**Humans 'The Best Creature'
Not expected to act negatively
to degrade its status of 'THE BEST'**

Rana Ehtisham Rabbani is a man with every conceivable plus that can be imagined. A sportsman, a lawyer, an author and above all a peace activist with a passion for human well being, globally. For his dedication and commitment to peace, he has earned the gratitude of thousands, not only in his home country, Pakistan but also in Bangladesh, Japan, India, South Korea, South Africa,

Germany, Switzerland, Hungary and USA.

Whereas others spend a fortune to be recognized and known to public, he has no worries on the score. He is not beholden to anyone, is financially independent and untainted in any way.

He always finds the courage to speak his mind and in the process effectively spreads the message of peace and humanity. The focus is on humanity and safety of mankind. And for him the future lies in removing all barriers and boundaries of faith, religion, geographical divide with discrimination out and eliminated. By avoiding the armchair approach and instead acting more through interaction nationally and internationally, he has managed to get his message across. He speaks through knowledge, by word and by pen and his publications include 1.5 million pamphlets and five books. International forums like United Nations is a place he remain associated with. He strongly believes that peace will ultimately prevail. His thoughts are adequately summed up in one of his quotes:

O, Humankind - Love thyself

Love others too - Love will return to you

Love begets peace - The best virtue

Male Dominance and Rising of Women Talent

Male dominance shaded the humanity with wars and uncountable killings, destruction aside throughout history of humanity till today January 2023. Women, girls to rise up and lighten the humanity with Peace and security for safe future globally.

World waiting for your talent to play positive role for Peace.

I shall appreciate the efforts of Institute Cultural Diplomacy Berlin for making efforts in building Peace in the world. I am also thankful for inviting me on this highest platform of humanity. Nevertheless I am grateful to Secretary General UNO Mr. Antonio Guterres for his extra ordinary contribution for well being of humanity globally in solution of human problems in all aspects of life such as hunger, wars, floods and other calamities.

Democracy Being Contaminated

Democracy is a noble form of governance for running a social system.

It is observed that big industries of various sectors of business contribute funds towards election campaign of political parties and their candidate as well as in lobbying corridor of the congress, parliament. This is

an act of winning over the sympathies and seeking support policy and law makers of the nation. In this regard billions are spent by the business community as an investment for future benefits and profiteering. The industries add in such spendings in the price of the products which ultimately citizen pay on its purchase from respective sale shop, store and market. Such means and methods of influencing the elected representatives violate, degrade and debase the sanctity and spirit of democracy, which is considered as Collective Wisdom of people of country. Citizens of a democratic nations to take notice of these contaminated attempts on purity of democracy. This will help in reducing the extra burden on purchase power of their hard earned money.

Some Suggestions:

- Party fund must be raised through the party members.
- Ban on donations other than party members.
- Lobbying or influencing the members of congress, parliament must be discouraged.
- Members should seek suggestions from the people of their constituency if they require so.

Fundamentally democratic system should not reflect that it is a rich man's game, rather it should prove through action that it is a symbol of elected representatives beyond shadow of doubts.

Comparative of Environmental and Human Society
Pollution, Veto is the highest peace polluting agent.
Sovereign Collective Wisdom is the solution of all
problems faced by humanity.

Sovereignty of Collective Wisdom

We, the humans are the best creation of Nature with qualitative brain than all other creations. Humanity passed through many evolutionary stages and phases. From stone age to space age, Socially from tribal system to current era experimenting various kind of ideologies and philosophies. It is a continuous voyage of human maturity towards destination of Oneness of Humanity. 'All same, All over, All to be treated alike'.

Basic desire of every human is to live peacefully with essentials of life. How to give this wish a practical shape it is a big challenge. The best way is to take human's opinion to evolve better social institution.

Presumably, in older time, the humans felt need of some rules, regulation and laws for administering the collective living. A controlling structure was established with mutual consultation for rights, responsibilities, functions and duties, which can be named as a system comprising expression of Wisdom of residents.

Wisdom is the purity and positivity of inner self of a human which reflect through his / her thinking, acts and deeds on the basis of established principles of humanity like truth, knowledge, justice, honesty, equality, love, empathy, compassion, tolerance,

forbearance for the welfare, wellness, well being, Peace prosperity and tranquility of humanity on the planet earth, regardless.

Going through Human history, it is observed that it is filled with episodes of battles and wars and warriors for having control on natural resources influenced by needs and greeds.

