moral values are tarnished by patronizing obscenity and immodesty.

Accordingly they become insensible to make any distinction between vice or virtue. Neither do they care for others, nor even for themselves.

The rich powerful people enjoy their lives tumultuously.

## **THE LOOTERS OF PEOPLE**

Would the looters plundering the persons with their various stratagems, tricks and tactics get exhausted at any stage?

Do the looters belong to any religion and faith?

Has it become a doctrine of looting the people and the countries?

Do they not believe in God?

The looters and the plunderers would soon be accountable due to the ever emerging wakefulness in the consciousness of mankind.

## **HUMAN PROBLEMS AND THE UNITY OF WOLD COUNTRIES**

The people have set up their abode at various places in this universe like deserts, mountains, coastal areas and the sandy deserts etc.etc. Their succeeding generation does also settle at the same places. The mankind manages to set up their social circles to live together. The bigger society is gradually converted into a country. A country is, obviously, endowed with natural resources as well. Therefore, the establishment of a government becomes necessary to administer all those resources.

There are, according to the areas, both small and big countries in the world. Certain countries, out of them, are such who are not in a position to provide all the basic human rights to their citizen.

Is it not possible to affiliate less privileged countries with other resourceful countries to make up the deficiency? In that way, the people would enjoy the basic human facilities like food, water, security and medical care etc. to

lead their lives befittingly. It may also be a tool of reducing the crimes in the world.

## **REGARD OF HUMANITY**

All religions have illicitly preached about the dignity of mankind. Why does a person hate another person? Might be that 60% of the world humanity is suffering from hunger, distrust and poverty because of detestation, 'inter se' based on their religiosity.

The magnificence lies in love to mankind which is, no doubt, a back-bone of betterment of humanity.

## **MAN-----MISUNDERSTANDING----- DIFFIDENCE-----GRUDGE-----AND RANCOUR**

It is a common habit of the people that they some times pass obnoxious comments or utter unpleasant comments while in a gathering or in absentia about other persons. This may create any misunderstanding or diffidence in the minds of other persons which ultimately results in grudge and rancor with the passage of time.

In this way the life of both the parties is confronted with problems and difficulties.

Therefore, care should be taken in such case. Due regard should be given to self respect of others. Keep your

brain and heart quite pious and rightful. This would save you from a lot of troubles.

God knows the secrets of heart and intention of mankind.

Nothing is hidden from Him.

Note: If a person commits any high-handedness with his Muslim brother, he should ask him for his forgiveness to absolve one's ego from the burden of guilt. This step would certainly boost his morality instead of a thought of disgrace.

### **TO HELP AN ELDERLY MAN**

If a person would render help to the aged parents of another person, his own parents in return would certainly be helped out.

To help each other is also a synonym of definition of human society.

### **MAN----RELIGION-----HATRED**

Why does a person hate another person on the basis of his religious conviction when no religion teaches to hate any human being?

Why do we inter-act with the followers of other religions if the hatred is admissible from their point of view?

Why do we visit their countries?

Why do we hanker for Visas of those countries?

Why do we prefer to use the products of those countries, for instance: Aero planes, Cars, Buses, TVs, Carpets, clothes and other equipments etc.?

Is it not a 'double-cross' policy of the followers of different religions to hate as well as to take benefits from each other?

The greatness lies in love---love---love alone to mankind.

## **WHY COMPULSION A YIELDING FORCE TO MANKIND?**

There are almost two hundred countries in the world assorted with boundary lines with each other. A humanity-based question arises that could a man standing on other side of the boundary line of a country help a wounded man lying at the opposite boundary line? If he takes the wounded man to a hospital of his country, the wounded man would obviously be imprisoned. And on the contrary, if he musters the courage to convey the wounded guy to his own country, that helping person would certainly be put in jail. In that way, a person would be at a loss to help the other wounded person lying across the border.

The world is populated with human beings. Unfortunately millions of people get died as a result of enmity between boundary lines of two countries. To me it's only easy solution is that the entire resources of all the countries are declared as a common asset for whole mankind of the universe under a special international administration, there will remain no requirement of the boundary lines so drawn between the countries.

The love to mankind is a symbol of sublimity.

## **TWO-EDGED POLICY OF THE DEVELOPED COUNTRIES REGARDING MANKIND**

The man is the supreme creation of God. He has been deputed as the 'Vicegerent' of God in this universe. It has been observed that a wounded animal lying on a road or foot path is hurriedly taken to a hospital by the people of the developed countries.

But it is astonishing to note that the people of the same countries consider it legitimate to kill the human being of another country for the benefit of their own country. A human being is after all a human being, irrespective of his belonging to a different country and conviction. No religion has legitimized the murdering of a human being at all.

Note: If these developed countries do not abolish this two-edged policy, they would soon face the opposition of the world public opinion.

## **GOODNESS VERSUS GOODNESS**

Different religions were introduced in this planet for the welfare of the mankind. All these religions have preached the mankind to spend his life in a worthy manner. The followers of all religions undoubtedly adhere to their prescribed doctrine. This process is in vogue from generations to generations.

The definition of the goodness is to think of the welfare of others along with one's own of course. In other words no person is harmed by the acts of another person. This too is a form of goodness.

But it has been observed that the followers of different religions consider their religion as the best one. They even resort to quarrel with each other to establish their obstinacy. The question is that which religion has outlined such policy to prove its authenticity through fighting with the followers of other religion or sect. Such acts are no doubt taken uncalled for in all the codes of ethics.

How would you rate it as goodness if it is to be spread through fighting with each other?

The goodness or virtue is practiced by demonstrating one's own good morality and character.

Our safety lies in living with good behaviorism and model character with all human beings.

There are almost seven billion people inhabited in this world and all the creation of only God Almighty.

## **WHAT SORT OF HUMANITY IS IT WHICH IS TEACHING BIGOTRY AND HATRED TO CHILDREN?**

No child is born at its own will. Had it been so, all children would have opted to be born in the rich families, with all the best amenities of life. Everybody has a fondling attraction for children. All children in childhood love each other naturally. But when they grow old they feel discrimination with each other like being a Muslim – Christian—Jew---Hindu—Sikh (as each religion has the bifurcation of different sect and conviction), Arab, American, European, African, Brazilian, Indian and Pakistani etc. with separate provincialism and regionalism.

These children after getting old start hating and prejudicing each other because of these reasons. I feel this virtue is perhaps caused due to written material of hatred in certain books, the training imparted by the parents or because of the prevalent row amongst the religions and the political leaders, or the element of greed, lust and hatred.

What sort of humanity is it to impart the teachings of bigotry and hatred?

What is fault of the children?

The life is the synonym of peace, love and safety.

## **ONE HUMAN GENERATION TOILS WHEREAS THE OTHER ENJOYS THE FRUIT THEREOF**

It is generally said that one human generation toils hard but its fruition is enjoyed by the next generation. If a generation works sincerely, the next would take benefit thereof. If a generation resorts to indulge in fraud, injustice, adulteration and illegal activities, their next generation would reap the fruit of their predecessors. It would accordingly be assessed that what gift a generation has dished out to the next one? Who would be held responsible for it, the child or the dad?

## **GREATNESS LIES IN LOVE TO MANKIND**

The terrestrial globe called the earth has been a part of making and breaking the boundaries of the countries from its very inception. The countries are and will be inhabited by the mankind.

It has been perceived from the perusal of the history and human life the people living in different boundary lines would start hating each other despite the reality that they are inhabited on both sides. They tend to this practice because of religious, racial and national acrimony. That is why the two World Wars were fought in Europe. But they have now abolished their mutual hatred despite maintaining the boundaries.

Now there is only one Visa policy applicable for almost 12 countries. Their education system is same and their degrees are duly acknowledged by the other countries.

Would these walls of hatred ever be abolished by the other countries of the world, so that they may lead their life peacefully? These walls of hatred are also ingrained at a small stratum as well (like province, tribe, caste system, fraternity and even in one family).

One cannot enjoy his life with peace and harmony due to hatred.

Love with mankind is the manifestation of magnanimity.

### **A MINOR ISSUE**

The world would remain in the clutches of war, poverty and hunger so long as the rulers are haunted with the ideology of ruling with force. The poverty, deprivation and hunger would be abolished only when the rulers might reign with wisdom and sincerity to demonstrate exemplary human welfare policy.

### **THE HUMAN MERITS**

Every new born child is of the same genealogy whether born in a rich or a poor family. He is blessed with innate human merits. However, later on the child is bound to spend his life in conformity with the ambience he resides in. A lot of children are deprived of their merits or essence just because of poverty.

Can't such a system of life be devised wherein the merit of each and every child is utilized in a positive manner for the betterment of the mankind.

## **EACH HUMAN BEING IS PRETTY**

Each human being is pretty. God is the creator of all. The mankind should thank God for his creation as a mankind. As God declares, “surely we created man of the best stature.” He could have created him as a different creature.

## **A HUMAN JOURNEY OF ROLLING FOOD FROM ONE ANOTHER**

The man from the very beginning of human life has ever been travelling from one place to the other in search of food due to increase in population. Thus they gradually spread over the hemisphere of the earth. The man has been in pursuit to conquer new places for obtaining better food supplies as well as to preserve the same for hay days.

In that way a lot of wars were fought amongst the nations, resulting in the killing of countless people.

God descended His Messengers to teach humanity of peace and tolerance as well as to share food with others equitably. But man resorted to make destructive weapons with the passage of time, along with his headway for the development of other social sectors (like communication etc.).

But unfortunately, the present scenario of the world is that half of the population is confined to ‘subsistence level’ with no reduction therein.

The man apparently is progressing day by day but at the same time the majority of the world population is being

deprived of the basic human facilities. Whereas the developed countries have made arrangements of food and proper residing shelter for their animal as well.

These so called developed countries do not consider it improbable to commit genocide and to do away with food supplies and oil for the sake of their own countries.

The world consciousness is arising speedily. The new generation with their efforts would be in a position to fulfill the entire needs of human facilities in the future.

### **THE WORLD JUXTAPOSED WITH TRUTH AND FALSEHOOD AND THE WORLD OF TRUTH ALONE**

Presently the world is practicing the mixture of truth and falsehood side by side. According to a report of the UNO, the entire wealth of the world is limited to only 2% of the world population. There are 946 such persons who are enlisted in the catalogue of the Billionaires. Majority of the world population (approximately 60-70%) are spending their lives below the line of poverty. The rest of the population is called the Middle Class.

This fake system should carry on if the people do not incline to get it changed. But imagine how many people would suffer if the criterion of truth and truth alone is adopted?

What would be the percentages of the rich middle class and the poor to touch the poverty line?

This is a question to the experts of economy, to the experts of morality as well as to the specialist of ruling policy.

### **A HUNGRY GUY WOULD NOT BE WORTHWHILE IN THE FUTURE**

In future, a beggar will be taken as an abnormal man due to evolution in human psyche.

The future generations with such psyche would not like to see a human being as a beggar. To provide food to mankind would be held as a mission by them. The neighbors, street dweller citizens and even the countries having beggar around would be looked upon with suspicion. They will be considered the most selfish human log.

### **A CARAVAN OF GUILLELESS PEOPLE ON LIFE JOURNEY**

Are there such Caravans in this world consisting of simple and innocent people who are plundered by their selfish leaders in spite of having rational approach towards practical life? They might be entrapped due to their simplicity and innocence.

BLIND.....They do feel that they are being looted yet they do not resist.

DEAF.....They are made to realize that you are being plundered, yet they damn care about that.

DUMB....They does know that they are being looted,  
yet they say nothing to the looters.

Would there be any destination in the life journey  
for such hurly-burly Guileless persons?

## **A FAIR OF PEACE AND CONVICTON A FAIR OF PLEASURE**

Conviction: According to one's respective  
Religion and faith.

Conviction: One, s rectification and Salvation.

Conviction: One, s correction & betterment.

Conviction: For the message of peace, Love,  
Friendship, Fraternity, Equality, Behaviorism and  
Tolerance.

Conviction: The characteristics of children as per their  
parents (Coming into being not jurisdiction of the child.)

Conviction: All children good.....Innocent.

Conviction: All children are dear ones.

Conviction: All elders good ... Having pious acts.

Conviction: All the elders are decent. All human  
beings are love worthy.

## **WORLD ORGANISM ---MAN AND ANIMAL**

A world organism is in currency since centuries.  
Some human beings--- some animals.

A few people ---go animal yet the rest maintain  
humanity.

Within men--- such animals resorting to plundering,  
looting and murdering.

They commit all sorts of excessiveness and injustice  
at their own.  
Or they patronize--- such animals.

Tyranny with the poor --- the helpless----cruelty on  
women and children.

Or to kill --- one another.  
Some go animals out of men.

The powerful countries wrest and take control of the  
resources of the weak countries.

Such a country--- a country of animals----despite  
their claim to humanity.

Those are the human beings alone ---- who consider  
others as their brothers.

If they do not consider others of their sort --- they  
themselves are animals.

What for such an intellect? ----If a man becomes  
animal.

So an animal with no sense is better than a man.  
The man is he who does consider others as men.

### **MAN --- CRUELTY ---INJUSTICE**

To what percentage does a man become a beast  
when he commits oppression by himself or through others?

To what percentage would he be a human being  
when he commits injustice or damage to other human  
beings?

### **TO BURN A LIVE PERSON -----IN THIS WORLD OF MANKIND**

What might be the back ground?

What would be said about those persons who dare  
to burn other persons and converting their bodies to ashes  
by confining them in closed rooms?

A man ---or a psychiatric patient ---- or a ravenous  
beast ---- or a devil.

What would you call those persons who not only  
launch such plans, but support and patronize such  
miscreants?

The life is a blessing for all human beings.

## **A MAN ----SELF ACCUSING**

There are certain people who do remain angry to themselves.

Apparently they do look rationale.

When they commit any abuse, they get angry at their own.

Such angry men do wickedness after performing some goodness.

Thus they again go self-accusing.

They resort to self-accusing and then get upset because of it.

Depression and penitence would certainly be the outcome of any wickedness.

They seek refuge in obstinacy after shamefulness.

The obstinacy is curable just after a jolt.

Provided some 'jolt' is inflicted on them.

## **THE WORD: "CRUEL"**

The 'Cruel' is the most disliked word by all the people because a cruel man commits cruelty on helpless and poor people with his different tactics. For instance depriving them of food, justice, salary or by tormenting

them mentally or physically or taking labour from them without any payment or beating them, abducting them by himself or by his rowdy elements or by captivating them etc. etc.

The loathsome character of a tyrant is developed and exposed by his disgusting deeds. He would also be termed as a rogue person i.e. a man with sullied hands. If an oppressor is a ruler, he should be crowned with filth. The supporter of a cruel person would also be of the same character because their support would vouch their own cruelty too.

The benefactors of the wealth or property of a cruel person do not know that they are amassing a heap of dirt and filth. Such an oppressor or a cruel element is found in our social life at all stages --- big or small.

What befitting title should be given to a cruel person as well as his companions?

Dirty guys ----- Good guys?

Semi Dirty ----Semi Good guys or Semi Animals ---  
-Semi Human beings?

A cruel man is looked upon with detestation in a civilized society. He is hated extremely by everyone.

## **MAN --- A BITTER-- SWEAT PILL OF DESTINY**

It is a common adage that a man does get whatever is destined for him. The world population is about seven

billions. The majority of the world population is deprived of basic human facilities (potable drinking water, sufficient food, security, medical treatment, shelter, education and justice).

There are 99% people in the developed countries that do avail all basic human facilities. Why is so much difference in the destiny of the people? What is the secret of the availability of entire human facilities in those countries? Is it the destiny of the people of those countries? Who does manage to descend certain souls to lucky homes and certain to unlucky homes?

The lucky people keep all facilities limited to them. They rather do not hesitate to snatch the share of the poor instead. If it is the 'whirligig' of fortune, why the men have been endowed with intellect and wisdom? Why the ordain of God for meditation? It might be the reason that those who meditate about reality of life get 99% human facilities. But those authoritative persons whose approach was confined to ulterior motives alone, they too are enjoying all the basic human facilities. However, the majority of the people remain deprived of all the human facilities. The dispossessed are just consoled with the dictum that: 'it was but the decree of fate'.

Dirty water? Shortage of food? No jobs? No shelter? No self-defense? No chance to get any job on merit? No justice? To bear tyranny? Rape of a daughter of the poor? Poverty? All these plights are but the decree of your fate. You, the poor you exclusively!

By satisfying the people with the dictum of fate, they get countless out of the taxes paid by the ill-fated masses (the tax which is enforced on all factory products

and its owners is also taxed side by side). As per the constitution of a society, the provision of all basic facilities is the birth right of every citizen. But this all is in vogue in the developed countries. The rulers of the poor developing countries should take notice of the ground realities to share the miseries of the poor. They must swallow the sweet pills of the destiny of the poor so that they may realize the difference between the sweet and bitter pill of fortune.

To work hard –The destiny of the poor. To reap its fruit ---the destiny of some one else.

Some officials are assigned the responsibility to provide human facilities to the social set up and they are paid for that from the exchequer. If the officials sincerely take care of all the people, there would be no one to be called an unlucky guy.

Note: Ironically they are also termed as fortunate persons who are involved in forged goods --- illegal earnings, adulteration, plundering, bribery, theft and the like. What about the teachings of righteousness, truth, honesty, trust and justice? How about the enforcement of law and order?

## **WILDLY ANIMALS VERSUS A ROBBER**

If an animal goes mad, it would bite a man.

It would hurt him and sometimes the man dies because of it.

Such an animal is killed either by poisonous food or by shooting with gun.

Surprisingly a dacoit loots a man, hurts him and sometimes murders him.

And ultimately the dacoit is himself murdered in a combat.

What does remain the difference between a man and an animal?

Every hum being is a dear one.

A dacoit goes astray due to certain personal problems, depression.

And he adopts a wrong path. May God show him the straight path, and liberate him from the depression!

And may save other human beings from the wandering evils.

## **CONFIDENCE --- AND MAN**

How about the man? How about the nation? No one to confide on them. The confidence is related to man. A nation does consist of mankind. A nation does consist of confidence.

How does a confidence established?

By truthfulness --- by maintaining the truth.