In fifteen century, the nature had blessed Mr. Guetanberg with invention of Printing Press, which totally changed the global scenario pertaining to field of wisdom, more books, more enlightenment of humans. Mean while industrial revolution took place, modern weaponry were introduced. Its use helped Colonial Powers to take over vast areas of the world, suppressing the local residents making them subjects. This hampered the growth of Wisdom on parity as world was divided into two major portions. Developed and Non-developed world.

Two parallel lines were drawn with unequal, rights, different laws were promulgated in colonies with less opportunities and limited liberties, which is still going on in many shapes. Resulting, the humanity is stuck with different crises, conflicts and disputes all these are the creation of vested interest groups, which are serving as barrier and polluted agents in the path of well being of humans.

These agents are “Violations of human rights”. Censorships, Injustice, Violence, Terrorism, Wars, Displacements. Aggression, suppression, oppression, deprivation, discrimination. Hate, inequality child abuse, disrespecting women, poverty, inadequate jobs, food insecurity, constant fear of nukes, needless to mention about. Lust, greed and hegemonial mind set which is reflection of sick mindset of custodians of global world.

Veto is the biggest obstacle in the path of mental developmental growth of humanity. A non intellectual clause in the highly important intellectual document of humanity. UN Charter. One nation state using Veto Power defeats the wisdom of rest of the world (Total UN membership is 193).

We the citizens of earth are duty bound to remove all disparities, discrimination and all other anomalies of life facing by the Humans.

For this it is suggested that there should be supremacy of sovereign Collective Wisdom, which must prevail over all other ideologies, upholding the respect and sanctity of humans. There are news in the international media that the Brain would be the battle field of future. Humanity to take precautions before there sound the final bell for humanity.

Creation of Human is a Holy Gift,

Positive Opinion is a sanctifying Gift.
Collective Wisdom is a sacred Gift.
Respect it, trust it, act upon it,
Wellness and well being of humanity lies in it.

World Leaders while making decisions, kindly ensure
mind set is free from hegemony, lust and greed...
sickening agents, all sorts.

Questions to Global Citizens

Can anyone claim his / her country is fairly run on
wisdom by wisdom full state machinery.

crimes, rape, abuse, abduction, corruption,
violence and other violations.

Wisdom is positivity – no room for any sort of

Negative Role - Devil in the Human Society

By reading world's renowned famous author Noam Chomsky's book "Rouge States", in which negative role of humans played in the past is mentioned. One could ascertain that "Devil" is not an unseen entity. It is there in human social society, rather more evilish beyond human thinking, it is spread all over the globe at all level.

Richness is a Hoax

Richness is a Hoax, always live under fears of many sorts like insecurity, degradation and other unseen fears.

In such circumstances and situation humans to find an

Nuclear Weapons – Powerful – Repentance

Immaturely, human involved in non-wisdom – insane
race of powerfulness through manufacturing lethal to
more lethal weapon. Nuclear weapon is on the top.
Now 2023 maturity and wisdom over-powering the old
mind set of becoming super power. They have started
realizing that old mind set led them to the BRINK OF
DISASTER for them as well as for humanity.
They are sick of maintaining, storing these weapons.
Already powerful are now repenting and thinking how
to abolish nuclear weapons.
Soon, the world would see changing waves rising
among super powers and their allies globally.
If humanity to co-exist otherwise all will be eliminated.
Time is alarming. The last hour of midnight, darkness
all over the planet, lucky will be those who survive.

UN. A Blessing In Turmoil World

Birth of a human is the outcome of love between man and woman. Every newly born baby is a blessing for humanity. A symbol of love for everyone. Primarily human social system was evolved on the basis of love for all, care of all and safety of all.

With the evolutionary process of humanity. The humans have learnt that due to overwhelming of negative norms they have suffered a lot, in many ways, most conspicuous is countless loss of human life, besides trillions spending on non-productive episodes like wars and its preparations. For example, in building of multi storied residential building takes years to build with cost of billions and billions. But it is demolished within minutes causing human calamities, regardless. Totally a non-wisdom approach.

Probably, it is because of old dogmatic legacy still hovering over minds of masters.

It is observed that new generations all over the world dislike such negativities, specially human loss which clearly shows idea of oneness of humanity getting strong.