Whether one does care for it or not!!

## **THE EDUCATION IN POOR DEVELOPING COUNTRIES AND A CHILD OF THE POOR**

To get education in the poor developing countries is, no doubt, a costly process. If the income of a man is not in conformity with his domestic layout in this age of price-hike, he would be at a loss to educate his children despite his all willingness because he would not afford to pay their tuition fees etc. besides other relevant expenses like purchase of books, note books etc.

The word 'education' under such circumstances, tantamount to mocking them as they would not think of getting admission in the educational institutions. Just imagine a contradictory scene between two children. One going to school dressed in a decent uniform, the other selling biscuits etc. on road sides.

The poor child must be yearning for education so that his innate God gifted hidden merits might emerge to exposure. And he could prove a benefactor of his home and his nation. Those who made inventions in the world belonged to the poor stratum.

The education is not a big car, a big bungalow or a factory not accessible to a poor child, to brag, pride or involved in jealousy.

The education plays a pivotal role in the progress of a country. But the education should be quite free or affordable even to a poor child.

The rich people and the rulers might be consciously or unconsciously conspiring to make the education system costly so that a child of the poor is deprived of higher

education to ameliorate the financial condition of his family.

The human awareness in the world is developing speedily; hence there would be no obstacles in the way of education very soon. It is, therefore, high time for the wealthy as well as the rulers to change their mode of thought so that the under-privileged countries are brought at par with the developed ones. They should take it as an 'alarming note'. If the ratio of poverty is increased, the reaction would be much alarming.

### **WHY A QUARREL BETWEEN MAN? WHY A MAN TO KILL A MAN?**

A family does consist of mother, father and a few children. If the mother places a bit more meal in the plate of her one child, the other would certainly protest. If a child snatches some thing from the other child, the latter, despite being younger in age, would come up to quarrel. Although both the children are of the same parents, are real brothers, yet prompted to fight against deprivation, injustice and oppression.

Each country is just like home wherein the Government's role is that of a mother. It does justice with its children (masses, provinces and the regions), they would never quarrel. No quarrel would take place if a child does not snatch anything from the other.

That is one of the main reasons of fighting and massacre between countries, tribes and families.

## **COMPANION IN A JOURNEY --- YET ALOOF WITH EACH OTHER**

It has generally been observed that two passengers travelling by sea, aero plane, train, bus or wagon etc. are sitting side by side, but keeping aloofness from each other.

REASONS;

Country:---- Russia, America, France, Africa, China, India, Brazil, Pakistan.

RELIGION;--- Buddha, Jews, Hindu, Sikh, Christian, Muslim.

LANGUAGE;--- French, English, Spanish, German, Urdu, Pushto, Punjabi, Siraiki, Sindhi, Brohi.

REGIONS;-----City, Village, Goth, Street, Mohalla.

NATIONALITY;----Tribes, Fraternity, Caste, Profession.

HUMAN COLOR;----Black, White.

They all are the human beings --- Called human beings.

Yet so much distance --- Because they are the victims of ----Bigotry, Hatred --- their own ulterior motives and arrogance.

The basic need of all is the Bread --- Clothes and Shelter.

Furthermore----Blandishment ---Coquetry---  
Intoxication ---Damage to mankind.

Two co-journey men sitting together in a journey ---  
yet what makes them aloof from each other?

One should consider the other of his own sort.

There is a collective betterment and welfare of  
humanity if we give due respect, honor and love to  
mankind as a whole.

## **A GOOD GUY**

A good and pleasing man is just like a flower that  
spreads his fragrance. This perfume can be smelled both  
closely and distantly. The society does remain fragrant,  
peaceful and harmonious because of a pleasing man.

## **ASSASSINATOR---HATRED---AND HUMANITY**

If a man assassinates another man with a whim of  
not to be murdered by any one is nothing but a non-existent  
ideology or principal. A murderer of mankind does become  
a target of hatred by the people.

It is but immaterial if the assassinator himself or his  
children do realize and/or reappraise it or not.

## **ALL HUMAN BEINGS ARE EQUAL**

Do the entire poor are at par with each other, at least  
to the extent of pure drinking water, sufficient food,

medical treatment, self-defense, cloths according to the seasons and the shelter to escape from cold, hot and rainy seasons? Do all the poor of the rich countries and the rich of the poor countries lead the identical life style or there is any difference between their food, accommodation and medical care? If the difference does exist, then why?

Could the poor of the world remain in a status quo?

What is the gradation of the human beings? What is the definition of the poor?

A human being is after all a human being irrespective of his belonging to another nation, religion or residing in any part of the world. He should be provided with all human facilities at any cost.

A thought, a message for the new generation!

## **MAN---DISTRESSED BY FALSEHOOD**

A liar is always denounced by the world humanity. The liars do remain distressed because of this bad habit. In this modern age, the research is being conducted to find a treatment of this illness along with the other diseases. In future, the lie will be detected by his blood test to ascertain the percentage of falsehood in a liar. The efforts are also being made to invent a vaccine for its permanent treatment. If succeeded this vaccine injection would also be given to a child along with other prescribed injections so that the child is immune from the deadly disease of lie or falsehood.

However, only the posterity would be benefitted by this invention. The present generation would not be benefitted by it. The only solution for them would be to

abstain from the practice of telling lie so that the health of the society along with their own remains harmonious so that no injustice, selfishness and depression might be meted out to any one in the society.

## **FAITH & FAITHFUL**

Every human has a faith  
Faith in religion being a follower, worshipper  
Faith in humanity being human  
No faith preaches  
Killing of innocent beings  
Human kind involved in manufacturing, exporting,  
trading,  
Lethal arms, ammunition  
Weapons of mass destruction  
OR  
In a manner linked with it  
OR  
Planning, conspiring, supporting, helping, executing  
Killings of innocent souls  
Within or on foreign land  
Muslims, Christian, Jews, Hindus, Buddhist,  
Zoroastrians,  
Unfaithful to their faith  
Have veiled faith  
Greed, lust, power  
Those not faithful to their faith  
Have no faith  
Human faith, interfaith  
Human being not harmful to humanity,  
Regardless of any bar, barrier, boundary

## **A SECTION TO BE ADDED IN INTERNATIONAL LAWS IN FUTURE**

Would it be probable to make such an International Law that the Ruler of a country is imposed imprisonment till death for his utter failure to provide entire basic human facilities in accordance with the constitution already in vogue keeping in view the speedy wakefulness in human intellect and education (the punishment might be proposed by the people of the future alone).

Note: Hopefully an empowered International Organization might be established to redress the complaints of the whole world.

## **COLOURED SPECTACLES OF PREJUDICE AND THE CRYSTAL CLEAR GLASSES OF HUMANITY**

The definition of 'bigotry' is that a man does presume his fraternity, tribe, colour, race, conviction and religion as the best ones. Different kinds of prejudices had had started from the inception of the social life on this earth. That is why the people have developed the habit of hating one another for this assorted reasoning.

As a matter of fact this conception of bigotry is pervading in our social set up in various forms. For instance the bigotry of tribes, fraternity, regions, followers of different religions, followers of their own religion and because of the affiliation with different political parties etc.etc.

Whosoever spends his life with coloured spectacles of bigotry, might gain some temporal material benefits but ultimately he would be a source of permanent damage to his children. The world would be looked hazy to him due to the colored glasses of prejudice. On the contrary the world be viewed in a crystal clear scenario if one puts on the glasses of humanism. This would be a source of betterment of the posterity as well as one's own.

Note: A prejudiced person might get timely gains but would be a means of permanent liability for himself and for his children too.

## **A MAN.....THE OTHER MAN**

When a man has the right to live in this world, the other man too has got the same right to spend his life in a similar manner irrespective of his belonging to different religion, sect, tribe, nationality, occupation, city, province or the country for that matter.

The life set up of each and every person is identical. One is a human being.....So is the other one.

If one does not consider the other one just of his own like, how could he be called a human being in its true sense?

## **WHAT ABOUT THAT NATION?**

The nations whose bigwigs are involved in corruption, yet their offspring (the masses) conceal their

elders' (the leaders) blemishes, could not be a good nation at all. When a child grows old he is nourished by his parents. He would obviously be absorbing the impact of the ambience he has been nurtured in.

The leaders of a nation are semantically considered as their parents. Those nations do surpass other nations in reputation whose leaders would save them from corruption.

God has blessed mankind with intellect but it has solely been left for him to select the way of utilizing his God gifted life.

## **A CLASS OF HUMANITY IN THE WORLD**

The mankind is confined within the frontiers of the world, but with different classes. The humanity of the America and other European Countries has got its separate identity. So is the case with Dubai and other similar countries.

The class of mankind of the poor developing countries is quite separate. The human beings of the poor countries are seen standing in queue of long lines before the Embassies of the developed countries for visa purpose.

The folk of the poor countries tend to travel illegally by Launches to try their luck in the rich countries. But unluckily they either die in transit by drowning in the sea or due to suffocation in the sealed Containers.

## **THOSE WHO VALUE THEIR HUMANITY**

1. The people who take care of their health.
2. The people who strive to lead their lives with a positive thinking. By speaking truth --- getting education---justice---honesty---trust---equality---honor---esteem---courtesy---sympathy---love---tolerance and cooperation with each other.
3. Those who could not think of damaging others, nor do they commit any such act.

They are the people who value their own entity as human beings.

## **THE LIGHT ---ILLUMINATION---HUMAN QUALITY**

The definition of 'light' in the Dictionary is the illumination used in its pious terminology. God has granted countless qualities in the mankind. Each quality of a human is just like an illumination. That social set up would be brighter one where the people with excellence do reside. The light is the 'elegance' (Noor) in its true sense.

A man could perceive into his own self the capacity of the elegance/Noor, he has been endowed with.

God conveyed the best human principles to lead an excellent life through His Messengers. They include the positive thought, truth, education, justice, honesty, faithfulness, mercy, generosity, cooperation, regard for

other human beings, not to harm others, theft, plundering, adulteration in foods, medicines and other eatables, weights and measurements, profiteering, back-biting, jealousy, not to get angry, respect for elders and affection to children, due regard to ladies, not to pride and no greed or lust etc. The people being the holders of merit, illumination, light, best qualities and exemplary characters.

These are the characteristics responsible to mould an enviable society, best country, the best universe.

The decision lies with the human being----Light or Darkness.

## **NOT TO DESPISE OR DISRESPECT A MAN**

As per prevalent customs with us one is under compulsion to work in any commercial set up, domestic workshops, hotels or shops etc. Or he is either a labourer, poor man, retarded guy or too weak to do any job. The ethics demand that such person should never be despised or disrespected. It should always be kept in view that an affronting person or using libel words against any person could also be a target of despite or insult at any stage of life.

Those who have had experienced such defamation start abusing others due to their lack of knowledge. They forget this reality that they could once again be the prey of such plight. The wheel of the fate might take a reverse gear at any time and a man of resources or wealth is compelled to knock at the door of such a guy who had had been their servant or worker in the past.

The world is replete with such examples.

One's own respect and greatness lies in respecting other human beings.

## **JUSTICE---MAN---AND HORSE**

The condition of the masses of those countries would be pretty better where the human beings are appointed in the Judiciary Department. Certainly such true and sincere judiciary personnel are an asset of that nation.

But the countries where the “Horses” in the guise of human beings have been deputed to do justice are fed with Currency Notes exclusively.

Those who feed them are the ‘horse-breakers’ to get the judgments of their own choice by using their whips.

Such horses spread their filth in the country, the odor of which would make the life the citizens unbearable. But the horse with his stiff neck presume himself to be a man of justice and expect due respect from the people.

The “offspring” of such horses resembling as human beings do inflict hurt to the mankind through their somersaults.

The decision of the mankind-like horses does upset and destroys the social structure of the humanity.

## **THE POVERTY AND DEPRIVATION --- THE MAN OR THE COUNTRY**

When a rich man would help the poor because of his poverty and deprivation, he does take the poor in his

confidence to get some illegal jobs done for his certain ulterior motives. The poor is compelled to fulfill his demand in view of his misery and helplessness. The poverty also breeds greed which ultimately moves him to adopt wickedness. His domestic life gets disordered after his involvement in vices. A stage arrives when he does become insensible to distinguish between the principles of humanity and morality. The same situation does emerge when the rich countries mete out the similar treatment with the poor countries.

Those who strictly abide by the principles of truth, positive approach, justice, honesty and trustfulness, can lead their lives in the days of hardship and tightness. The good intentions, honesty, self-confidence, strong will and sincere efforts of the people and the leaders are conducive to the progress of the nation.

### **A LITTLE TALK**

The rich people of the world cherish the feeling of possessing the big bungalows and the business network of the billions of capital like Aero planes and cost cars etc.

They deprive almost four billion world populace of sufficient food so as to remain hungry just for the sake of this pleasure.

### **A LITTLE TALK**

Are the Presidents and the Prime Ministers of the developing countries quite helpless before the International Monetary Institutions?

Are they in a position to make their own free policies without the approval of these Institutions?

## **THE IGNORANCE OR MENTAL DISEASE OF THE RULERS AND ITS LOSS**

It has been globally observed that the Rulers, Feudal Lords, Noble men, and the Chieftains or those who have excessive power and wealth are often seen suffering from strange psychological disease to fear that the person under their subordination may not surpass them in any field of life.

They should not make any progress rather may remain submissive and must stop before them. For this very purpose they commit excesses on their subordinates, do injustice with them. They do create obstacles or become a source of obstacle by themselves to provide them education and other human basic facilities.

By doing so they no doubt feel psychologically satisfied but their concerned area or country is deprived of the practical usefulness of the people endowed with the merit and capability of the person of their area. These days those countries are esteemed high who provide full freedom of education and living conveniences to their people. Other countries are indebted to them for this ideology and obey their orders willingly.

All such Rulers, Feudal Lords, the Noble and Chieftains might get relief in their mental disease but they do inflict colossal loss to their country in future. This reality is applicable to all those who deprive the mankind from education and subsistence of life whether they are the

believers of one religion or the other like Hindus, Sikh, Christian, Muslim, Jews or Buddha.

Besides, this is applicable to all small and big countries as well.

All human beings are equal and of the same sort.

## **A CHILD'S SWING AND THE SWING OF POWER**

The children are fond of enjoying swinging. The child would insist to swing more and more once he is rocked in a swing. Certain kids feel excessive pleasure in rocking and do not dispense with it. They are dismounted forcibly.

Once the political people get into the swing of power, they would try their utmost to recapture the rock of power by dint of their wealth, sources, body and soul, as well as with due or undue tactics. Some persons in power do not ever get out of the 'merry-go-round' but by the decree of God Almighty.

The people keep on witnessing their getting into/getting off the power swing of and on. And keep on awaiting the turn of the solution of their problems and miseries.

## **THE DESTRUCTIVE PLANS**

Although the projects of devastation are hatched in a certain country but the other countries do become the

victim thereof. The Hatcher of the plot is based at once place but its agents launch their activities at some other places.

The aftermath of such projects is sometimes heinous for future generations.

## **THE DIFFERENCE BETWEEN A CIVILISED AND A WILD MAN**

Those who give due regard to mankind are called the civilized people. And those who lead their lives with a law of jungle (sans any discipline or any code of conduct) are called the wild guys.

How would you rate those civilized people who endeavor to keep other people deprived by wresting and utilizing the resources, oil, rubber, diamond and other minerals by applying the law of jungle?

Imagine who are those people and in what region do they reside?

## **THE GLOBAL BIG BARGAINS AND COMMISSIONS**

The big bargains of business activities are settled between the countries/companies of the world. Such as purchases of Aero planes, weapons, different kinds of national mega projects etc.

The sellers pay a fixed commission to the buyers who approves and sign the deal. The commission is also included in the buying amount of the contract.

The tradition of payment of commission in other phases of life is supposed to be paid by the people after the sanction of different national projects (through national exchequer, of course).

Is it all done out of sympathy with the people -----  
or-----?

## **THE WEALTH OF A NATION AND THE RAVENOUS BEASTS**

The treasury of any country is invested with the toiling efforts of its people. Those who suck the human blood are called the savage beasts. What title would be accorded to those who plunder the treasury of the nation?

Such people are found at every place, big or small, in a country. God has endowed mankind with the blessing of intellect to recognize and distinguish between the good and the bad.

How would the betterment of a nation be possible?

## **A LITTLE TALK**

Barring a few countries wherever in the world the peace force of the UNO is deputed, the mineral wealth of

that country (oil and diamond etc) is taken out by that country after paying 5% of that wealth for the expenses of the UNO towards the maintenance of the peace army. This policy is in vogue since the establishment of the UNO.

If the statistics of all the countries, except a few ones, are collected, it will be ascertained that toward which country the wealth of the world is being drained out. And in this way a certain country is growing richer at the cost of the wealth of other countries. But other countries do remain the poor as they were. If it is so continued, they will remain the poor in future too.

The different groups of such poor countries are made to fight with each other. Both are provided weapons and they keep on fighting for their benefit, despite the existence of the so-called UNO peace army in those countries. Their wealth is taken out of the country by some other country.

This is a shameful situation for the people of those countries whose rulers take away the wealth of their country through different tactics to enjoy their life lavishly in other countries. The poor remain the poor to beg a few dollars from the big powers.

## **VIOLATION OF RIGHT---BEWEARE OF VENGEANCE**

How does a man recognize the rights of the other man?

The rights which are liked by a man for his own sake. The violation of rights begets hatred. The hatred does

create anger and the anger ultimately results in the production of vengeance. To avoid violation of rights means to ward off the vengeance. It is the duty of the rulers to acknowledge the rights of the people. It is also their responsibility to fulfill those rights.

The criminals who are in any society escape the timely punishment in the crimes like adulteration in food, theft, dacoit, murdering, loss to the national treasury, profiteering and hoarding etc. indulge in aggravation of plundering and tyranny. The social set becomes a target of hurly-burly and selfishness.

The people become the victim of insecurity and misery. To establish a legal ruling system is the sole responsibility of the rulers.

## **THE LIFE**

The life?-----An Idea-----Effort-----Practice.

The idea -----if not implemented-----remains an idea only.

And if implemented-----another idea.

The new ideas---- some implementable-----some unimplementable.