Youth everywhere like happy and loving social environment. Huge gathering in cultural shows regionally and internationally across the global boundaries, through internet communication with each other and social media covering of distance of thousands of miles with one touch on key board on

phones and computers. It is specially noticed holding more and more regional and international cultural programs breaking the chain of restrictions imposed by vested interest powers. Construction of international trading routes, cooperation and coordination of old timer hostile countries leading this world a symbol of Peace for all.

A common citizen of the world who is unaware of ambit of UN Charter expect all good from UNO. Annual budget of UNO is 3.4 billions. Peace keeping mission annual budget is 6.1 billions. Similar case with other agencies of UNO.

In this turmoil world, role of United Nations is a blessing, organizations such as IFAD, IMO, IMF, ITU, ICAD, UPU, WIPO, WOMO, UNWTO and like. People of poverty and wars stricken countries treat the relief ad and security measures provided by the UN Agencies as gift of God.

It is to mention that role of United Nation with the states and organizations is highly commendable. The visiting and efforts of untiring Secretary General António Guterres of United Nation to create harmonized peaceful world and efforts to bring Peace everywhere on the Planet Earth is bringing positive results for the human world.

It is strongly proposed that UN must be empowered more and ample funding along with some necessary amendments in Charter which will help delivering

service in better way for good of humanity.

UNO is the only trustable respectful Organization with its 193 members. Had it not been there. The world would have been like a jungle. I pray for its success.

I pay respect and gratitude to all UN Peace Mission workers who lost their lives for attaining noble objective of UN.

Long live humanity with Love & Peace, Culture of oneness on the Planet Earth. In this regard I must say, contribution of ICD is stand high among other sister organization over the globe.

Collective Wisdom is a blessing

Globally

Thanks to all.

Hate – Hatred – Hatoos

Most dirtiest, digusted, negative norm is hate in social society.

If one feels or expect hate, in behaviour of another person group or community. Human should never go nearer to them unless conduct of Hatoos is changed

into respect of all equal.

HATOO – WHO HATE OTHERS

Case Study

- ❖ In accordance with the Charter of UNO, main emphasis of my writing and work has been for the safety, security and wellness of humans on the Planet, irrespective.

In 2012, I attended a Peace Conference in Japan organized by International Institution on Peace Education in partnership with the National Peace Academy and Global Campaign for Peace Education Japan. Theme of the conference was “Educating for human security and survival” Emergencies in Ecology, Energy and Economy.

I presented a paper title “Control on Weapon Production, Trade and Use” along with “Effects of Nuclear Weapons”.

Later on, a representative of Hiroshima Peace Memorial Museum sent me a pictorial set of posters about horrible effects of Atom Bomb Blast on Hiroshima and Nagasaki.

I managed to organized many exhibitions in Art Council, Schools, Colleges, Universities, District and High Court Bar Association for general awareness. All those who attended these exhibitions, appreciated the presentation. I shall quote “A lady lawyer commented after watching the

posters “No More Nuclears”. Other participants expressed the similar views, encouraging the efforts for peace.

Resolution of Conflict Through Dialogue

- ❖ Once I was asked to resolve disputed issue in poor community, (daily wage earner), during the discussion the parties concerned exchanged the insulting words, there was likelihood of a brawl. I intervened and explained them the consequences of such episodes specially the financial loss, injuries and cost on treatment of injured people etc. They immediately stopped and thanked me for apprising them about outcome of a scuffle, I considered them the incidents the best contribution for Peace at small level. Poor understand the reality more is early and easily than rich and powerful.

Abnormalities of Mental Health

All those who get involve, support and help directly or indirectly in innocent human killings (men, women, children, infants). They are victim of severe mental health abnormalities. Irrespective of status or position in human society.

Workability Truth About Democracy

Democracy in all countries works under controlled phenomena even at the highest level at UNO – VETO. There is a great gap in DEMOCRACY and SOVEREIGN DEMOCRACY. Controlled Democracy is biggest barrier in wellness of humanity.

Democracy is Form of System To Run the Social System of a State

Do Democracy (Collective Wisdom of People) require further guidance from a mighty source?

Wisdom is a positive thinking of people which reflects through election process where people elect by expressing their vote for wellness and well being of human beings.

Collective wisdom (wisdom of millions of voters express through representatives).

Debt - Blessing Or Curse

In ancient time, when the human social system came into being. It was based on “Master and Slave” or Rule of Powerful against Powerless. The Economic and Financial System was introduced on the same lines. Wherein Rich because the Lender class and “Poor” a borrower class. The borrower an individual or a country remained dependent upon the Lender class for running the daily business of life.

Whosoever has the control of Monetary System had ruled the others because of Debt Trap Mechanism. It was made to in dubious way of ruling the others.

Non developed nations in general are unable to make future development budget without the loan assistance from the financial institutions of the world such as World Bank, IMF and like. These all work under the capitalist system. In such environment, economic and

financial freedom will remain a dream for the less developed countries. Terms and conditions are so laid down by the lenders in loan contracts that non-developed have no choice but to accept it. They are subjugated and chained financially through these tools and clutches. The poor become more poor and entrapped.

Plight of the oil rich countries is noticeable. They also take loan because of lack of technological knowledge and equipment for extraction of oil they have no fear of sovereign default as they are capable of repayment of loan on time.

Another astonishing fact that after the W.W-II, none of the non-developed countries have entered the circle of developed nations a mystery or union of riches do not permit.

Human life is a continuous mental growth journey, which reflects from the advance development in projects relating to Agriculture, and planetary scientific research and innovations.

Ironically as far as financial system is concerned, it has adopted different path creating the wider gap between rich and poor. Some experts quote 1% and 99%. Global debt position shows there will not be any space left for more gap.

Either a change will come or page would be turn over, means collapse of current financial system. There is a supporting fact for this apprehension that all business schools teach how to make more money. There is no institution which educate “How to alleviate poverty

globally”. It can be assumed that there may arise catastrophic situation if not controlled timely by reducing non-productive expenditures.

Solutions

Nature has its own discourse, there is parallel path going on, the path of understanding of “Oneness” among humans. Human is the same and one everywhere on Earth. Regardless of nation, race, colour, faith, religion and region. It is rising and shinning at fast speed through interconnection, intercommunication and transformation among young generations. There is barrier of strong negative instinct “Greed” which can be dissipated by high lighting the wisdom norms comprising.

“Harm to None” compassion, empathy, justice and equality among all humans.

Youth of present and future generation will bring a positive change in financial system “Caring and helping each other” No more wars, No more killings, no more exploitations, no more discriminations of any sort. Respect for all, “Basic essentials of life for all”, Education for all. Every human value the same as anyone else over the Globe.

This will be the motto and target of next generation. Hope all these would be achieved soon n 21st century. All are feasible and practical. If human can reach Moon and Mars, debt problem is a minor matter for humans. Long Live humanity – Long Live All.

There are traditional ways to managing the Debt Problem. New suggestions and proposal also recommended by Jesse Griffiths as under:-

1. Improve in Tax Collection
2. Tackling the use of offshore financial centers – stronger action is needed.
3. Reduce the spill over effects of Tax Policies of developed countries can damage the tax base in developing countries.
4. Careful management of borrowing is very crucial. There should be supporting clauses for re-structuring of borrower faces difficulty in repayment.
5. There should be transparency in Debt System. There must be better ways for managing shocks and crises caused in internal and external changes.
6. There is need to permanent mechanism for resolving sovereign debt issues.
7. Fast disbursing international to help developing countries deal with temporary shocks should be promoted.

Long Live humanity – Long Live All.

Who will, who can break those barriers.

A Prayer for Victims of Aggression

Let children of the world shall not face the sufferings as the children of Gaza, Ukraine, Sudan, Congo, Haiti and other places. Loss of lives, parentage, hunger, cleverness, no washing bathing, change of dress for days and months, scarcity of water, little food distributed like baggers. Now help care, toys in debris, many buried in rowing and appeal to children for prayer for the victim children.

It is the human brain which create evil for others like, sufferings through financial system.

Deprivation through use of power in negative way, killings through use of weapons, displacement through bombings.

Use of Nuclear Bomb & Survival of Human Kind

Biggest stupidity	Incase of war, between neighbouring countries both will turn into freezing zone and would be swept away from world map.
Biggest laughter	Those who posses cannot explode they will themselves be eliminated.
Biggest tragedy	Millions spent on manufacturing, millions are being spent on its safe custody, fearing its auto explosion.
Biggest dilemma	Humanity is unaware of its horrific and havocs

Biggest blunder	Will be exploding of nuclear weapon.
Blast waves:	15 kiloton Bomb will create pressure 10 per square inch - 800 km per hour.
Thermal Effect:	Infrared and violet rays, thermal radiation at speed of life, temperature will rise from 3000°C to 4000°C – 1000 watts per square inch.
Radiation Effects	Soil, water will be evaporate.
Effects on climate:	Environment devastation will cause extension and elimination of humans and plants.