So the life to end up----between the vortex of ideas and its Implementation.

Then suddenly to get out of the vortex.

No one knows the direction of its incoming-----its  
exodus-----

And its root cause.

So this life!

If arrived-----why to depart of-----the life!!

Whatever be the duration of life-----it ought to be  
spent quite beautifully with-----;positive thinking-----truth-  
----education---- justice----honest-----trust-----and with  
hatred to none.

For upkeep of good principles -----onus lies on all  
for---this life!

## **A QUESTION/CHALLENGE TO THE ECONOMIC EXPERTS OF THE WORLD**

There are approximately 60% of the world  
population suffering from hunger ---- poverty ---- and  
ignominy etc.

Have the economic policies of the world gone  
failed? Is there any substitute of it? If so, what is that  
substitute?

## **THE KILLERS OF THE MERIT**

This is the basic right of every child of the world to  
get education for its promising future. For this purpose a

strategy is devised which is named as the criterion of merit. Those countries do progress whose children are given admission in the schools as well as job opportunity purely on the basis of merit. But the countries who disregard the policy of merit remain in debt and just like beggars.

Those countries instead of any progress are rendered to hurly-burly condition who kill the criterion of merit for admission in the educational institutions, for job openings and other sphere of life. This ultimately leads to creation of different crimes in the society.

What kind of murderers would be those elements who kill the policy of the merit?:-

1. The killers of the development of their own country.
2. The assassin of the subsistence of the future generation.
3. The murderers of the principles.
4. Or something like that.

Note: The children of the killers of the merit might meet the same fate in future.

Both the killer and the person to neglect the criterion of the merit are guilty of this crime.

## **HAT THERE BEWOULD T ONLY ONE COUNTRY TO RULE THE WORLD!**

There would surprisingly be a revolutionary reduction in the administrative expenses of the world if all

the countries do unanimously nominate and authorize only one country to rule the world instead.

For instance the expenses on account of remuneration to rulers, the cabinets, tours of foreign countries, Army and Intelligence set up etc. etc.

Would that country be capable of providing social security to all the populace of the world by utilizing the resources of all countries collectively?

There are almost 200 countries in the world that remain fearful of each other and endeavor to devise strategy to snatch the resources of each other.

Such alarming problems would be solved automatically in this way.

This is just an imagination of mine but it might be turned into possibility because the people of the whole world would get united at once if any other planet targets the earthly planet at any time.

## **THE RESOURCES OF THE WORLD AND THEIR UTILIZATION IN FUTURE**

Keeping in view the speedy development in the intellect and education in the world, it can be presumed that the people of the entire world would utilize the resources of the global soil on equity basis.

No country would hold the superiority over the others. In this way all such issues would be settled with the unanimous consent.

**PURE WATER -----GOOD SOCIETY!**  
**TURBID WATER-----BAD SOCIETY**

That water despite being pure and clean water would be conceived as turbid water. Of course unworthy of use by the people if even a single drop of any filth is mixed in it. Likewise if a bit of falsehood (filth) is included in the truth (purity) of the society what impact would it cast on the society?

The children are innocent by birth. They take all the activities of the society as a reality or truth (Purity). This is the responsibility of their parents, elders and other responsible people that what sort of society they would inherit to their posterity.

Pure water-----Good society! Turbid water -----  
Bad society!!!

**WORLD NO MORE UNEXPOSED**  
**DUE TO SATELLITE CAMERAS**

Now everyone can witness one's home on internet because of the speedy development in the telecommunication in the world. Any part of the world can be seen rather. The world is interconnected from one corner to the other through mobile phones, even if the mobile is closed. The technical experts can listen your conversation with any person or in the meeting if your cell has got the charged battery therein. That is why the mobile phones are kept separate in the Corporate Meetings in the world.

It is now impossible to befool other countries for the benefits of one's own country. The process of globalization is in progress. Therefore, the future era would be of the welfare and betterment of the whole world.

Therefore, instead of snatching the resources of other countries, there should be an uniform policy of utilizing them for the whole mankind.

## **THE EARTHQUAKES AND THE SOCIAL EARTHQUAKES**

The earthquakes, small or big, always occur in the world. Lacs of people die and get devastated if the intensity of the earthquake is much. Similarly the social set up of the poor countries does suffer because of the social earthquakes. There are different institutions according to the rules and regulations framed by different countries to fix their scope of functioning.

The social turmoil is created when the institutions indulge in interfering into each other's activities. This situation causes to bring about the social earthquake for the people of that very country.

The jolts of such earthquakes are even felt on daily basis. The societies of such countries start heading towards the downfall instead of getting any progress and betterment besides increase in every sort of wickedness.

May God save the poor countries from the social earthquakes as well!

## **DEMOCRACY --- A COLLECTIVE WISDOM**

The collective wisdom is applied for all activities in the developed countries. The majority of the work out an unanimous decision and an elected ruler is made to get the decision/policy is implemented. This is called as a 'Collective Wisdom'.

But in the developing countries the situation is quite different. There only one person is acknowledged as the sole wisdom. And thus lives in every hope from him. (Such people used to live in the primitive age).

## **THE BIG POWERS CONSIDER SMALL COUNTRIES AS THE BABES**

A few big powers of the world because of having abundant wealth and power try to dominate the small countries through their agents by granting different conditional aid and loan to them. This is just like amusing the small kids by giving them sweet toffees etc.

The depressed, poverty-stricken and deprived persons of the poor countries get consoled if even a cemented drainage in their streets or a pucca road is constructed in their village or any other human facilities are provided to them.

The poor and the deprived people do bless their stars for getting a temporal relief because of the provision of these facilities. And the big powers, on the other hand, keep on playing this funny game with the poor countries for their ulterior motives. The small countries remain

dependent on them like the beggars to take loan and aid whatsoever.

## **MAN- GENEALOGICALLY THE SAME THE WORLD OVER**

The man--- genealogically the only one and the same-----but living in the world:-

Different areas, convictions and language

-----but----

Talking---Conversation---Habits---All the same.

Food --- Water --- Milk---Wheat---Rice,  
Vegetables---Fruits.

Pains --- Difficulties --- Miseries --- Injustice ---  
Deprivation-----All the same.

The world for all --- The resources for all.

Population about 7 Billions.

The expenditure on Weapons --- Ten Trillion  
Dollars.

The layout on food and for solution of misc. issues -  
-- A few billion dollars.

Yet no dispute --- No wars--- Peace and Tranquility  
everywhere.

Provided one goes to ponder over it.

## **THE SOCIETY WITH ABASHED WORD TERMINOLOGY**

There are different societies where the word with true meanings sometimes do meet with bashfulness and topsy-turvy while interpreting truth --- honesty --- fidelity --- justice --- security --- selfless service --- sincerity --- responsibility --- equity --- merit --- discipline --- unity --- morality --- respect --- honor --- modesty --- upright --- legality --- tolerance --- behaviorism --- toiling --- remuneration --- genuine cheap goods --- light--- punctuality --- accountability --- appraisalment --- constitution --- and humanity etc. etc.

What sort of these societies are?

How might have the people been residing over there?

What might have been the credibility of the responsible, authoritative leaders of that society?

## **THE TOMORROW**

There is always a common saying that who has seen the tomorrow? In a way it sounds correct and no one has the knowledge of one's future events and/or life (accident – calamity and sudden death etc).

The tomorrow (future) has got to be witnessed by the posterity like the man of the present phase has had perceived the 'yesterday' of the past generations.

This is the human nature that the man of the present age always strives to ameliorate his current conditions as well as the betterment of the posterity.

The decent foundation of the next generation has got to be based in the present era for this very purpose.

The next generation might witness the same organism as the present generation would have had based.

The organism of corruption ---or---the organism of justice!

Note: The mankind has had been pulling on his life on water, herbal plants. That age was termed as the age of barbarism and savage before coming into existence of the civilized society.

## **EDUCATION OF AN INDIVIDUAL IS THE NEED OF EVERY NATION**

The education is 'sine qua non' for augmentation of intellectual consciousness and to distinguish between vice and virtue. Getting education is the need of every human being to lead a better life.

It is the responsibility of the rulers of any country to create easy and affordable opportunities to the citizens to enhance the level of education.

The costly education is beyond the access of the poor as well as a middle class person. This, obviously, is a set back to the welfare of the mankind. The rich people probably do not feel much necessity of getting education.

Why are institutions imparting academic facilities so costly? Why the educational institutions are beyond the reach education itself?

The secret of betterment of mankind lies in providing cheap and equitable chances of education to every individual of the world. It is pernicious for mankind to run the academic institutions on commercial pattern.

### **THE MAN-EATERS --- MAN ----COUNTRY**

The people in the primitive age used to be cannibals because of their ignorance of human dignity. A man used to eat a man as a food. In the present age, the powerful countries tactfully wrest the resources of the small countries through their different policies and tactics to paralyze them economically via International Monetary Institutions.

They strategically snatch the resources and wealth of the other poor countries for the benefit of their own people. Thus the people of the poor countries are rendered pauper and impoverished with this tactics.

This scheming of the big countries is equal to cannibalism.

Which is the ‘man-eater’ country in today’s world?

### **THE WINE OF HATRED**

Since the beginning of the civilization in the world, the people devised various ways and means to prepare food

items and drinking stuff etc. One of the drinking items is called the 'wine'. It is prepared with the extraction of different botanical herbals. Its use heats up the human blood circulation thereby motivating the functioning of brain. The person, after drinking it, gets intoxicated and does feel some 'alacrity' in his senses. Ultimately he goes abnormal by losing his thinking faculty with its over use. He thus becomes harmful to other human beings around him.

The whole world has imposed restriction on its use. But some countries have enacted rules and regulations to fix the quantity of its use by an individual. The drunken person is not allowed to drive. On violation, they are sent in jails rather.

Similarly when a man gets hurt because of the writings, speeches, conversations and conduct of another person, his brain waves start disliking him. This disliking would turn into negative approach leading to hatred against him. When the impacts of hatred are increased in the brain factory of a man, he would try to damage or even to kill the opponent in certain cases. Sometimes a little quarrel does turn out into a big fight.

All such actions are attributed to the intoxication of hatred. Like an intoxicant person with his mental imbalance, the extreme hatred or detestation also does disturb one's mental equilibrium leading to the acts of wrangling and murdering etc. Such persons are, therefore, called the intoxicated persons.

This reactionary process starts either due to discrimination of tribes, fraternity, and regional bifurcation

or because of political differences, religious hypocrisy or factionalism etc.

A normal drinking person might cause less damage to the society but the persons intoxicated with hatred become a source of nuisance and colossal loss to other human beings. Hundreds of people are reported to be killed in this way with the destruction of their family members for no fault of theirs.

The secret of survival and safety of the mankind lies in abstinence from the 'wine of hatred'.

## **THE MODERN WORLD OF HUMAN CONSCIOUSNESS**

Neither a man is the Russian, American, British or the African.

Nor is he the Arab, Brazilian, Chinese, Japanese, Indian or Pakistani.

All are but human beings ----- albeit human beings indeed!

Hands, legs, eyes, noses, tongues, color of blood ---  
- just the same in all.

Why is then prevalent in the world so much -----  
bigotry ----- hatred?

The walls of prejudice have got to be broken -----  
The walls of the

Hatred have got to be fallen.

All s a primitive --- emotional and motivational ideology.

New awakening ---- new thinking --- that all human beings to be Provided with all the basic human facilities.

Pure water --- bread --- health care --- security --- justice ---- To all human beings indiscriminately.

Respect and honor with tolerance ---- peace with happiness to exercise.

This world ---- not mine ---- or yours. This world is of all.

Its resources, means -----for all of us ---- without any color--- race ---

Conviction ---- religion ---- or nation.

Women ---- men ---- children --- big or small --- all are ours.

This awakening must be initiated ----- tomorrow ---  
- if not today!

So why not to enunciate it from very today.

This is for the betterment ----- of all human beings.

## **THE MONKEYS ----HUMAN-LIKE MONKEYS AND THE SOCIETY**

There are numerous kinds of the animals. The monkey is the only animal whose physique and movements

resemble with the physical body and movements of mankind. Darwin, the famous Scientist, had claimed that man was a monkey in the primitive age. With the passage of time the changes developed in him and he became man instead.

The monkey does leap over from one tree to the other for food in its natural movements. Likewise there are certain monkey-like people in different fields of the world who leap over the 'tree' of Ruling Power setting aside their dexterity and loyalty. Sometimes they leave behind the actual monkeys in their characteristic. Probably such monkey-character persons come up to prove the ideology of Darwin.

## **JOURNALISM OR POLITICS**

Both journalism and politics are the best sources of dissemination of social life to serve and guide the nation. It is a sort of worship in a way. A person performing his duty in either of the field at any stage without any greed/monetary gains is a great man indeed.

The decision lies with the person connected with these fields ----- worship or monetary benefits.

“Surely God created man of the best stature.”

## **THE SUPPLICATION OF A MAN**

O God Almighty!  
Get the man recognized his creation/greatness as a man.

Get the mankind realized the value of being human beings.

A man to give due regard to the other person.

Make man realized to consider the other man of his sort.

Create awareness in mankind to think of welfare of others. Make

Him a man of character.

O God!

No such thought or idea should get in man's mind:

To damage other people with his act and talk.

“Aamin!!!”

### **THE HAPPINESS ...IS IT!**

Such happiness ----- Is it a happiness?

Which is obtained by inflicting damage to others!

Which delivers pains and miseries to others!

Such happiness ----- A temporary happiness to deceive one's

Own self!

Such de facto happiness ----- to foster happiness in others.

To cherish happiness ----- by assisting others -----  
by feeding a hungry man.

By treating others identically.

Such happiness pervades forever.

Every thought -----to bring forth happiness!!!

## **YOU CAN PRACTISE BENEFICENCE TO MANKIND**

What could you give to me -----if I do not want  
to get that.

If you can afford to give ----- Give me a real  
reflection -----

A worthwhile meditation.

I can confer you something ----- A realization to do  
goodness.

Ponder over it if inclined ----- If not-----Nothing  
doing.

Strange! Your getting scared to tend to any  
goodness -----

----- what to speak of doing any good act by  
yourself.

However, just listen to me for a while ----- Do  
goodness to Mankind ----- if you can!

If incapable to do maximum ----- just do a bit of it.

Be benevolent to mankind please.

Be benevolent to yourself at least ----- practice  
beneficence for your offspring.

If incapable to do maximum ----- just do a bit of it.

Be kind to an orphan ----- Be generous to a pauper.

Render service to the poor -- do feed a hungry man.

Give due respect to a woman ----- Render service to  
an elder.

Go to regimen of the sick person ----- take care of  
your Neighbourer.

Exercise abstinence from cruelty.----- Be merciful  
to a helpless and compelled person.

Administer equity ----- practice justice.

If not more ----- Do a little bit goodness -----  
Extend goodness to someone----- Own goodness to your  
own self.

## **THE CAPTIVES OF GAINS**

There are almost two hundred countries in the  
world. Every country is headed by a ruler who does take  
oath on solemn affirmation to serve his country for the

betterment of the country as well as the public as a whole. For this purpose different institutions are established to govern the rule like Assemblies, Administrative structure and judiciary format etc.

There is also an international organization named the “United Nations Organization/ (UNO)”. This organization has been established to assist as well as to supervise the issues of the entire world population of the world as a whole. Its entire expenditures are borne by all small and big countries collectively.

The establishment and the office bearers of the judiciary, assemblies and other outlets of the UNO are paid salaries, allowances and honoraria etc. every month.

In spite of the sincere efforts of all these office bearers of the UNO the basic human facilities are enjoyed by the people of the developed countries alone. Almost half of the population of other developing and under-developed countries remains deprived of these facilities. Is it not an utter failure of these officials of the UNO? As a matter of fact they have no spare time to think about the future because they are engrossed in their routine activities or they are performing these responsibilities willy-nilly for the sake of their remuneration.

They have been unsuccessful to provide the basic human facilities like: food, clean potable water, shelter and medical treatment as a whole. Are they not the captives of economical, financial and internal benefits of their respective countries?

## **CHANGE IN THE SOCIETY IS INDISPENSABLE**

The justice is an important pillar of any society. It has been witnessed that the change in any society occurs just because of injustice. If the society is not liberal and enlightened with injustice attitude, the traditional and conservative people would step in their shoes. Similarly, if the society is immersed with traditional, unjust and conservative people, the liberal and enlightened people would appear.

If justice is delayed, or gets costly, or the justice is manipulated to render a person deprived of self-defense, the change in the society would be doomed to occur.

This is the law of the nature.

## **MY COUNTRY**

I love the soil ----- where I was born.

The fragrance of the soil ----- to be with me till my death.

However, the whole world is my country ----- as I being a human being.

Human beings every where in the world ----- one family-----all humans.

This universe ----- the homeland of all of us.

The basic need of all:

Food --- Water ---- Clothing -----Shelter.

Health care ----- Educational facilities.

Maintenance ----- justice -----self-defense.

My country ----- the whole world ----- where I have  
to reside.

All have to live ----- with peace, love and security.

This universe ---- for all human beings ----- home  
land for all.

## **THE CAUSE OF BAD-LUCK OF THE SOCIETY**

The mushrooming of vices in any country occur  
because of the negligence of the rulers ---- concealing the  
blemish and incompetence.

The people of that country are doomed to be the  
victim of equity, justice, unemployment, hunger,  
depression, Hurley-burley and self-aggrandizement, if the  
rulers would involve in wickedness by themselves.

Such people are considered unfortunate ones.

The bad-luck is destined to those people who elect  
such leaders to rule.

## **THE WHITE CRIMES AND THE BLACK CRIMES**

1. White Crimes:

To keep the poor countries indebted to them by extending loans from the International Monetary Fund with the result that they are getting poor to poorer countries to give vent to corruption.

Such as adulteration, second-hand goods, wrong statements and to coin financial schemes to plunder the human beings.

2. Black Crimes.

Pick-pocketing, theft and dacoits etc.