Responsibility of all to get all existing nukes defused and stop future manufacturing.

Make this world nuke free for survival of human kinds

How come the humans are considered

The best creation among other creations

Humans to prove they are the best by their acts and
deeds

And living in peaceful manner

Specially not harming fellow humans,

Anywhere in the world

Betterment of Poors

In general

International conferences on various subjects

Are held in Developed Nations

To think, make plans for the welfare of humans
of developing nations.

It takes long time for visa processing

Mostly denied

A disgraceful act for wisdom of developing nations

U.N to take notice of it

Denial of Wisdom

Wisdom is positivity

Thinking, acts, deeds in principle of humanity

Can any one explain what are the repercussions on human society

When wisdom is denied?

When collective wisdom is denied

When Veto is used denying Collective Wisdom?

Does Veto uses acts as blessing or criminal?

Questions to global human society

Where is the collective wisdom truly respected

There will be peace, happiness, prosperity for all

Do the world human system is run

On Collective Wisdom

OR

Running on cheating to Collective Wisdom

Eliminator of Humanity

Some humans act as eliminator of humans

Through bombs and bullets

Objective

Greed, Greed nothing but Greed

Become Beast, Beast nothing but Beast

Apathetic to Human Killings

World Leaders remain clung to their nations interest. Disregarding humanity primary objective, Safety Security Of Humans. Regardless

They silently watched innocent killings despite they are also members of humanity family probably unaware of the word 'Humanity' or have no feelings for fellow humans. It looks they suffer from psychological disease called APATHY.

Nationalism – A Passion – A Myth

Nationalism is soul and spirit of a Nation
Love of motherland, Nation is a natural instinct
Do love your Nation, make effort for its progress
But not at the cost of resources of others
Undue adherence
Provoke feelings and emotions
Of being super and superior
Which results in crossing the limits of passion
Harming others in many ways
Mainly because of prejudice, Hatred, Arrogance, Greed
Create conflicts, disputes, wars,
For usurping resources, end in killing
A condemnable act, negative path
Respect require
Empathy, compassion, sharing
Humility within ambit of Nationalism
Love thyself, love others too
Love will return to you
Over boundaries and barriers
Love begets peace, a Virtue

Various fields, investments, disbursement

Circulation, interest, profiteering, accumulation, expansion

Evolving ways and means,

How to make more money, rich can become more rich

So called experts are obligated to work

Under specific advice for a target

Experts work for salaries, emoluments, personal benefits

Seem helpless, in submitting new thoughts, where all gets equal opportunity in all aspects, where all gets share on parity.

For fear of losing jobs

Gap is widening between rich and poor

Poverty escalating, globally

Cages... Birds and Human Kind

Birds at home or in a zoo
Are kept in cages
They are fed by the keeper
They can fly but in limit
Human kind live in a country
They are kept within boundaries
If they cross borders
They are arrested or killed
By the neighbouring country's authorities.
Human Kind are bound to
Eat food they are provided
Or face hunger
They can enjoy facilities
Which are so provided
Or they have to live with few or no amenities
Country or cage are same

New Nation – New Child

UNO formed Oct 24, 1945

Based on the sovereign equality of members

Dispute to be settled by peaceful means

Members to refrain from contravening

U.N Charter

Security Council 5 permanent members Veto Power,

Total 15

1946 Primarily 50 members

Later 1955 to 1960

40 more members approved

Uptill 1980, total 150

Now 192 members

Every new nations emerge
Due to negligence of fulfillment of promises by ruling elite
Communities feel exploited and deprived
New nations formed on
Ethnic, Regional, Linguistic Grounds
Foremost priority of new
To establish Army to defend territory
Purchase weapons
Looking after citizens is secondary
Do the authorities
Fulfill the aspiration of its people
Food, Justice, Education, Healthcare and like on parity
OR people stay in the same condition, they were before
Frustration leads to strikes, unrest and chaos
Only few enjoy the fruits
Is the formation of a new country, truly for welfare of all?
OR is outcome of some conspiracy
Hidden objective of some
Sale of weapons
To keep people subjugated, dependant
Manufacturers, exporters of weapons, beneficiary
Nations with limited sources have to look for help of others
Becoming dependent for all time
Generation by generation
Dragged, trapped in despair
If leaders, governments unable to deliver justice in all respects of life

Then why strive, sacrifice for new nationhood,
Just for a separate entity?
If they cannot nourish, nurture, citizens, absurd
Only for avarice of few?
Once a child said to parent, why did you try for my
birth?
If you had no resources for my needs
New nation, new off springs suffer
Humanity to look into it
Weapons go scrap after few years
Money – dissipates
Humanity- faces – disparity

Global Citizen

I am a Global citizen
Born in a country
Given a name
As a national
Adopted the Faith, religion
Which my parent followed
I was told to refrain
From people of other Faith
When I grew up
Curiosity forced me
To look into others
What they pray
In their holy places of worship
I sneaked into

TO my surprise
All the priest was addressing
To same ONE unseen
Each has own name
God – Allah – Alowahi – Bagwan – Guru – Ram and like
They were all praying, begging,
Some were in tears
For safety of life, wellness of health
For prosperity, for peace of life, belongs to community
I felt my emotions were exploited against my fellow being,
Human being but of other faith
They have prejudice, hatred in hearts and mind against one
and other
But have the same holy FORCE whom they worship
I came out wondering
Feel sympathy for them
Poor in wisdom
Immature in Humanity
Instead of Harmony
They prefer discord
Exploit, sentiments of their followers
Priest, a preacher of goodness
Still to go mature about guiding a global citizen, positivity
With no boundary or barrier
Brothers and sisters
Friends not foes
Love not hate
Respect not prejudice
For well being of all Global Citizens

Hatred an Obstacle

Hatred is the key word
The biggest obstacle in the path of harmony
Among humanity
Form the child hood, love of tribe
Love of nation is so vehemently infused in children's
mind
They start believing that
Killing the citizen of enemy country is a rightful act
Even though they are innocent
Includes children, women, young old, patients etc.
Inculcation of negativity
Irresponsible act, behaviour
Negative can never bring positive result
Absurd thinking, immaturity
A continuous phenomenon
New generations filled with wisdom, positivism
Changing replacing stagnation
With aroma of fragrance,
Love, respect, harmony with feeling of equalness
In gender, faith, nationhood
Future of the planet
Love, peace, harmony

Peace – A Blessing

Peace is a spirit
A safer, socio, economic
And normal ecological state of environment
Peace is forced to leave
On activation of anti peace elements
Arms, weapons, terrorism
Hegemony, supremacy, avarice, prejudice, hatred
Peace flies away, observe
Blood shed, killing, cruelty, brutality
Demolitions, destructions and disaster
Countless origin
Peace concludes
Human being involved in ---- horrific
Abnormal mental condition
Treating, peace as orphan
Having no parents, shelter or protection
Thus helpless, support less
No choice to stay on earth
But to fly away
Having gone through colossal loss
Peace is again sought
To come back
For sustainable normal life
Peace reappears
To give temporary relief
Knowingly manufacturing of more destructive
weapons is in progress
By so called leaders, industrialist, elite

Qualified insane under guise of sane
Peace's hope
New generation may bring change
Towards sanity
Peace is a blessing not lonely orphan

Might

On planet earth
Rule of the day – might
A psychotic syndrome
Outcome of lethal weaponry, wealth and blind
followers
In a state, nation - 1st step
Control of institutions, functionaries
Through agencies, answerable to none
Expert in creating unrest any where
Disappearing human beings
To deter others around
None can dare
Whoever,
Made horrible example for others
To shun
Actions have no ethics, morality, sanity
Above all laws
No one can speak or question

Limping judiciary

Obedient bureaucracy

Cooperative democracy

All wrongs justified in the name of ‘national interest’
Faith, religion used as tools
Not for guidance
Majority humanity face
Sufferings and deprivations
Few – elite
Enjoy, historical dominance process
New generations to wake up
For change inequity and justice
Awareness is rising
Through interconnectivity, media
Hoping, tables will turn soon
For safety, peace, prosperity and tranquility of
humanity
All, irrespective of class

O’ Man

O man
You are not a complete in personality
Since million of years
You succeed to achieve one Point

Human kind co dependent
Living without business, impossible
Any business trade
Money is the basic unit
Some of businessmen
Go blind to earn more profit
Neglect harmful effect of product
One branch
Manufacturing of killing tools
Arms and weapons
Without check and control
Rules and Regulations
Marketing start with toy guns
Which inculcate violence in children mind
New brain cell develop
War movies, video games, posters
All seeds of anger, violence
Resulting
A student kills fellow students
Friends and teachers indiscriminately