## **THE PIONEERS OF DEMOCRACY IN THE WORLD AND THE OTHER SIDE OF THE PICTURE**

England is said to be the mother of democracy. And America is called the biggest pioneer of democracy. But both the countries have the Veto Power in the Security Council of the UNO. What does make their claim of being pioneers of democracy silent? On the top of it India presuming to be another big harbinger of democracy is also striving to get similar authority in the Security Council of the UNO. By doing so they themselves negate their claim of being pioneers of democracy.

Is it not a glaring example of hypocrisy and double standard in the world?

## **IT IS NEARER -----SUCH A TIME IS QUITE NEARER**

The process of living of us all keeps on continuing  
\_\_\_\_\_Even of helpers, deprived` of resources, destitute,  
terrorists, looters and that of the savage.

Terrorism, cruelty, avenging-----All symbols  
of beasts.

Soon will step in those people-----to harbor  
hatred against oppression and injustice.

The time will come when the oppressors of  
mankind would hide their faces.

The race would decline to be the heir of all those  
frightful characters of the past.

Whose dirty role abashed the word 'shame'-----  
made their faces loathsome.

The effigies would be burnt ----- the bodies would  
be unearthed-----of all the  
Dictators and the looters.

The national assets would be looted -----The  
destiny of the nation would be doomed to ruin.

None to question -----Neither today-----Nor  
tomorrow.

Yes!-----the time will come ----- it is doomed to  
come soon.

## **THE ANIMAL FARM -----THE FARM OF THE ANIMALS**

A writer wrote a book entitled: “Animal Farm” regarding the farm of the animals. He depicted the assembly of the animals. An animal exposed the corruption of their leader. But the dogs present in the animal assembly tortured the animals brutally.

None, thereafter dared to speak truth in the assembly of the animals.

### **WHO IS THE OPPRESSOR?**

It is normally an individual to dictate oppression but countless people act upon that dictation. Who would be the actual oppressor then? ----- The Dictator or the one to carry out the dictation ----- or that who commits excesses ----- or both of them!

The supporters of the oppressor being big tool of his power. The dictator is defamed but his supporters on the contrary are rendered pious and innocent.

Could an oppressor be an oppressor any more if his supporters abandon to be the source of his power?

What does make them to support such an oppressor?

1. Personal gains.
2. To provide coverage to their crimes.

3. Or due to their involvement in dreadful misdeeds.

A question to a Brain Specialist!

Is it an innate irregularity in the brain cells of an oppressor which gets regulated after accomplishing the act of cruelty?

### **A QUESTION TO THE HUMAN RIGHTS COMMISSION AND SIMILAR OTHER INSTITUTIONS**

All the countries of the world have been conducting trade and commercial transactions with each other since the primitive age. No country would bother to interfere in the affairs of another country if it has got autarky in its own resources. But if a country ventures to tactfully snatch the resources of the other country the people of the latter are just left to the plight of starvation.

Have ever the Human Rights Commission or such other institutions taken notice of the role the developed countries are playing in actuality?

Note: is it not so that the food and other subsistence to be distributed by the rich countries does originally belong to the poor countries formerly snatched away by them?

### **A MINOR ISSUE**

If a law breaker is defended in the national interest then a common person would also find refuge in the violation of law for the benefit of his own self.

A country's interest -----National interest.

National interest--The interest of the masses.

When the big powers tend to resort to violation of law, the small countries would also follow suit.

It appears that the overall collective organism of the world is at the mercy of confusion in the name of "National Interest" whereas the majority of the human populace is deprived of all basic human facilities.

### **THE WARS IN THE WORLD-----TENETS OR RESOURCES?----- ALL IN VAIN!**

The resources of the earth -----Root cause of brawl in the world!

Human society, constitution and law -----All meant for peace and security!

The religion to guide the mankind-----The Messengers descended therefore!

The teachings for the mankind?-----  
Knowledge, positive thought, justice!

Honesty, trust, equality, tolerance love and forgiveness!

So fruitless are the brawls if fought for religions and tenets!

The actual brawl is initiated for resources -----  
by a few utilitarians!

Justification, reasoning?-----Country and Tribes---  
-----Just to mislead the

The people-----Vanity----The result!

The rulers and their companions?-----Just to  
enjoy life -----And Booty!

When majority of the mankind is rendered deprived  
of basic facilities.

The assessment of world resources-----visa a vi  
world population-----quite  
Sufficient for the subsistence of all human beings.

Today's wars -----All meant to grab the  
resources by a single nation-----  
No matter if others suffer starvation.

No brother No!!!

The soul, hunger, food, conversation, habit -----  
All identical of mankind.

So all human beings -----should come up to  
share for survival collectively.

The future human awareness?-----All human  
beings-----Equal as a whole!!!

## **TO GET EDUCATION VERSUS TO DEPRIVE OF EDUCATION IN THE NAME OF CULTURE**

In certain parts of the world their new generation is  
deprived of getting education in the name of culture. Such

policy/taboo tantamount not only to meting out cruelty to their posterity but to sustain damage for themselves as well. The education does augment the human intellect and awareness. It also enhances the already achieved knowledge. Not only that, the education makes us to distinguish between goodness and evil. Good actions or habits are conducive to betterment of a person. The people of those regions and tribes lag behind the other nations who are not encouraged to obtain education. The human race in the world continuously keeps on passing through an already set procedure of journeying. The things which did not exist in the past have now become the necessities of the mankind such as mobile phone and the digits of the kind.

So to get education has become incumbent to keep up with process of human welfare. That is the only way out for the educated people and tribes to maintain their identity otherwise they would loose their existence sans education in the process of Humanity. Those sectors of the world with abundant mineral resources would be in a position to utilize them in future for the human benefits. And this would certainly attract the other sectors to tend to migrate over there. It is, therefore, essential for them to pay particular attention in getting education to compete the immigrants in experimenting their mineral stores.

The leaders and the chieftains of such backward areas should particularly exert emphasis on education to combat such future circumstances/events.

## **ALL BUT ONE**

God-----The Descender of Soul.

The Soul -----Descended by the Descender but  
with no power---

For all -----whether the believers and the non-  
believers.

Physically -----Hindu, Muslim, Sikh, Christian,  
Jew and the secular-----  
-----All human beings.

The religion, faith of a new born child?-----  
-To be the same-----  
-----As that of its parents!

Today's child -----Tomorrow's young!

But the hatred of the mankind 'inter se'?-----  
-Just created by themselves---  
-----For various ulterior  
motives!

The hatred?-----Not the command of God!-  
-----Nor it could be!

God created man by Himself-----Man His  
creation!

Every Creator loves his creation-----God loves  
man -----His creation!

Mutual love -----Source of peace for all---  
-----A symbol of pleasure.

Education, positive thought, justice, honesty, trust--  
-----All with parity!!!

## **FOR MALE PERSONS MOLESTING WOMEN FOLK**

As we all know the mankind is composed of two genders i.e. male and female. The man due to his physical strength has got superiority over woman. This is the organism of God Almighty. The foremost duty of a woman is destined to bear child. The human being, the creature of God, is born through a woman. The woman is called the mother. A child even after growing old is supposed to respect his/her mother. It is painfully surprising that a woman is meted out cruelty in every part of the world.

The men commit tyranny on women because of being authoritative earning hands. To beat and quarrel with them is just a routine practice. Man grows old sooner in the process of life with hectic operational struggle and contracts diseases with the passage of time. The situation renders them to endure rebukes from their wives. It has also been witnessed that the wife which was inflicted excesses in youth, now becomes the only supporter in his old age. This is a glaring example of the endurance and perseverance of a life partner.

The prosperity and pleasure of a family depends on their living with respect, honor and love with each other.

Today's cruel man -----Tomorrow's  
Indigent!

## **WOMAN---HAD SHE NOT BEEN CREATED**

Had woman been non-existent,

Man would not fancy her.

Had man been non-existent,

Woman would not fancy him.

Wisdom of God Almighty-----Man and woman.

Responsibility-----Joint.

Respect and honor-----Equal.

**RESPECT OF WOMAN-----HER  
PROTECTION AND DIGNITY-----  
VIRTUE OF A NATION**

A terrified woman-----child-----impacts of fear.

God created mankind. And then divided them in two separate male and female genders.

Why should a little girl or a woman remain scared and frightened!

Why is there the feeling of insecurity to a woman --  
--especially in the Muslim Society?

The causes of lacuna in the strategy of security are excesses of the man and Non-compliance of law and order.

Injustice-----The weakness in providing justice.

The responsibility lies on all -----the citizen, representatives of the public Administration, judiciary ----  
-----responsibility of all of them.

According to the medical science, the past history life of a mother plays a dominant role in the growth of a child.

Those children would inherit the elements of fear whose mothers, daughters and sisters are rendered frightful in a society.

The children lacking creative power and passions of courage and boldness do cast negative effects of goodness and betterment in a nation. It depends upon the men that what characteristic would they like to witness in their offspring.

Why do the unknown societies negate the right of respect and honor of a woman?

The dignity and honor of woman-----  
Betterment of a nation!!

## **THE COMPETITION AMONGST VIRTUE MONGERS**

All the religions of the world disseminate the teachings of virtue. The followers of which religion would win if a competition is held among the believers of different religions regarding the good acts. There are 6.30 hundred million people in the world. The approximate proportion is as under:-

1. Christians-----2.00 H.Millions.
2. Muslims-----1.30

3. Hindus-----Over 1.00 H.M.

4. Bhuddists-----Over 1.00

The rest include other religions and the secular people.

The competition could be adjudged on the following points:

The maximum followers of which religion is:

1. provided clean drinking water?
2. provided sufficient food?
3. given due consideration for their health?
4. arranging suitable job provisions?
5. given due attention for their safety?
6. provided timely justice?
7. given jobs and promotions and other relevant issues purely on merit basis.

## **PLACE OF WOMAN**

God, first of all, created mankind. Then He entrusted this responsibility to woman. So this is only a woman who is to give birth to human beings whether he is poor, rich, ruler, ruled, worker, owner, weak or powerful.

The woman is not to be taken as a play thing. To insult or demean a woman means to do so for your own sake.

Give due honor to woman-----woman is mother.

## **INNOCENT, COMPELLED, HELPLESS FEMALE CHILDREN**

There is none to get hold of the people in the world where the innocent, helpless and forced female children are molested. (The guardian's lives and honor go beast to dishonor them). The so-called responsible and authoritative persons of such countries have been deputed to safe-guard the chastity of female children and women. They would cry havoc if their own children or women meet the same sort of treatment.

They have fabricated different measures to assess the honor of a helpless and a powerful woman. The respect and honor of every one is the same in the world irrespective of his being a rich or a poor person. In the age of Law of Jungle no discrimination was observed among mother, sister or a daughter.

Then came the age of civilization plus religion and much emphasis was laid on the honor and dignity of woman. If the criminals who loot the honor of a woman in a country are not arrested, then what difference would remain between the Jungle Age and the Age of Today. There would remain no distinction between responsible authorized person and the savage one.

Such a country would be termed as the "Zoo" of the mankind. The other countries would make films of that country through satellite cameras to teach lessons to their children exposing the scenario of our jungle like life style.

Is there any sage to ponder over it?

## THE DRESS OF CHARACTER

A person in the world does put on a dress to cover up himself. He gets his dress tailored from a good tailor-master to look tidy. The people adjudge his merits and demerits the quality and style of the dress he puts on. But the factual quality of a person has specifically been outlined in all the religions and academic books. It becomes quite difficult to distinguish between a good or a bad person where the majority of the people is dressed in a bad character.

The people dressed in a good character also start doubting that “why and how is it so?”

The dress made of cloth is obviously time limited and keeps on changing. But “the dress of character is perpetual.” Those countries do progress where the majority of the people in administration, judiciary, parliament, police, army, religious circles, business and other spheres of life are equipped with “Dress of Character”.

The peace and security does ameliorate there to prosper the public life in a commendable manner.

A common citizen does cherish security and justice and feels no problem in health care, job and subsistence etc.

It is the duty of every citizen, big or small, to remain in the ‘dress of character’

The foremost responsibility lies on the rulers and the parents both.

The younger ones learn-----what character the elders might demonstrate before them.

## **THE BEARING ELEPHANT-SIZED WISDOM AND THE STATE OF THE WORLD**

If a cursory look is cast on the state of the world it would appear that:

1. The countries of the world fight with each other on the world resources.
2. The insanity to amass wealth in the economic system of the world is on increase.
3. The division of mankind is planned on the basis of religion, race and region etc.

The Agencies of the world keep on waging wars against each other.

On the contrary, all countries do have their own rulers and administrators as well. Despite their active functioning the majority of the world population does suffer from anxieties, difficulties and other various problems.

It seems that the organization of the world is being conducted by the people with 'elephant-like intellect'.

The events and scenario of the whole world are before us.

If these intellectuals adopt the fool-proof measures by utilizing their wisdom then every person would be provided all the human facilities like food, water, clothes, jobs and justice on equality basis.

The present world ruling system has got to be altered for the betterment of the lot.

## **TO ACHIEVE HAPPINESS IN LIFE**

One aspect of happiness in human life is the ‘Spiritual Happiness’. It is derived according to the dictates of the religions.

The other aspect of human happiness can be termed as the practical happiness. Such happiness is achieved in pursuit of good acts. For instance: to pass an examination with flying colors, to get victory in any game, to do selfless service to the needy, to achieve legitimate wealth, to support one’s parents, to help the poor, to look after a neighbor or an orphan as well as by providing medical treatment to a deserving person.

Briefly speaking, the happiness or pleasure can be achieved by committing virtuous human deeds.

Such happiness can only be obtained after doing good acts for the humanity as a whole.

## **WHO ARE THE BEST ACTORS IN THE WORLD?**

There are different departments like theatres and films etc. for the actors to act therein. The actors performing in the theatres have to remember the dialogues by heart to demonstrate before the audience.

The film actors perform their role either by remembering their dialogues by memory or reading them out before the camera. They have to repeat their dialogues several times before the final 'OK' by the Director.

In some countries, the rulers also do perform such acting. They elaborate the country problems in such a manner as if they are doing it for the benefit of the public. Yet the majority of the masses do remain deprived of the basic human facilities.

Such rulers are either quite innocent or artless or they are the best trained actors of the world. They need not go for rehearsal. Such rulers have got to be awarded 'Oscar' like awards in the future.

## **WHAT SORT OF THE PEOPLE THEY ARE?**

There are certain persons who maneuver to include their names in the rank of pious persons after accomplishing some deeds of welfare and charity by usurping the rights of others thereby committing injustice, deceiving, cheating, adulteration and earning through unfair means and thus enjoy their lives in a self-styled manner.

Some times they make expiations to justify their misdeeds. Would it be a true atonement in itself? Would the acts of usurpation, deceit, excesses, deprivation, bribery and injustice offset his bad acts? What would be the compensation for the affected persons? What is the punishment and award in the world? What would be the punishment and compensation in the Hereafter? What sort of atonement would it be if the people are rendered hungry and deprived?

The life whether in this world -----or the life hereafter-----has got the same equity.

The norms of leading the life remain unchanged from the beginning to the last stage of life!

## **THE SERVANT AND THE UNJUST MAN---- THE IDENTICAL NOMENCLATURE**

The bread, clothing and justice-----The identical names.

If no justice is meted out -----Neither bread, clothing nor the shelter.

How to get back the snatched things-----If no justice is done.

Thy name is the Artless and the Innocent-----If things are not intelligible.

Try not to be innocent -----Nor to become a servant.

Be human beings -----O People!

If justice is meted out-----All will get the bread, clothing and the shelter.

No one dare to question the price-hike-----The excesses-----The cruelty.

If anything tenable-----that is only-----the justice.

Justice at all level-----at every stage.

So set out -----justice-----O  
mankind!-----O people!

### **SOME PEOPLE IN THEIR OWN COUNTRY!**

There are the people in some country----!

In different garbs-----!

Agents and Lackeys of the enemy.

Discolored -----Having unbearable bad smell.

They are the enemies of their own home-land.

May God protect our home-land!

May God save it from the bad enemies!

Surely there are some elements-----In diverse  
dresses.

Agents and sycophants of the enemy.

Having bad colors and obnoxious odour.

### **LACK OF PASSION-----OR -----LACK OF COMPETENCE**

It is commonly considered that in some countries:

The leaders-----The rulers-----The Public  
Representatives---

The people of administration-----the personnel  
of judiciary----- Individuals of Govt. Institutions---

Do have some passions-----to serve the home-  
land-----and the nation.

If such passion does exist----why the majority of the  
people of the poor countries are the victims of deprivation,  
pains, trials and injustice?

The constitution of every country bounds its leaders  
to serve the people when they are paid from the national  
exchequer!

### **A LITTLE TALK!**

Do respect woman ----- the woman is mother!  
God is the Creator of the Universe!!

### **THE WORLD OF PRESENT AGE AND THE CONDUCTS OF THE NAWABS (NABOBS) OF THE OLD PERIOD**

There have had been such persons in different parts  
of the world who used to be called the 'Nawabs'/'Sardars'  
in their area. They had been the owners of a large area  
consisting of some small villages. They had engaged some  
Managers to administer their relevant area.

There were the smaller Nawabs/Sardars in each  
village who were responsible to the bigger Nawabs/Sardars  
to comply with their directions. The big Sardars used to  
extend loans to the villagers just to keep them strictly under  
his obedience and command.

Some people of the small villages had to be in a pursuit to become small Sardars by themselves as well. They used to exercise all sorts of servitude for this very purpose. They used to be in a trial to get access to an ordinary worker of the big Nawab to gain latter's favoritism. (It was prior to the age of TV and Newspapers etc.).

Had they been successful to become small Sardars, they were supposed to act upon the dictates of the big Nawabs/Sardars.

The poor used to remain always poor during this sort of changing scenario!

Do we not witness the characters of such small and big Nawabs and Sardars even in this age too?

## **THE TRAITORS OF THE FUTURE**

They would be considered the Architects of a nation by playing their role in progressing and disseminating the education. But those individuals would be taken as the traitors of the nation who create hindrance in the propagation of education.

## **THE CALL OF AN OPPRESSED PERSON!**

‘O’ God Almighty!

Thy command to give life!

Thy command to accord death!

I, your Vicegerent!  
I, your Caliph!

Cruelty----befalling upon me!

I, being constantly tormented!

Poverty ----- only my fault!