All innocents
Similarly terrorist and warmongers
Responsibility
Head of States, Parliamentarian, institutions
To stop this menace
To avoid unseen catastrophic disaster
In future
Who will take the lead
To end this mad race
Business of killing machines

National Interest – Framework

Every nation has an establishment
Include, President, Prime Minister
Chiefs, internal external security forces
Economic, foreign experts
Every nation has a charter
With consultations
Prepared by above responsible
Covers the national interest from all angles
Every new head of state
Is given briefing
Not allowed to cross boundary
In a conference or a meeting
Homework is already done
Shaking hands, hugging each other
Is just formality
So far on the Globe

Welfare of all is not observed
Mainly because each nation work, for the interest of
community
Humanity in general is at loss

Establishment and Parameter

Only few among all
Citizens of this Globe
Enjoy all basic necessities, facilities in all

Food, health care, education, employment, social security

Rest others

Face some kind of deprivation

Many suffer malnutrition, disease, illiteracy and like

Reason

World is run and controlled by

Military mind set, all over

A dilemma since long

Given, name, establishment

Elected Representative seem helpless

As UNO before an unseen power

But visible too in veiled form

Establishment believe in weaponry

Lethal to more lethal

No matter even if humanity is destroyed

Will include them also, a suicidal approach

Highest form of negativity

Cause is

Military training of controllers

Hours of target shooting

Suppressing love for human kind

Killing innocents of enemy country

Considered rightful act

Killing one or thousands at a time, no value

Biggest example Hiroshima Nagasaki

Millions have been killed since then

Humanity to stop irrational killing

Before it is all finished

Future of the World

Old Legacy

Homo Sapien to human kind
Evolution of brain
Stone age to present time
Inventions, innovations and development
All through brain
In the beginning
Struggle to survive
Human being looked for food, water, resources
On growth of population, migration took place
Spread, scattered all over the globe
Where, one arrived and settled
Claimed the ownership as right
Family turned into tribe
Wars started for resources
In spite of holy guidance
Between virtue and evil
Positive and negative
Good and bad
Human characteristic, negative, greed, prevail

Greed see no morals, ethics, faith and religion
It encourage activation of other negatives
Loot, plunder, rape, arson, violence, killing
Social system remained the same
All is done in the name of national interest
Negative, harms humanity
Sign of immaturity
Following old legacy
Humanity to bring change in mind set
To show maturity
All to share the resources
For peace

War of Negatives

In this little world
Each country has administrative structure
Agencies are formed to combat
Crime, evil in society
A positive sign
But when some of these
Make destructive plans against other countries
Positive turns into negative
Good into bad, virtue into evil
Since long agencies are entangled
A silent war of negatives going on
Between nations
Agencies have their own parameter

All elected or non-elected leaders
Given no option but to continue
A big hurdle in the path of harmony
A barrier difficult to overcome
Humanity suffering from hunger poverty and in justice
Engaged in unending negative wars
Unless mind set of new generation is changed
Hoping best for humanity in coming days

Man Lacks Love

Since beginning of creation

For capturing resources
Food, water, mineral and area

False nervous phenomenon
Master and slaves
Over powered other soft senses
Journey of weapons
Sword to nukes
Approximately twenty thousand at present 2015
If few are exploded, advertently or inadvertently
Earth will assume shape of
Frozen surface and fumes
Heaps of these tools
Reflect man lacks love for future generation
Own children
Whom he shows immense concern

Unless some measures are not taken
Control on killing tools
Every bullet so made is accounted for
Abolition of chemical biological weapons
Humanity needs
Nuke free world
With no fear of being killed
Man to change his mind set
Humanity to resist
Survival at stake

Boy hard and robust
Man short tempered, fights battles and wars
Woman plays the caring role
Forbearance, tolerance
Woman only hope for humanity
For survival, safety, security, peace and prosperity
If man had the wisdom

Majority would have not faced
Deprivation, destruction, violence,
Killings, injustice, poverty, hunger,
Lack of health care, plunder, rape,
Uncontrolled arms, weapons, killing machines
Approximately 20,000 nuclear, chemical,
Biological, weapons
Killing material
Absolute destruction of humanity
Woman is the only hope
For survival of humanity
The saviour – Woman

Man Deshaped Identity

Man - a blessing for humanity
In acts, deeds and reflection
Safety, security, respect, care, love
Honesty, justice, empathy, compassion, equality
But
Has de-shaped his identity
By use of unnecessary force
Upon weak and women
Violence, atrocity, suppression, oppression, hegemony,
greed
Man gives look of a dreadful ghost
Others – fear
Self is fearful of others
Fears reaction and revenge