Helplessness---and-----compulsion---too!

The Tyrants!----haunted with tyranny!

I,----in this grindstone-----of tyranny!

You are the Greatest!  
But where YOU are Lord!

If you are busy-----Where are your Angels?

How Greatest You are?

Where is your club?-----Having no  
demonstration!

Neither silent -----nor present!

Delay-----inordinately!

Cruelty-----extremely!

I am quite destitute!  
I am quite innocent!

My tribulation ----- My trial!

The Oppression of the--- Oppressor-- quote on!

What the Great You are!

The Great here -----are someone else!

‘O’ The Greatest of all!

You seize the Spirit!  
My soul -----My Spirit!

Why don’t You seize it?  
From this world!

After seizure of my Spirit!

Your Association-----After coming to you!  
Only then will be divulged that!

YOU ARE THE GREATEST!!!

## **PEACE, SECURITY, PROSPERITY ----- REAL TRUTH**

The ambience of peace, security and prosperity  
could only be maintained after establishing the truth and  
purity in the universe.

Expedience-----Law of Necessity-----  
“Ifs” and “Buts”

All are but the games of the ‘motives’.

Justice and compliance of law ----- are but----- inseparable!

## **PEACE----WISHFULNESS OF EVERY ONE!**

The majority of the world population is desirous of peace. They yearn for protection of their respective lives. But in spite of that there are quarrels and disputes all over the world. Who are people to create such disturbances in the world?

They are: 1.The manufacturers of Arms and Ammunition; 2. The people holding Economical Superiority in the world; 3. The murderers of the people for their personal gains!

Who are the elements to propagate the messages of hatred and bigotry at the instance of the religious, political and non-political leaders? Their sole aim is to deprive the world population from food, clothing, shelter, justice and drinking water etc.etc.

All such acts are committed through a pre-planned conspiracy. Otherwise no rational human beings would like to victimize the people for hunger and poverty.

What model of the intellectuals such guys are?

## **WHO IS BOLD?**

The person who always keeps arms and ammunition with him or the person who engages guards for his safety.

Or the person who walks through openly and unhesitatingly without keeping any guns or guards with himself.

## **PRIZE BONDS DRAW AND THE MECHANISM OF THE SPIRIT-----GOD IS NOT UNJUST**

The Prize Awarding Schemes with various nomenclatures are rife with almost all the countries of the world. Some in the name of Prize Bonds; some by the Lottery System etc.etc. A man out of all the partakers is awarded a handsome amount through the Draw to be held at any fixed date and time.

People consider him as the luckiest guy by saying customarily that he has got the 'Lottery' and has become a wealthy man by dint of it. His luck will take up a better turn in life to provide all the facilities of livelihood.

It might be the tradition in the abode of the spirit/soul. A Draw of the spirit might have been held. The spirit/soul descending down to give birth in a rich family would be congratulated by other souls to say that the "soul's lottery" has won. All other poor souls might have been destined to appear in the poor families. It might be happening like that for the poverty-stricken souls.

God has no mechanism of injustice at all. The world organism probably has been controlled by the souls born in the rich families. But there is no disparity amongst the human beings. The land does belong to all people, and so are resources. No child born in any family appears with the

document or certificate of the ownership of any property in this world. All are born empty-handed.

All the children all equal in the society by birth. It is only the lack of rationale approach.

The human consciousness will increase when all the children are provided the facility of education. The ideology of “All Human Beings Are Equal” will only then dawn upon all human beings. It appears from the prevalent educational policy that to keep the education facilities costly is a conspiracy in itself----- so that the children of the poor may not get education conveniently to develop their mental upbringing. And the children of the rulers, leaders and the chieftains should become the big wigs of the future.

God forbid! It might be the negligence, if not a conspiracy. It has got to be stopped as soon as possible. It would be for the welfare of the humanity. This is my message to those who believe in mankind.

## **ORGANISM OF NATURE-----GROWTH OF HUMAN POPULATION ----- AND PROBLEMS**

God Almighty has created a couple of each living being; that is male and female. The juncture of the both gives birth to another body. The new races of all the creatures residing in ocean, river or on the earth get generated by this process. Man is superior to all the other creations because of the blessing of intellect granted to him by God. The growth in human population is also due to the copulation of the pair.

The ratio of increase in world population was low in the old age. But the speedy increase in today's population and prolongation of physical age are because of better medical facilities and adoption of scientific measures to maintain health. Unfortunately no enhancement has been witnessed on the resources of foods.

The "association" of man and woman is surely a customary means of pleasure for both of them. But to look after their offspring resultantly is also their foremost responsibility. It has amazingly been noticed that the poor parents produce more children than the rich people. That is why they cannot fulfill their responsibility in looking after and providing clothing and proper education to their children.

The parents invariably derive the pleasure of copulation but utterly fail to take care of their children properly.

The children are the blessing of God. And the intellect is also His blessing. The proper use of the intellect draws difference between the human beings and the animals.

Otherwise the marginal awareness has been bestowed upon the animals too.

The human pleasure -----warrants for the proper care of their kids by them-----in accordance with the income and the means.

## **TWO ASPECTS OF THE LIFE**

The human life bears two aspects. The spiritual as well as the external/physical functioning. A man's spiritual

faculties would grow weaker if the external or the apparent acts violate the norms of the humanity. His prayers are either postponed or rejected by God Almighty.

That is perhaps the juncture where God has ordained to throne such rulers and the empires as the nation would be.

If the acts of a man are good, the spiritual support has also got to be his boon.

## **THE PASSENGERS TRAVELLING ON IMPAIRED/BROKEN ROADS**

The passengers/travelers are passing on the broken roads.

With stones and holes here and there.

But injured by the pointed parts petrification of  
corruption-----  
-----victims of cruelty and injustice.

All women, children, aged persons-----The  
young are under debt of the billions of rupees.

Passing on life -----with stooped back.

No care for new generation -----rulers being high  
ups-----speeding on  
With blowing dust.

The dust-----food of the masses-----  
-the masses deadened by the dearness-----Yet  
pedaling on!

What to do?-----They all know!

Even then-----travelling on the torn roads.

A call to the new generation!-----  
Throw away the old stones from the roads.

Clean and construct your own passage-----  
Remove the darkness.

Lighten up the future yourself.

O' the daring, conscious young race!

Support of God is with you!!

## **THE INTERPRETERS AND THE OTHERS**

Literature -----Interpreter of life!

Politics-----Interpretation of the public  
service..

Judiciary-----Interpretation of justice.

Administration-----Interpreter of the national  
and administrative institutions.

Army -----The interpreter of Defense  
and Wars to save country.

Assembly, Parliament-----The interpreters of the  
Solutions of different public issues.

Media -----The interpreter of all the  
interpreters.

The assembly of the entire interpreters-----  
---One nation-----one symbol.

Each and every one with a task to accomplish.

## **THE LEECH AND LEECH-LIKE MEN**

The leech is a blood-sucking worm which sucks  
blood from the bodies of the animals in the Ponds with  
dirty water.

The leech-like people are also found in the pure and  
clean societies of the human beings. They also suck the  
nation by inflicting loss to the national exchequer in their  
different capacities.

The national treasure is formed with the concerted  
earnings of the nation.

The leech has got only one color and species.

Whereas the leech like men have got various colors  
and formations.

Defensive measures are adopted to remain safe  
from the leeches.

It is, therefore, quite essential to get rid of the leech-format people with proper punishment for the betterment of the public.

## **NONE IS SUPERIOR AND STOUT**

The man is the one and the same person everywhere from the very advent of the universe. He would remain the same in his formation. The mankind did spread out with the growth of population with the requirement of further subsistence. They got divided in different tribes and races. The colonization was extended. Wars were fought to get control of the available resources. Because of the invention of the latest weapons, a tribe attempted to dominate over the opposite tribes and thus presumed to be a brave and superior tribe. The kings, rulers and Sardars considered it necessary to make their public felt of their bravery and superiority.

The modern civilization due to its intellectual awakening, considered it as a temporary feeling of their superiority. No nation or tribe can remain victorious forever, to quote the example of the world national teams participating and winning different games, (none in a permanent sequel).

The principle is being established now that all human beings are at par with each other with a fundamental right to survive. It is, therefore, essential in the interest of the mankind to make use of the competence and merit of all persons. For this purpose a joint venture is needed for the survival of the humanity. Failing which the destruction of the world might be its final destination.

Note: A new nation, a new tribe, is found after every hundred miles or so. Who actually is the stout or superior one -----poses a Question Mark to us?

## HOW TO BECOME A STORY-WRITER

How to become a Short Story Writer?

The stories on various subjects are spread before me.

The house of a poor man, each hospital, each court, each office, bearing stories to depict.

Every village, every Assembly, has its own story-----frankly speaking all institutions are the exponents of their own stories.

The reality is conceived only if a stranger tends to delve deep into it.

Whom to be told-----Whom to be explained-----They all are the characters of each story.

The poor without food-----without clean drinking water.

The children yearning for education -----deprived of medical treatment.

No jobs to get-----no justice to be provided to the poor.

Parity ----- just a dream ----- How to enjoy the story depicting cruelty, injustice, hunger and pains.

The corrupt society-----A master-piece of a Story.

The “Alley of Poverty”-----The biggest story of the human life.

Only the Survivors would learn such stories.

My articles are meant for the poor, oppressed and the deprived people.

As well as for the people bearing grief and love for the humanity!!

## **GAMES, SPORTS AND HUMAN PERSONALITY**

The children naturally tend to participate in gymnastic activities to strengthen themselves physically. The boys have got this passion in particular. Different games are organized to bring the sport activities in to a proper discipline. The trainings in sports like: Wrestling, Football, Races of short and long distances, Basket Ball, Hockey, Cricket, Jumping, Swimming, Tennis, Table Tennis etc. are imparted under proper rules and regulations to tone up their personality in that way. The feeling to relish victory, the lesson to admit the defeat, the associated spirit of team-work, the lesson to accept the decision of the Empire and to obey the call of Empire's whistle is such acts which do accomplish self-confidence among the children.

It is a common impression that the players do not take serious interest in their study and thus lag behind the other students to get Degrees. It is no doubt essential to get proper training in one's selected game but it can be solved by observing the time schedule in a methodical way. Some teachers also discourage their students in taking part in sports, as they fail to chalk out proper division in the games and the study. Children also consume much time in games unnecessarily. Each day is a precious day for a student. The human personality with the application of the priceless God-gifted intellect can improve in spheres of life; provided the utilization of time is made prudentially.

The education and sport both complement the human personality. Even a little flaw can damage the individual and the society as a whole. God has bestowed numerous qualities upon each child, if refined properly.

The sport, indeed, does play a dominant role to bring about elegance in a person. The human life is regulated if it is taken judiciously.

Games at game's time-----Study at study time.  
Work at working time-----Rest at resting hours.

## **A TRUE WORD-----GOOD ACT----- EQUAL**

Whatever goodness is done, any good is committed, both are at par with the truth.

A true word -----Good Act-----Equal!

The world and Hereafter -----Reward for both.  
But for the believers only.

## **CHILDREN, EDUCATION AND HUMAN WELFARE**

A child -----whether residing at seashore, desert, plains, village, city, town, mountain or in any valley.  
-----Would certainly long to get education.

But alas! He would not go to school because his parents-----

Do not have the money to pay his fees-----  
to purchase his books ----or to purchase his school uniforms.

Not any transport for him if the school is located at a distant place.

----Just because of being the poor child.

Nature has gifted him with priceless qualities.

It is the requisition and responsibility of the mankind to provide education to each and every child free of cost-----to refine his capability-----one does not know what role a child might play for the betterment of the mankind.

Education to all children----- Betterment of the mankind itself.

## **THE PRINCIPLES OF HUMANITY---ARE EVERLASTING**

Every human being has to leave this mundane world after passing his life for a destined period. But the principles of humanity remain alive for ever. ----(For Example: Education, Truth, Justice, Honesty, Trust, Honor, Love, Respect, Tolerance, Forgiveness and Equality etc). The life (i.e. peace, security and prosperity) would ever remain immortal by acting upon these principles.

The violation of these principles always remains the target of anxieties, difficulties, miseries, poverty, destitute and deprivation.

## **THE HUMAN HAPPINESS**

The constructive thought---  
Is shrouded in good morals and pious acts!

The negative thinking:---  
Composing bad morals and bad acts.

To expose the beastly habits.

## **THE CHARACTER OF THE PEOPLES DOES EXPOSE THE IMPACTS OF THE CONVICTION**

The people in every society believe in a particular religion, conviction or ideology of life. Whether they are

human affairs, academic pursuits, politics or politico-religious circles.

If the believers of any religious tenets or the ideology of life indulge in quarrels, beating, disputes and terrorism then the people would establish the impression that the teachings of its believers are according to their practical acts. The welfare of humanity lies in peace, love, fraternity, tolerance, respect, honor and endurance. Whether it is an Academic institution, indigenous society or an international society whatsoever.

If this ideology is adhered to.

## **LONG LIVE!-----WHO AND WHY?**

Feet with no shoes-----Nor drinking water!

No bread to eat -----No lighting in the house!

The principles of the leaders-----Listen the National Anthem---to make Slogans.

O Life ----- Long live!

What life?-----Why the slogans of -----  
-Long Live!

Who to live long? How to live long?-----  
A Question Mark (!)?

The primitive age -----The jungle age-----  
Clothing with leaves.

The head too of the same covering-----Crave  
for food.

Living style -----Journeying mode at par-----  
--Yet the slogan----  
-----Long Live the Chief!

21<sup>st</sup> Century -----Rulers----Leaders-----  
Quite Prosperous-----  
-----Public-----But Destitute!

### **CONCEDING TO UNDUE ORDER OF THE OFFICER SUBORDINATE'S BENEFIT AND CONSENT BOTH**

It has been observed that the opponents in some developing countries are got involved in concocted illegal cases. It has also been learnt that the cases of heinous crimes like possession of unlicensed weapons and bombs etc. are made against the poor.

Poet and tailor by profession having hardly a small shelter with books lying on a small cot etc. Similarly the other innocent writers, journalists and the political workers are targeted by filing ridiculous criminal cases against them. Those who issue orders to register such fictitious cases, and the officials acting upon their dictates both know well that they are involving innocent persons illegally. Why do they do so?

The fear of the loss of one's job.  
Expectation to get any award or promotion.

Joint venture.  
Beastly instinct, or lack of intellect.

Illegal false cases-----What an officer!-----  
---What a Subordinate!

Like the need of little bolts and nuts to run a  
machine smoothly, the small issues  
Do play an important part to run a country judiciously.

The people of those countries certainly relish peace  
and prosperity where the policy of Accountability and  
Justice is established firmly.

The human journey has got a continuous process.  
The constructive thought, decision and compliance  
thereupon as such play a dominant role in the welfare and  
betterment of the nation itself as well as its future  
generation.

Whether one does care or not!

## **AN ASPECT OF THE ROMANTIC POETRY**

The poets traditionally portray the beauty, features,  
height, awaiting, and meeting with their imaginary beloved  
by elaborating their love/romantic affairs in metaphor with  
an allegorical word-craft. As a matter of fact, they try to  
gratify their unaccomplished mental desires in this way.  
Some persons do find some satiation and enjoy by hearing  
or reading their verses.

Truly speaking their verses do not have an iota of reality at all. It is just like a poor hungry man to relish the variety of different delicious dishes in imagination for a few moments.....While his hunger would remain unfulfilled.

## **THE BRIGHT AND BEAUTIFUL FACES**

Complexion whatsoever!

Features whatsoever -----the face would be  
bright and beautiful -----of the  
Person who: are truthful-----and the munificent.

Looks after the poor, orphan and the weak.  
Does justice-----and is honest.

Displays the feeling of respect, love, honor for  
humanity.

Accords equality to all people  
Is sympathizer with the human beings.

Not causing damage to mankind.

Not violating the rights.  
Does welfare of the people of any kind.

Is the glittering-----bright----shining face!

Will triumph in this world as well as Hereafter!!

## **DO THEY THINK SO?**

Do the people have this fantasy in their minds that they are the only rightful persons to reside in this world. The right to take foods, the right to make merry.

No other person belonging to any other nation, tribe, profession, race, religion, conviction, sect, region or country have got the right to live, to get foods or to enjoy the life except them.

The root cause of the brawl-----must be such thinking.

## **THE RICH OF THE WORLD-----TOIL OF THE POOR**

The riches of wealthy persons of the world are produced due to the hard toiling of the poor people, whereas they themselves rendered deprived of even the basic facilities of life.

Do the poor people lack intellect or their internal disputes and quarrels because of their caste, system, sect, nationality, religion, color and race etc being the cause of their destined deprivation?

Besides, the rich people might also be creating such differences amongst them, through their agents and conspirators, to relish enjoyment and pleasure at their cost. The poor remain deprived of their rights, justice and foods etc.

New generation ----- Their consciousness is awakening!

Equality of all human beings-----Equality of their rights!

## **HUMAN BEINGS:98 % AND 2% BOTH**

A student of the Mathematic wrote the following lines unconsciously while memorizing his mathematical formula:

“The entire resources of the world are under the control of 2% of the world population. 98% population is deprived of the basic human facilities.”

Ironically, the 98% people put in hard work and struggle, whereas the 2% people have been provided with all the worldly facilities and the luxuries to relish.

How is it so?-----Why is it so?

A message to the new generation-----To meditate and ponder!

## **THE CONSCIOUS AND UNCONSCIOUS FRAUDULENTS**

The fraudulent of various kinds are seen in every human society in the world. The deceptive, forger, cheaters and those who entice the simple persons to double their

money etc. Such guys in each period loot and deprive the innocent persons of their wealth from bottom to the top stratum with a pre-planned strategy. Some of them are occasionally arrested and given punishment as well. But this process does keep on going.

There are certain people with their limited mental level, who are utilized by the above mentioned forgers of high level to get some financial benefits from them. On the international level the world rulers, political, social, religious leaders and the heads of some institutions could also be included in that sort of noose.

There is a law in almost all the countries of the world that certain State Secrets could be disclosed after the passage of 50/60 years and they are termed as “Archives”.

A student of the present age could know by studying those documents that who were involved for hatching any conspiracy against his country.

Such people could be given the title of “Unconscious Fraudulent”

## **THE REVELATION OF HYPOCRISY**

The process of hypocrisy has ever been in practice in the social circles of the world. The reality and display at asunder apart. The rulers have been ruling their regime by this principle. That is why the majority has always remained deprived of their basic human rights.

Today, in 2010, the human consciousness is gaining speedy awakening due to the effective role of the Inter-net and Media to get apprised of the human issues.

The problems are being scanned on the basis of the truth and reality. The curtain of hypocrisy is going to be lifted and the people are made to know the realities of the issues.

All this is possible only by acting upon the principles of human welfare, goodness, reality and truth.

## **THE MEANS OF THE HUMANITY**

Such people, groups or the countries whose decisions make the people victim of grief, difficulties, miseries, hunger, tyranny, injustice, excesses and killings are called the mean persons of the society.

The national treasure is amassed through the hard struggle and earnings of the nation. Those who cause loss to the national treasures and to murder the innocent people ought to be included in the list of the means.

Whether the events of the past--- or of the present, Obviously evident to us all.

The mean characters of the mankind-----are found in each society, at lower, upper, or international level-----the circumstances of the International strata.

## **THE VIGILANT PEOPLE LAYING DROWSY**

1. Those people who do not endeavor to get or enhance their education (Academic or Vocational), remain drowsy or in trance.

2. They lay deprived of knowing their own duties and rights.

3. They lay deprived of feeling the passion of respect, love, honor and equality.

4. They do endure the cruelty and violence meted out to them unknowingly.

5. Some people exploit them due to their power and wealth and the exploited people lay drowsy.

6. Some fraudulent leaders get benefit by calling emotional slogans and making false promises of removing their deprivation. But the deprived individuals remain in drowse.

All such events do happen due to lack of education. The utilitarian have intentionally made the education quite costly so that a child of the poor may not get education, or improve his education, or may not recognize his right or to exert for the accomplishment of his due demands declining to live in humiliation.

O man! Open your eyes to watch----what is being done with you!!

## **A STATUE WITHIN A MAN**

How is that some persons after getting a better status in life (politics, employment, business, literature, agriculture, engineering, doctor), or because of any outstanding performance, start to presume as a 'Statue of Supremacy'. This would give one a feeling of superiority.

This pulling might also certainly create a sense of rivalry or grudge against his colleagues.

There are the scholars of their own standard and no individual can claim to be a perfect one in any knowledge. Only God Almighty knows that who has been bestowed with what quality/merit. The respect, love, honor, wisdom and affection amongst the human beings are the initial stairs of knowledge. The respect of a person lies in his escaping from the habit of self-appreciation/Statue-worship.

All human beings should be respected irrespective of their having little or more knowledge. The human quality and submissiveness in a scholar are the symbols of greatness and sublimity. Because the knowledge/education keeps a scholar aloof from all worldly vices and makes him a man of excellence/perfection.

## **THE SENSITIVE PEOPLE OF THE LITERARY CLAN/'ADAB QABILA**

There are certain people in every society who due to their sensitive nature portray the vision, experiences, and ideas, humor serenity and aesthetic beauties and critical fiber of life in their prose, poetry and pieces of art with their deeper insight. This is, no doubt, a creative process which is gifted by God to certain particular persons. Such intellectuals are called the "Clan or Tribe" of the literature.

The literary figures of the "Literary Clan" have rendered commendable service to the humanity through their mode of thought. They have depicted the human

issues, the norms of morality and value, affection for children, and due regard and honor to parents and the elder people with their message of love to mankind.

But! unfortunately in spite of their rendering appreciable contribution to mankind, they do not make justice to the principles of co-feelings, sympathy, love and unity amongst the members of their own Tribe. Such a situation was recently witnessed when quite a few people of their “Literary Clan” participated to share the grief and sorrow of some departed poets with their family members.

For the members of the Literary Clan/Adab Qabila-----  
A Question Mark(?)

## **POWER, WEALTH, AUTHORITY----THE BALLOONS OF ARROGANCE**

The “balloons” inflated with the power, wealth, authority and arrogance are seen flying in the air. They are found like waste papers scattered on the ground after they are deflated. All goes clear then.

The submissiveness and humility are the signs of greatness and perfection of a human being.

## **THE TRAVELLING PROCESS OF TRIBAL/ COUNTRY LEADERSHIP**

THE PRIMITIVE AGE:

After the inception of civilization and culture in the world----

The Heads of the Tribal families and the tribes men-  
--  
Were leading a simple life style.

The kind of food, the mode of journey ----- The  
same.

The symbol of the Head-----A throne of  
branches and leaves.

#### AFTER THE INVENTION OF DRESS:

The symbol of the Head-----A cap on his head-----  
-----A bird's feather  
Or the tassel of a cloth.  
The trend of the Head-----to be separate.

#### THE PAST.

The system of democracy.

Residence: Presidential House, Prime Minister  
House, Ministers House. Cabinet: Ministers, Advisors----  
Flattering style.

In poor countries:---Bigger Palaces, the bigger  
expenditures.

Administration: The employees but with quite regal  
outlook.

#### THE FUTURE HUMANITY.

After attainment of education for all, the increase in  
human consciousness.

And in the wake of mental awareness:---

All human beings will feel that-----They all are equal.

The responsibility -----Separate-----of  
everyone.

The simple clothing, simple residential accommodations----austerity in travelling-----incurring minimum expenditures.

Food for all-----medical facilities to all.  
Provision of basic human facilities-----identical to all.

All human beings-----All-----rulers or common citizens.

## **SUCH CHARACTAERS IN A SOCIETY**

There are such people in a society of the world who spend their lives while involving in the vices. They make illegal money through threat, trickery, cruelty, excessiveness and quarrelling etc. They manage to get legal coverage to save their wealth.

Then they resort to do any good acts like establishing a charitable institution etc. to earn respect and honor in the eyes of other people of the society.

It sounds quite amazing that the people struggle to take last refuge in the goodness after committing illegal deeds in their early phase of life. This all is done due to some weakness in the judiciary system of a country. If the people performing good deeds for the society are encouraged from the very start, there would certainly be the multiplication of such persons resulting in maintain the peace, security and prosperity in the society.

Note: Those who gain esteem by illegal tactics do maintain their system of extortion. The goodness and extortion are two different acts.

## **THE GREEDINESS**

The greediness is such a net that does make the lion like a rat. Whosoever is netted in this avarice would never get riddance there from.

The greed is such a giant who can make the strongest young guy to lick the dust.

The jealousy of the jealous and the greed of the greedy persons both are the worldly hell.

The greediness is a neck-brace of slavery.

The greediness of any kind is destined to ruin a person.

## **OVERCOMING THE LUST**

If you are made to ascend to the sky by the people, then do not forget the fact that the ground is the safest place for you.

A man falling from an aircraft is but to torn into bits.

Whereas the man standing on the ground stays quite safe.

## **THE STATE – A PERPETUAL BODY -----THE LEADERS – A CHANGING PROCESS**

The institution of state was established in the wake of an evolutionary process of mankind in the world. The

state is supposed to look after the welfare, betterment and the welfare of its people in all respects. The functioning of the state is administered by its institutions. The strength and stability of the institutions is, therefore, sine qua non.

The remuneration of the functionary of the institutions should be fixed up in a rational measure. Besides, they must be appreciated for their best performance, if made. At the same time, there should be a canon of accountability to watch their performance.

The state is a perpetual body-----The leadership---a changing process.

### **THE PEOPLE WATCH AND CONCEIVE THROUGH THE FOCUS ON MEDIA**

The organism of economic is quite important to lead human life in the world. The rules and regulations and laws are constituted to run this organism. The required commodities are manufactured in the factories due to increase in human population. The proprietors of these factories are allowed to earn reasonable profit on manufactured items but instead they resort to indulge in greedily making out huge profits by using different unfair tactics. All this malpractice is not possible without the connivance of the State functionary. Such illegal collaboration of the factory owners and the state elements has to cast an adverse impact on the future generation. Another deplorable consequence of this detestable function is that the necessities of human life go beyond the approach of the poor to render them bewildered.

In such a situation they would either commit suicide or get hold of the people responsible of price-hike/dearness to drag them back to be like them.

The capitalists, therefore, should not exceed this limit. Lest they or their posterity should stand in the line of the helpless, compelled and the destitute masses.

(Would a capitalist tolerate this situation?)

The prime responsibility of the state is to look after the interests of its people. The state functionary should also perform their duty without any greed or avarice for the collective benefit of the people. The media in this age is playing a dominant role to focus the issues through the eyes of the people.

The people do watch and conceive what is happening all around in the world and that who is doing what?

Who knows-----when the people might come up to do a decision and what?

## **GOOD ACTS----GOOD SOCIETY ---BAD ACTS-----BAD SOCIETY**

The citizens-----public representatives and the workers of the institution.

Good act----- such an act which is done to benefit himself or to others is called an good act of goodness.

Bad act----- such an act which is done to damage him or the others in any way (health, property etc) is called an act of badness.

The rules, regulations and laws are framed to keep the good or bad acts under some limits and principles either by the nature or through the collective decisions of the people and are got enforced through certain institutions. The courts come into make decisions in case of the differences of the public. The public representatives are elected to watch and oversee the performance of the institutions for their better functioning.

The establishment of an exemplary society depends on the honest and best performance of the institutions as well as the citizens while keeping themselves in their limits.

That society is destined to be the victim of self-aggrandizement, selfishness, cruelty, injustice, hunger, destitute, unemployment, load-shedding and bewilderment whose public representatives and the officials of the institutions indulge in a collective conspiracy for their personal gains.

## **THE BENEFITS OF MANKIND LIE IN SPREAD OF THE EDUCATION**

The education of whatever sort does augment the intellect and consciousness of a human being. one can, in this way, distinguish between the good and the bad and gets into understanding the inventions and other activities. This is evident from the Stone Age to the present.

What is the benefit of the education if it is confined to books which are stocked in the libraries? And getting education is made so costly to be availed only by some privileged persons?

Perhaps that is the reason that the humanity ever remains the victim of miseries, difficulties and problems.

### **A LITTLE TALK**

If a citizens of any country in the world sleeps hungry for want of food.

Then how can the rulers of that country would sleep comfortably?

The ruler does enjoy the esteem and honor within his own country. But his responsibility is also the biggest one.

God almighty watches everything.

### **A LITTLE TALK**

Is he not a man of bad character who puts a false blame on others?

Be cautions in putting blame on others.

There is a big punishment for such blames by God almighty.

### **A LITTLE TALK**

Accord proper value to the food we take in for survival.

## **WHAT AM I?**

All the human beings of the world are the educated ones. And I am a less educated man of all. All the people are stronger than I. And I am the weakest man of all. I am only an iota of dust of a man's foot. The man is cut out of clay.

God is the Creator and Owner of all.

## **THE WORLD AND THE HUMAN LIFE**

The world is just like an ocean. Some people live by taking water from it. Some people take bath and cleanse themselves by taking water from it.

(Those who do not indulge in any vices.)

Some people die in the water (who do act of vices).

What is the end of the people who -----

Endeavour to lead a life devoid of vices.

## **AN IOTA OF DUST**

The universe is the creation of God and the man is an iota of dust therein.

Is that iota of dust is better which is performing its role honestly when a person walks while treading upon it or

the person who is quite wealthy and authoritative, and he does not take care of the other person?

## **TO BATH INTO THE FLOWING WATER OF CORRUPTION**

It was considered in the primitive age that taking bath or washing hands in the flowing water (of river, canal etc) meant to purify one's body. (The impurities get settled down go to stick to its brims). The corruption does take roots in the society in the developing poor countries due to insufficient resources, lack of education, and inability of the leaders because of the conspiracy of the Big Powers. The honest people are also affected due to the mushrooming of corruption. If such honest people do not commit any act of corruption, they are taken as either coward or insane for their unwillingness to take their booty out of the flowing river of the corruption.

The concept of corruption is considered detestable everywhere in the world. It can be termed as the gutter of filthy water. Would a man sully his hands in the filthy water be a coward or a bad person? Instead, according to the religious and moral values such persons are the men of high character and strong will power in the world of humanity.

Note: It is the responsibility of each individual of the society to play his role in uprooting corruption. One way to do so is by not giving votes to the corrupt leaders who are held responsible to frame and implement the policies of the country.

## **THOSE WHO DO NOT USE THE RIGHT OF CASTING VOTE**

In this world of mankind, the majority of the countries adopted the Rule of Democracy by either giving up different Empirical Governing Rules or confining them to a great extent. Thereby remodeling the living style for a better and safe cause. Every grown up person in this system has been given the right of voting to elect a representative of his own choice. The people of different area, by this procedure, set up their own government which is supposed to perform its functioning for the welfare as a whole.

It has been observed that most of the voters do not care to cast their votes with a presumption that the people contesting the Election are not according to their criteria and some voters get into procrastination to take the trouble to go out to cast their votes.

As a matter of fact, their negligence tantamount to non-compliance of this important duty. If incompetent people are elected, the ruling system will also be incompetent. The voters and the people who did not care to cast their votes would complain of bad governance failing in human facilities. The people gradually start feeling unsafe in such a society.

It is, therefore, essential to compel the competent people to come forward to contest. Otherwise no optimistic amelioration is possible. The other countries have adopted this policy for their better future. In this way the vote would never go waste.

The tendency of not casting their votes is generally noticed in the cities. People do not come out, rather enjoy

watching TVs in their Drawing Rooms and thus fail to fulfill their important national responsibility. With the result that such people get into power who would indulge in exploitation of their right.

The young generation should come forward to accomplish this task to make the people realize their duty to elect only those persons who are competent and deserving ones to work for the collective betterment of the society.

A man not casting his vote becomes a cause of delay in the process of welfare of human society to give a cause of complaint to the coming generation.

### **THE LEADER (TO SHOW THE PATH) -----OF FALSEHOOD AND TRUTH**

The travelling in the primitive age was to be carried out either on foot or on the horses. If the journey was carried out in groups of some people, they would nominate a suitable person from amongst themselves to lead as a Pioneer of the Caravan.

The people with the inception of social life, either used to nominate or elect a person to conduct administration set up of the society or were named as their Leader.

It looks in the scenario of the prevalent circumstances that the principle of the leadership has become a formula of the mixture of falsehood and truth for the purpose of plundering, wresting the resources and inflicting damage to each other. Now the responsibility is

put on the people to search out the quantum of falsehood and truth about the dictum of the leader. (Probably there has have been set up some regular departments for devising such formula).

The tremendous expenditures on welfare are incurred in the world just because of this blending of falsehood and truth. With the result that the ratio of poverty is surmounting speedily to this trend.

It can be presumed with the increasing of human consciousness that the ratio of the truth would gain momentum against the falsehood. And a time will come when the truth would rule in completeness.

### **CERTAIN PERSONS TO BE THE SOURCE OF DEFAMATION**

If the citizens of any country commit any misdeed in another country, they would become a source of bad reputation of their country.

If the members of any party (political or non-political) commit any act of vice, the party would lay defamed.

If certain people of any institution do indulge in any bad act, the institution would be defamed.

If certain followers of any religion inflict damage to human beings in the name of their religion, they would certainly be the cause of the defamation of that very religion.

Better not to commit such an act that the people of any country, party, institution and the religion would have to face the scar of shame or penitence.

## **THE DEFINITION OF THE POLITICS AND THE WORLD**

The definition of politics has been mentioned as: “to struggle for the betterment and welfare of the people of a country in accordance with the principles of present and future conditions in a positive and truthful manner.”

Is it not happening otherwise that some countries do commit irregularities by applying negative approach regarding state institutions to amass illegal wealth through falsehood, terrorism, injustice and fraudulent methods?

That is why such countries remain the victims of bewilderment and disturbance.

When the falsehood is applied on a broader level, its impact on the smaller level does occur automatically. The credit goes to the modern media to expose the truth in its true scenario.

The welfare of the humanity lies in truth. The truth is, no doubt, the future of the world.

## **SOME QUESTIONS ABOUT FALSEHOOD AND TRUTH**

Does the life of a person become virtuous and better by blending the falsehood with the truth?

Does one not compelled to tell more lies to prove his once told lie as true?

Is it that one's whole life grows better and ameliorated with the practicing of more lies and less truth?

When any vicious problem is sneaked into any society, does its bad impact fall on all human beings or on a few ones?

Whose responsibility is it to improve the conditions of the society? Or all the people collectively or few ones? Or on the elders or the children? Is it not the responsibility of the leaders more or they are exempted from it?

God has bestowed the boon of intellect to everybody. Those who utilize the intellect positively in a truthful way for the welfare of the mankind. They would lead a better life in this world.

The security and greatness of mankind is possible only by looking after the human beings with truthfulness, sincerity and dedication.

## **IS VICE A VIRTUE?**

Had the vice or evilness been a good act, there were regular schools, colleges and universities for teaching

fraud, theft, dacoit, injustice, adulteration, hoarding, smuggling and bribery etc. People would have got their children admitted therein by paying heavy fees, to get maximum wealth through them.

There are 6.30 hundred million people in the world. The number of the people involved in the evil deeds is a few hundred millions. It can be ascertained from the cases of such corruption registered in the law courts and police stations of the world. Sixty percent (60%) human beings in the world are suffering from hunger, munity and poverty because of these few hundred million people.

### **A LITTLE TALK**

If a poor man commits a vicious or shameful deed, he is termed as a “bully” or ‘Dulla’.

But if the rich people commit the same misdeeds, they are named as the service and culture.

Each evil ----- is the evil----- whether committed by the poor or the rich.

Committed by the small, the big, the servant or by an owner.

### **HOW ABOUT A PUBLIC REPRESENTATIVE**

If he is incapable to make the poor get respect and justice. If he cannot establish a merit system.

If he cannot frame the policy of providing job opportunities to the jobless people.

If he is not eligible to make arrangements for the treatment of the poor.

If he is not competent enough to protect the national treasure.

If he is not in a position to improve the system in vogue.

The greatness lies in service to the mankind.

## **HOW THE UNDUE EARNINGS DOES DIGESTED?**

A man's three timely daily diet gets satiated with Berger/Kababs/Pulses and Bread etc. which is digested in a normal routine. There are countless means of making undue/illegal wealth in the world. Those people would certainly be taking any tablet to digest such wealth. What nomenclature would be given to that tablet?

The tablet of conscience-less contents?

The tablet of dead conscience?

The conscience of shamelessness?

How many people are daily deprived of full food, clean water and proper treatment all over the world?

One billion-----Two billion-----Three billion?

## **THE LAND AND OTHER PLANETS IN THE UNIVERSE**

The universe is composed of different planets. The land is----one of its-----planet. All the human beings residing in this planet are truthful, simple, pious, faithful, honest and the merciful. What would you call to those people of another planet who do collect wealth by unfair, immoral and illegal means by hoodwinking the righteous people?

Clever-----Prudent-----Intelligent-----Shrewd.

What name would be given to those people who are deputed to arrest and punish such people but they do not fulfill their responsibilities?

More clever-----More prudent-----More intelligent----More shrewd?

What nomenclature would be given to those people who lead their lives honestly and in accordance with the tenets of the religion?

Foolish-----Stupid-----Inefficient-----Innocent?

And which name could be accorded to the planet wherein the above mentioned people might be residing?

## **THE FLOWERS AND THE BEAUTY**

The flowers do remain oblivious of the fact that some one feels pleasure while beholding them closely.

## **PATIENCE TOO DESERVES AN AWARD**

It is customary in almost all the countries of the world that certain Medals are awarded by the rulers each year on their National Days to those citizens who would have performed some exemplary achievements in any field.

There should be a “Medal of Patience” for those people of the world who display an exemplary patience of having remained deprived of the basic human facilities by the rulers of that very country.

Their children would “feel proud” of holding Medals for the deprivation of their basic necessities of life.

Note: Similarly the medals should also be awarded to other fields in life.

## **THE WORLD OF TODAY AND FUTURE EXPECTATIONS**

These days a common fallacy is in vogue. There are almost 200 countries in the world and the leaders of each country apparently render their services for the benefit of their people.

They do not consider it unworthy to resort to often telling lies, deceiving, changing portfolios, wresting the resources of the others and even killing human beings just to uphold their benefits. To bomb blast the people or to maneuver their assassination is also taken as legitimately beneficial for the country.

The human consciousness is gaining a progressive turn rapidly due to development of media. In future such steps would not only be considered detestable but would be avoided by the concerned rulers. Good acts would only be held in esteem in the world in future.

## **A GRIEF-STRICKEN-----PURSUES FALSEHOOD**

What to expect of a lie-----It would fancy its existence.

Lie's trial to prove it true itself.

What lie has to offer-----which itself personified as truth.

A lie is a lie indeed-----one's children, friends can judge a liar.

God 's cure upon a liar-----what an accursed could give.

What would get one-----from an accursed guy.  
Come to senses-----search and highlight the truth.

True is a grief-stricken-----otherwise the both are liars.

False bragging-----false promises.

One to call the other a liar-----the other calls the first one so.

All are the liars-----or -----all are the true.

Worldly grief testifies-----the validation of lie or truth.

Dearness, clean water, jobs, food, security and justice.

They all testify that ----- who is true-----who is the liar-----and how much!

An afflicted guy-----chases the falsehood.

The promises all ----- how much true-----how much false.

You know not-----True and a liar guy.

Come to senses-----Beware of cheating.

Search out the truth-----Bring it fore.

Among you are the true and good persons-----But forced not to come forward.

Remove their compulsion-----Provide them courage and encouragement.

Assist them-----to enliven the truth.

Your pains-----remove them.

Continue your struggle-----the chain of the liars would follow.

Finally the truth would prevail.

## **THE CONTENT LIFE**

A rich man grows coward by fearing insecurity of his wealth. The greed of power/authority would also make

a man cowardice. But if the motive behind power or rule is the welfare of the mankind, he instead would gain respect and popularity amongst the public. The rich and the avaricious both engage several security guards for protecting themselves and their wealth.

The generous and the beneficent both never get frightened. They can compete the difficulties with their positive thinking. They lead a content life with happiness and pleasure.

Whereas the people with negative thinking remain upset and get embarrassed to face any problem. They might be enjoying their life temporarily but the anxiety would them forever.

The world is like an inn. If a man departs from the world, the other does step in.

No one is perpetual or immortal in this mundane world.

## **THE VIABLE ELEGANT SOCIETY**

No person!  
Neither can claim perfection in knowledge

Nor can he be an accomplished true.  
Nor a complete honest one.  
Nor mindful of equality.

Such are only the Prophets.

The percentage of principles of morality one gains  
in this world

-----would bring him in the category of a superior human being.

The society would be a viable superior society wherein the majority of the people would follow the principles of truth, positive thought, justice, honesty, trust, respect, love, tolerance, forgiveness and equality.

## **WHAT VALIDITY OF THE TRUTH?**

How would rate the truth of a person established after assassinating a lot of people? It could be nothing but the rule of the power. If a single or a lot of powerful people murder the powerless people, the latter would be called the weaker people indeed despite their claim of bravery or strength.

Thus the murderer gets into power and starts bragging of his truthfulness.

What a validity of that truth if established through power?

## **SHARE HAPPINESS WITH OTHERS**

Be happy-----Try to make others happy.  
Cherish happiness with the close-knit.

Share happiness with others too.

The happiness of a man with the other man.

A country with the other country.

Else the journey of turmoil, devastation and each one for himself would go on.

The life is synonymous of honor, love and pleasure.

The positive attitudes and the constructive principles are the tools to keep one happy.

## **THE CLEANLINESS AND TRUTH**

A person has to diligently cleanse the dirt to maintain his health and the ambience. The truth and cleanliness are the two important pillars of the human life. (The cleanser of the body, clothes, atmosphere and brain----to avoid vexation to others). The condition of the society and the human life would take up betterment if one is trained to adopt the habit of speaking truth and cleanliness of his body, clothes, school, ward and city.

But it has been observed that the people feel their insult and humiliation to pick up the things razed to ground in the streets, ward or residential places. The filth of any sort creates vexation and bad smelling. The cleanliness is quite essential to maintain one's life in a better way.

Note: Even the clean feet of a person would testify his bright personality and pretty nature.

## **THE INNOCENT AND THE IGNORANT**

There are almost seven hundred millions human beings on this earth. The majority of them belongs to any conviction or the religion. The followers of each religion

consider their faith the best one----hence spend their lives according to its dictates. The followers of all religions do struggle to propagate the message of their own religion everywhere.

It has been observed after looking at the current circumstances of the world that the people resort to quarrel with each others on the basis of their respective religions---  
-----sometimes causing deaths of several persons.

Is it probable that the followers of every religion may consider all other people as innocent and ignorant. And spend their lives purely on the principles of humanity by respecting every human being. Because no one would like to be deprived of his life just for his different conviction and religion.

Each one has been given only a single chance to live in this world.

### **THE THIEF, UNJUST JUDGE, OFFICER AND OFFICIALS-----ARE THE VERY SAME**

A thief does damage a person by stealing his goods. A judge does inflict a loss to a person by his decree of injustice.

The thief and the unjust judge both are of the same category. Rather the unjust judge, officer and official all are the guilty of committing cruelty to the people.

An evil-doer person always lacks courage. The loss of courage makes a person coward. Thus all the evil-doers are coward people.

A good person is a courageous person because the goodness requires boldness. To help the needy, to give right to the righteous, to do justice and to be kind and supportive to others are all virtuous deeds.

## **A MESSAGE OF LOVE FOR MANKIND**

The people generally live together in villages, wards, streets, cities, provinces and the countries.

They travel on roads, rough sort of paths and via aero planes etc. altogether.

They work in offices, business centers, job places and in fields altogether.

In this sequel they all-----  
Can solve their problems altogether.

Can solve their grieves altogether.  
Can enjoy their life altogether.

But for this purpose:

They would be required to escape themselves from prejudice and from the network of the people propagating hatred.

To get escaped from the utilitarian:

To get out of the shell of egoism and the circle of hatred.

So the decision lies with you-----for your own pleasure!

This is a message-----for the entire mankind.

## **THE PRACTICAL LIFE**

The brawls are normally initiated on the basis of convictions in the world. The followers of the conviction do not consider others on the right path. If a person develops the instinct of conviction mentally or innately, nothing would change it except God Almighty. Such a force might temporarily be suppressed but would not be changed at all.

The dispute should be created on the defects of the principles of humanity. For instance to assess whether speaking the truth is right or wrong. Or the principles of getting education, to do justice, respect, kindness, tolerance, forgiveness, honesty, trust and equality are right or wrong? Or that their implementation is good or bad etc.

The judgment regarding the differences of conviction among the people would be made by God Hereafter because it directly belongs to Him.

The world population consists of seven hundred million people and they cannot be convinced by force. How could it be called a goodness if it is spread by killing an innocent human being. Would it be possible to pray to God not to give a child to childless parents? Does God grant the prayers of the followers of different convictions who indulge in brawls with each other?

This decision lies with God only!

## **TO SPEAK TRUTH---- A CRIME**

Does the practice of concealing the facts by the leaders before the nations tantamount to a crime for not speaking the truth?

It is a deceptive attitude not only for themselves but the nation as well if the facts are hidden from the public.

A deception with the future generation.

If the social and economical matters or the causes of any defeat are kept hidden from them.

## **MODEST GARMENTS-----DIGNIFIED CHARACTERS--- THE BEST SOCIETY**

It has been ascertained by the human history that the people (men or women) used to dress up their bodies with foliages. The cotton dress was invented with the passage of time. Several formations of the dress were introduced in the world according to their different weather conditions. The woolen clothes were made in the mountainous areas because of snow falling and severe cold climatic conditions. The people in the plain, Mediterranean and desert regions wear light and loose dresses with caps on their heads. The residents of coastal areas use comparatively light clothes.

God descended Prophets in different parts of the world to guide the mankind to lead a better life as well as to distinguish between good and the bad. The Prophets also put on clothes according to the weather climate of the

areas. Hazrat Moses in Egypt wore cotton garments. The holy Christ's dress was woolen sack clothes. The Messenger of Islam, Holy Prophet Mohammad (peace be upon Him) put on cotton garments and a traditional Saudi Arabian turban on head. The turban protects the neck of a person from sultry heat. (It may be noted that a woolen cap cannot be put on in the desert areas of Saudi Arabia). Similarly turban cannot be used in the mountainous areas.

The Prophets imparted the principles of humanity to the people in accordance with the guidelines of God Almighty which are based on the golden principles of truth, positive thinking and ideology, to attain education, justice, honesty, trust, respect, love, tolerance, forgiveness and equality etc.

The high character of a person in any society is the exponent of his personality. This leads to refining a society and to establish peace, security and fraternity etc.

Whatever be the dress of modesty-----modest dress-----is manifestation of high character-----A dignified and prosperous society.

## **THE MASSACRE OF THE INNOCENT PEOPLE**

There are some persons in the world who mentally presume that they have been entrusted the responsibility of establishing the principles of truth, justice, honesty and trust in this world. They, for this purpose, launch certain projects and endeavor to get them implemented

disregarding the loss of mankind and massacre of one or a few innocent persons.

Man is the best creation of God. God loves mankind as a whole. He gives offspring to them. This could not be the justice of God to create human beings for the purpose of being killed by the followers of different religions inter se.

How could they lay claim of having faith in God and to the preaches of His religions if they murder the innocent people with their weapons, arms, missiles and bombs etc.

What a message if committed to kill the innocent human beings?

Man is the best creation of God!

### **THE TRIBES AND RACIALISM-----THE MEANS OF HUMAN IDENTIFICATION----- BUT ALL HUMAN BEINGS**

The tribes, racialism and groups are the human identification. An era of naked freedom has also passed in the history of the world. The respect for relationship of husband, wife and children started with the awakening of human consciousness. The people started migrating from one place to the other due to increase in their population or drought and got settled at different places. The customs, traditions and dynasties were formed. The weddings of the children were made customaries amongst ancestral lineage in line with the customs so framed. The weddings

conducted with the people of other tribes used to remain at a stake because of different customs and traditions.

Even today we have observed that the marriages arranged with sisters and brothers of the same families also result in divorce due to some unknown disputes. The factual relationship in the world is the relationship of the humanity. All are human beings. The principles of life are identical for all. No one is superior or inferior. The identical basic human facilities ought to be provided on the formula of equality. This would only be achieved with collective hard struggle setting aside the tribal and family traditions and customs. Otherwise they would lay dispersed as a victim of bigotry and rendering them to keep on clamoring for the facilities. The selfish people and their children would carry on getting undue benefits.

Joint grievances ought to be removed by joint efforts.

Without any discrimination of religion, sect, region, caste and fraternity.

Tomorrow, if not today, this has got to be done.

Why not today, instead of tomorrow?

The grievances are common-----relief to be common as well.

Think it over-----or not!

## **THE RELATIONSHIP OF SOUL**

The soul keeps flying in the air. It gets into the bodies of all the creatures through breathing. It reaches

even the sea animals through oxygen. The body and brain of a child are nourished by the soul.

Then it makes exodus from body at a fixed time on the pretension of one's falling sick or occurrence of any accident.

The soul is immortal. It has its own characteristics. The love of elders with children and vice versa is because of it. Likewise, the elders often develop friendship with the younger ones.

The human love relations are the relations of the soul in fact.

## **THE NEGATIVE AND POSITIVE WAVES**

Several invisible waves cast their impact consciously or unconsciously on all human beings when they are meeting or conversing with each other.

## **POSITIVE AND NEGATIVE WAVES**

Positive waves: Decorum, respect, honor, love, affection, sincerity, kindness, thankfulness, pleasure, tolerance, forgiveness, sympathy, justice and mercy.

Negative waves: Discourtesy, insult, deception, fraud, jealousy, anger, disregard, hatred, contempt, cruelty, injustice, prejudice and detestation etc.

The attitudes of human beings are formulated in accordance with the dominance of the waves upon

their bodies during their getting together or conversation inter se. However, this depends upon their attitudes. The next step is to act upon the rules and regulations. The circumstances of a society are the consequences of the deeds of the people. For example honesty, faithfulness, confidence, trust or bribery, recommendation, nepotism and misappropriation etc.

### **TO APPRECIATE GOOD DEEDS---A SIGN OF EXCELLENT PERSON**

Those are the dignified persons who openly appreciate an individual after watching his good deeds. They are the persons who have been bestowed with the quality of intellect and perception by God to distinguish between the good and the bad actions.

They themselves the dignified persons who do appreciate the goodness of others. The others should emulate their character.

### **LOVE CHILDREN**

All do love children ----- all ready to sacrifice for children.

Falsehood, corruption, adulteration.  
Injustice, deception, bomb blast.

What kind of love is it?

Your acts do expose that -----  
You are for your own benefits----- the victim of an  
intoxication.

Neither these children are yours----- nor are you  
their fathers.

Rulers, religious leaders, political leaders, judges,  
officers, businessmen.

What kind of love is it?  
All do love children.

Orally ---- all claim---- to sacrifice for children.

## **LIFE----- THE WONDERFUL**

The custom of the world----- Master and Servant.  
How strange is this tale!----- the story of  
mankind.

The narration of passing events of mankind every  
time.

The story of certain greedy people.

Others an emblem of deprivation.

The strange life of the poor, compelled, oppressed  
guys.

The vice reigning everywhere.

One is person-----as the other one----- but intellect  
his kind friend.

Endeavour for betterment ----- with sacrifice of a few.

Then convenience for all ----- one person as the other one.

All human beings.

Respect, prosperity----- an emblem of greatness of people.

## **SOME UNLAWFUL MENTAL AMBITION**

Of some people.

And of people of some institutions.

And of people of some powerful countries.

For some unknown reasons.

Their mental condition prompts them.

To greed for entire human facilities.

To let others deprived and subdued.

No discrimination of lawful and unlawful is to be made.

One is human being ----- the other is too.

The safety of all is to practice honor, love, equality, service and acting upon law.

## **COMPROMISING WITH VICE--- ABETTING THE VICE**

It has been observed in human societies that people sometimes contend to compromise with evilness under some expedience. This practice certainly abets the evilness to flourish.

If the vice would gradually get spread a compromise would be made with it, with the result that human society undergoes the victimization of derangement, mismanagement and turmoil. The lamentable situation of human societies in the world is just because of such compromises. And this practice is still in vogue.

Every coming generation has to bear the consequences of the previous generation.

## **ALL PLACES ARE MINE PLACES ----- I AM A HUMAN BEING**

The man ----- since his birth.

In search of food----- avoiding onslaught of hunger  
----- roamed about place to place like mountains, valleys,  
plans, forests, deserts, ocean, rivers.

Got settled ----- where got food.

Population increased ----- shifted from one place to  
other ---- dynasty and tribes got mushroomed.

The places were named ---- became famous----  
towns---- cities--- countries. God granted intellect and  
wisdom through His Prophets, Saints and religious guides.

But!

The people harboring greed, avarice,  
lust, bigotry, hatred and arrogance kept on fighting with  
each other----- killing and being killed.

Do plunder, deprive, kill, and be killed----- to  
commit murdering---- an act of the beasts!

The yesterday as it was----- today is the same.

The 21<sup>st</sup> century ----with a man of intellect and  
consciousness.

Wherever the nature may produce-----this place or  
that other.

All places are meant for mankind-----All places are  
mine indeed.

Me a human being-----the others are too like me!

Peace, security, respect, love, tolerance and honor.

The synonym of living together-----distributing  
equally-----by man----the men all are!

## **THE FORCED BACKWARDNESS OF POOR COUNTRIES**

It has been felt by noticing the provision of all the  
human basic facilities by the developed countries like  
human rights, freedom, justice, health care and allowance  
to the jobless people that those countries, except a few one,  
are quite successful in acting upon the dictates of their  
religions.

Whereas the poor and developing countries are still  
entangled in all sorts of problems like the fight for power,

the quarrelling for getting the legal or illegal wealth, to enslave the people by their different tactics social and economical injustice, unemployment and provision or non-provision of basic facilities with no regard to practice the teachings of the religions.

Probably the interpretation of the basic religion of the poor countries is to maintain poverty or to keep them poor by the powerful countries!

### **THE DOVE OF PEACE-----ENHANCEMENT IN POVERTY**

The majority of the global population is leading a life of poverty. The harbinger of peace, on the contrary, is playing the role of the dove of peace. The impoverishment is taking up an embodiment of a hungry cat. That is why, the doves of peace have closed their eyes. The impoverished cat needs food.

The responsible people of the world ought to pay their attention to this very aspect of life in particular.

### **A QUESTION TO THE ECONOMISTS**

The people doing M.A, MBA, and Ph.D in economics are called the Economists in the world. Do they qualify themselves in the sole issue of making a poor the poorer? The outwardly scenario of the global mankind does manifest the situation.

Note: The rich people engage the economists on heavy salaries to devise the methods to enhance their

wealth. They are sacked if they do not come up to their expectations. The more expert one is, the more does he know the methods making a poor to grow poorer.

According to a report of the UNO, the entire wealth of the world is owned by two percent people only. Is it the outcome of the efforts of the world economists?

Is there any book that contains the formulae of ameliorating the financial condition of the poor? And which is the library of keeping such books?

## **THE CHANGE IN THE ECONOMIC PRINCIPLES THAT HOW TO KEEP A POOR THE POOR**

The powerful people since the old days have been acting upon the UN return economic principles to maintain their superiority that “how to keep a poor the poor” to enjoy their free will.

Now in the modern age there is some change in the principle of “how to make the poor the poorer one”.

The day by day increase in the poverty is due to acting upon this very principle.

## **THE DIVERSE PEOPLE WITH DIVERSIFIED DRESSES**

There are different kinds of people in the same country with diversified dresses. There is the majority of

such population in several countries which is attired in poverty. (who are deprived of drinking water, jobs, medical care, justice and protection etc).

Their poverty in this world is their only protection.

The lower stage of the poor poverty is that of the animal.

### **CONSIDERING OR CALLING THE PEOPLE FOOLISH ARE IDIOTS BY THEMSELVES**

Generally the people of the poor countries do not get education because of their poverty and they pin their expectations with the rulers to remove their grievances. The rulers promise to give them high hopes and the peoples in turn extend their adherence with them innocently.

The rulers enjoy their power at the cost of the national exchequer but they fail to provide any basic facilities to them.

They also presume that the people respect them by addressing “sir” just due to their having superiority in the society. A destitute person cannot address a destitute person as “sir” or “sahib”.

And if say so it might be because of his any compulsion. But he cannot harbour good sentiments for him unconsciously. They will never give him any honor if they fear any threat from them.

Who is the foolish or an idiot person?

### **THE YARD STICK OF GUAGING THE HINDRANCE IN THE PROGRESS OF THE POOR COUNTRIES**

The developed powerful countries of the world often create different hindrances in the progress of poor countries through their various conspiracies. The conspiracy launched against the poor countries can be assessed by some yard sticks as :

1. If the leaders and the officers posses undue wealth, they can be taken up as the tools of the conspiracy of the powerful countries.

2.If the leaders and their representatives get such policies implemented due to their incompetence or lack of knowledge to keep the poor countries more poor. Even then they could be the source of their conspiracies.

If this practice is continued in the poor countries, they will remain the poor forever.

The people are always innocent.

### **POVERTY ----- INTOXICATION**

The poverty, in a way is a sort of intoxication. Would anybody like the intoxication?

Such intoxication costs nothing. It is free-----  
absolutely free.

The people making the budgets of the countries do not think of the treatment of this intoxication because one does not die due to it. He remains a live but with his dry bones.

God would hold accountable to all human beings on Doomsday.

### **WHEN THE POOR IS METED OUT CRUELTY**

When any poor person is treated with the cruelty, I wish I were an angel to tear that cruel man into pieces. But alas! I am a human being with the knowledge that the angels had prostrated before mankind, a person does witness the cruelty being meted out to him but can do nothing for it. It is said that the law cannot be taken in one's own hands. Then what role does the law itself play?

What do the people implementing the law do and their own? Do they all are the human being?

### **THE POOR COUNTRIES ENTANGLED IN DEBTS**

The rich and develop countries have remains as such after the second world war. Whereas the poor and developing countries have remained unchanged. The rich

countries get the poor countries pegged in by extending loans to them. The wretched poor countries remain entangled in that's and the rulers of the poor countries also get their public surrounded in their domestic problems.

Its example is that an animal tied with a peg keeps circling around it.

## **WHY THE POOR SUSTAIN TORMENT?**

The poor people of those countries of the world spend a hellish punishment where the education is in the dearth. This has been the strategy of the rich, chieftains and the landlords in the past and is still in vogue to keep the poor/ deprived persons longing for good food and accommodation. They ought to be given the bare minimum requirement. The rich people follow this principle strictly. They oppose education and make it costly either.

When the people of the poor countries are provided with the facilities like that of the rich people (shelter, food and other facilities), they too do resort to adopt the policy of the old chiefs and landlords.

Further more the public representatives also start getting their facilities increased. Perhaps they would not desire to become the public representatives if they are not given the protocol of the big ones. Why are the elections of the poor countries so costly? After all there is some secret behind it?

If it is not so, why the people of the poor countries or deprived of the security, medical care, potable water and jobs etc? What is the mystery behind spending billions of

rupees in contesting an election by a candidate if the passion is that of serving the public?---- it is quite beyond one's imagination!

**THE POOR AND THEIR CHILDREN ARE  
NOT BEGGARS-----THEY ARE  
RESPECTABLE PEOPLE**

It is a common conception that the people who are financially weak are considered as the poor ones. They have to wage stumbling efforts to make both ends meet as well as to get jobs, education, medical treatment and justice in this society. They are constrained to knock at the doors of the influential people to get their grievances redressed instead of praying to God to solve their problems.

To entreat for due rights before any big wig is an insult of the poor. It is the responsibility of the responsible people to look after the interests of all human beings. Do the authoritative people themselves entreat the other people for their own grievances?

This custom has got to be changed all over the world. Otherwise the time will come when the children of the authoritative people would be constrained to beg from the others.

Their children, for whom they extort wealth today by hook or crook, could be the beggars of tomorrow.

We all are accountable before God soon. May God be the Protector of us all!

## **THE PATIENCE--FROM BIRTH TO DEATH**

There are several such poor countries in the world whose every new ruler keeps harping on the one string that the national exchequer was emptied by his predecessor. Under this excuse they start begging loans from other countries which are supposed to return through the public in terms of dearness in the prices of Petrol, Electricity and other necessities of life.

A ruler after coming into power tends to start harping on the string that-----the exchequer has been replenished or that it is now full through his efforts.

The next ruler/successor starts complaining that the national treasure was emptied by his predecessor and nothing is left in it.

One can witness the patience of the public on such comments.

The public already remains involved and divided in their own circumstances, prejudices, fraternity, sectarianism, petty politics and regional bias etc.

Note: Yet there are certain human beings in the world who have to dwell upon the patience from their childhood to death!!

## **THE POOR OF THE POORS**

The person who extorts money from others in the name of the poor to freely cherish his life is the poor of all

the other poor people of the society. Certainly he is a destitute, compelled and helpless person no matter how wealthy he might be.

His tactics are different. The hunger of a poor person is generally in itself. But the person who plunders the public in the name of the poor has got tremendous hunger, an insatiable one.

There is no limit of hunger for such kind of people in the society.

## **THE WORLD RESOURCES AND THE POVERTY**

The majority of the people in the world are the victim of hunger, compulsion and poverty because of some countries wresting and extorting the resources of other countries and purchasing the goods of the poor countries on lower rates, to recruit manpower from the developing countries as their own manpower is quite costly. The poor in their impoverished plight are constrained to opt for whatever wages they are paid by them.

The wages of all human beings should be kept at par whether they are the citizens of the poor or the rich country.

The people or the country involved in such exploitation is a stigma of defamation in the name of humanity.

## **THE EARTHLY PLANET-----HUNGER, DISGRACE, POVERTY AND THE RESEARCH IN THE SPACE**

Is it initially possible to discuss the issues of provision of pure drinking water, food and other basic facilities to the mankind in any session of the United Nations Organization?

And other researching issues should be taken up after that. Lest there may not be hunger, indignity and pauperism in the planet if explored newly. The half of the earthly planet is already deprived of the basic human facilities.

First of all the hunger and impoverishment should be finished from the world and to launch the new researches of other planets later on.

## **AN OLD ADAGE**

There is an old adage that the married people do take buttered breads to be cooked by their wives. But the hearth of an unmarried person always remains extinguished for none to fire it for food.

In the modern age the wealthy people do enjoy themselves with the buttered loaves whereas the poor can hardly make both ends meet.

## **WHY NOT THE EQUALITY?**

Why do the residents of all the villages of any country are not furnished with the equal human facilities?

Do they all are not the citizens of the same country?

Are their National Identity Cards not of the same country?

Are their Passports not of the same country?

If it is so, why is there the difference in their living conditions?

Why is there the distinction between the representations of the rich and the poor?

Why the justice is not provided to the citizens of a country equitably?

Why is there the hatred among the people of the same country?

The hatred begets evilness. The passage of the evilness is decline and destruction, contempt amongst the people, injustice, and discrimination in the basic human facilities, livelihood, and wrong use of authority, terrorism and considering the other human beings detestable.

So spurn hatred, tend to convey the message of love and honor to each other. Act upon the principles of love, respect of the human beings. Accord due regard to mankind on priority basis wherever they live.

## **THE WORLD WITH A SINGLE FILM----- THE STUMBLES OF DEPRIVATION**

The Story: Greed, avarice, intoxication, lust, back-biting, Hypocrisy, sedition, disturbance, pride, arrogance.

Through: Cast-system, fraternity, tribes, racialism, sects, Convictions, regional, provincial and national bigotry, hatred, brawls, weapons and fights etc.

Cast: The poor, orphans, paupers, destitute, helpless, Compelled, oppressed, justice-stricken, bereft of their rights as a whole.

Villains: The cruel, unjust, oppressors, terrorists, lesser in number but having stooges more in number.

Heroes: All to be the Heroes if they wage struggle collectively for their due rights.

Heroes: Otherwise-----wait for the birth of a real Hero.

Songs: The attractive promises to be fulfilled via dreams.

If not in this world-----in the next world!

And the non-stop picture: “The Stumbles of Deprivation” would continue to be screened in the Cinema Houses of the world. There are two hundred countries in the world.

All of the countries are the Cinema Houses to show this film. But it is not shown in certain developed countries of the world, but its trailers are surely shown in one way or the other.

## **THE SYMBLE OF A POOR COUNTRY---- THE PUBLIC**

The distressed brand Cigarettes: The smoke of pains and sighs.

The syrup of the Poverty: The factory of depression.

The Mills of the Promises: The Unaccomplished Ambitions.

The Kiln of the Justice: The ashes on the palm.

The Farms of Cruelty, Violence And arrogance :  
The Screams and protest calls.

The School of Unemployment: The Spurs and the Jolts.

The Scenario of the Places of  
The Worship: The bloods on the floors and  
Splashes on the Walls.

Searching for treatments: The fake  
medicines....Riddance Life

Bomb Blasts: The massacre of the innocent people.

Unknown Destination: The obliterated system.

## **THE FEVER OF THE FATE**

The poor has never been the patient of any disease.  
He is the patient of only the fever of his fate.

He has to treat himself with the syrup of  
poverty manufactured in the factory of  
deprivation.

And finally the patients of such chronic disease get  
passed away from the world.

With borrowed and contributed Coffin.  
The organism of the world: Greed, avarice, lust and  
bad administration.

## **WHY DO THE PUBLIC OR COUNTRIES ALWAYS REMAIN SCARED?**

Not known why?

The poor in the poor countries;

And the poor countries in the international forum of  
the rich countries;

All are gripped in the frightening conditions.

Not known why?

The poor too is a human being;

Like other global human beings.

The rich as they are-----The so called great pioneers  
of the humanity;

Why do the poor get scared?

Why are there the double-standards of the humanity?

## **THE POOR COUNTRIES-----AN ORPHANAGE**

There are a lot of the poor countries in the  
world. Some of them are just like an Orphanage. The

administrator of an Orphanage contends to beg for aid and donations from the public the name of the compelled poor deserving children residing in the Asylum of the orphans. And the administrators cherish a luxurious life but the poor heirless children are hardly provided food according to their requirement.

The responsible people after having been retired from service start demanding from the successive management to bring about betterment in the prevalent deplorable condition of the children without admitting their own fault of the nature when they were the in charge thereof. They highlight the defects in the system but after their retirement. Unfortunately, this practice is being continued since long and will remain so indefinitely.

God knows when will the orphans be provided sufficient subsistence and shelter and when will their condition get changed?

## **CONSCIOUS INTELLECT AND ONE'S WAY OF CONCEPTION**

The rulers and leaders of those world countries who are found involved in the financial corruptions are termed as the 'thieves' in the social circles of the developed countries.

On the contrary the leaders and the rulers of the poor and under-developed with less ratio of literacy are considered as the 'most popular leaders' by their own public and well-wishers.

What to comment! The people have their own way of  
conceiving the facts.

## **A LYRIC OF PEACE AND SECURITY----- BEING AN OLD ONE**

Some people habitually keep on singing any song;

The others carry on fulfilling their assignments of;

Misappropriation, violations, cruelty, injustice and  
massacre-----

-----A real story!

Certain films include some songs-----of love  
and melancholy---

-----Lest the viewers may not get bored!

The lyrics of peace and safety are sung in life.

Lest the oppressed ones may not get dismayed-----  
-Rather they may remain optimists!

To survive with the optimism-----Get on  
going!

Basing on the ambitions-----so that the  
routine whatsoever keep on going!

For some people to enjoy-----For others to mourn!

But if the education is provided to all human beings-  
-----The ambitions would get into realities!

Then all would sing the lyrics of peace----safety-----  
and prosperity!!!

## **THE SOUL/SPIRIT---AIR-----HUMANITY**

The 'Spirit' or 'Soul' is a sort of breath-----An  
air!

The air keeps on blowing-----is not static!

Surrounding the terrestrial globe-----With no  
boundaries!

The mountains, fields, deserts and coasts-----One  
and the same for it!

The 'Spirit' does permeate into body;

The features, physical set up and height, with  
different colors;

The 'Spirit' permeated here and there-----  
Quite monochromatic in its Nature!!!

## **Humanity Is Kinship**

7 Billion

Humans beings living on planet Earth

Scattered all over the Globe

Father, Mother, Brother, Sisters

Sons, daughter, husband, wife

Cousins and relations

Tied with norms and bonds

Caste, Colour, Creed, Tribe

Country, region and religion

Is called Kinship

Feel pain and sorrows together,

Play Fun & Joy together

All are independent

Through Trade and Commerce

Humanity is Kinship Globally

Need to share the pain

Across the boundaries

In calamities, disasters

Cyclones, epidemics, earthquakes,

To help in deprivation and lack of amenities,

Clean Water, Food, Education, Justice.

Time to share the knowledge, technology, expertise

For tranquility.

Discouraging wars, militancy, terrorism

And sponsors of these.

Solving disputes among nations through dialogues

Making efforts for

Harmony, unity, respect, equality, tolerance,

For peace, love and safety

Of Humanity

FOR ALL 7 BILLIONS

## Old Mama – The Earth

Dear Old Mama,  
You've been  
Nurturing, nourishing  
Water, Milk, Grams (**Grains**), Fruits, Vegetables,  
Fish, Meat.  
For ages long  
We your sons and daughters  
Owe to you to care  
Some of us noticed  
Iceberg melting speedily on top of the world  
Consequently, water in oceans  
And temperatures rising  
Sons and daughters bound  
To care for the environment  
For good health of our Mama  
Preempt imbalance  
Oh' (!) Old Mama  
Should you disappear – we all vanish  
We will not let this happen  
We promise to spread awareness  
Of melting icebergs  
Amongst all brotheren (**Brethren**)  
Living on this planet  
Together we strive  
To save our Mom  
Existence of man kind is bound with whom  
**Oh Creator give us courage, strength and unity to  
care for our Mom  
More zeal and zest.  
Ignite us with sacred fire to melt ice in our hearts,  
Forge love, harmony and unity among all.  
Brothers and Sisters conserve Mom**

## **HUMANITY IS A TREASURE**

For the Two Billion Children of the World

O Dear Children,  
All are alike and equal  
Every human kind is blessed  
With enormous equalities  
Human beings serve humanity  
A human soul is part of the HUMAN TREASURE  
It is to play its role  
Designed by nature.  
Humanity needs help  
Even a single good act or step  
Contributes towards humanity.  
Nature loves you  
Nature love Humanity  
Nature loves its Creation  
As you love your writings  
Or a doll, you have made  
Respect and love your own self  
Respect and love others too  
Respect and love Humanity  
Respect and love Nature  
The Creator  
Helps others to co-exist  
Care for others to co-exist  
Respect others to co-exist  
All living beings  
Are interconnected, inter dependent  
LOVE LIFE  
YOU ARE A TREASURE

## A Human Kind of Planet Earth

I am beyond boundaries  
The world is mine  
I am in the world, not for my own self  
All religions and faiths, are for me and mine  
I respect them all, all are for my guidance  
All are for virtue  
Through me  
Virtue flourish and evil buried  
Virtue breed (**breeds**) peace and harmony  
Evil causes war, disharmony  
Preach, Truth, Justice, Tolerance, Respect  
Fairness and Love  
Evil disguised as virtue  
Causes killings, destruction  
Spread poverty, hunger, despair  
Through lies, arrogance, prejudice and hatred  
In all religions among all faiths  
Human kind have to struggle  
For peace and harmony  
Humans ought to share the knowledge and resources  
Among all  
For prosperity and progress for all

## SOUL

The soul flies in the air  
From one place to another  
Assumes shape of a human  
Through breath of male  
And egg of female  
Baby comes to the world and cries  
In childhood some die  
In continuous journey of  
Sleep and awake  
Food and hunger  
Rich and poor  
Fortune and misfortune  
Good and bad deeds  
Suddenly the sold (**soul**)  
Leaves the human  
Unable to breath  
Flies back in the air  
To a destiny  
Unknown yet  
Perhaps ever