Unwise approach
Man to recover and retain his origin
Symbol of love care respect
Helping others
Seeking Peace and Prosperity
For all on parity

Weapons of all kinds
Nuclear, chemical, biological
Who spread epidemics, disease and crime
Encourage violence of all kind
Promote hatred, prejudice
Cause famines,
Forced migrations, refugees
Economic imbalance, elitism
Intervene, discourage

Dialogue, negotiations
Hinder peaceful resolution of disputes, issues
Follow negatives to flourish
Thrust hegemony, exceptionalism through war heads
All such are
Far from sanity, maturity, wisdom

Posters exhibition is the best way to raise awareness regarding Nuclear among humanity at large. An example, a lady lawyer entered the hall of exhibition and announced that Pakistan is a nuclear power. We are, not afraid of Indian Nuclear bomb. “She was requested just have a look of these poster.” When she ended the round of watching 30 posters, she declared in a slogan ‘No Way Never Again Nuclear Explosion” So horrific devastative, effects of nuclear explosion, end of humanity and every thing, life on earth.

This is suggested these posters should be shown to every individual of all age and walks of life to raise the voice for nuclear free world. Collective voice of humanity as none would like the suicidal attempt. The present pile of nuclear is approximate 20,000. It is rising. Total wastage of finance, nothing to gain except. Suicide of humanity, no more life on Earth. A great concern for future youth.

Humanity's Survival

1. Humanity needs complete ban on any research relating to development for killing human beings or any other destructive device whatsoever in shapes, chemical biological and nuclear, like.
2. Present stock pile of lethal weapons to be destroyed / abolished.
3. Future generation to struggle and make efforts for their survival and enjoying life, without getting subjected to dangers of weapons.
4. Current destructive mind set should be blocked as it is working and trying hard on self suicidal program. Quantity and nature of weapons reflect their intention for destructing humanity on Earth. This is being against the norms of wisdom.

Ministry for Peace

Whenever, wherever on earth a new state emerges on the globe. The first preference is given to establish an army to defend its borders. For that a defence ministry is created.

The country is formed to care for all citizens in all respect of life, food, health care, education, justice, safety, security and prosperity. To run the business of life in the country different institutions are formed, executive judiciary and parliament. The departments are established to provide basic necessities and facilities to public according to constitution of respective nation. It is observed that there is lack of desire for creating sustainable peace in the society. No ministry for peace is established except few. This reflects the mind set that no one cares about this aspect of life. Peace is the most important objective in human life.

Those countries which do not care for peace they live in shambles, violence and killing environment. To create peaceful environment every nation needs establishment of ministry of peace for safety, security, happiness and prosperity of all global citizens.

Feeling of

Feeling of lieu powerful, gives birth to a new brain cell, which sheds hatred against the weak considering an other a small creature and try to exercise power on that and feel high and proud. This process of thought in mind covers some journey, prejudice, hatred, arrogance, violence, burnting other in various manners and method, the victim injured, go blood, killed, another way feel happy when saviour begs for help. For continuation of life on earth.

This hegemonic attitude and behaviour, the biggest barrier in the path of sustainable place in the world. History and evidence, a witness, a supporting logic about this submission. Power if used for negative ends – a barrier an illogical approach in life.

UNO to Withdraw Veto Power

World's large organization of human community UNO
Lacks democratic spirit in his operation

Bestowing Veto Power to few of its members

A breach of norms of collective wisdom

It is in explicable why such undemocratic power exists
in a modern democratic environment specially when
the democracy is trumpeted by those country who
enjoy the power of Veto.

UNO to withdraw Veto Power by following the true norms of collective wisdom “Democracy”.

Greed Breeds

The prevalent global situation and state of the people force one to conclude that greed a big negative is nonetheless very important element in this world. All nations, systems, institutions, establishments, organizations, agencies, employees, workers have become subservient to Greed.

All routes of life lead toward it. Those who resist, sooner or later disappear from the scene. Greed has no laws, principles, ethics or morals. In fact such norms are used as tools, whenever the situation requires so. Greed is negative trait, which keeps the majority of human kind submerged in the ocean of various ills, deprivations, sufferings miseries. Violence and killings!

Co sharing resources is the best way for co-existence of humanity on equal basis. Let all, enjoy the fruits of life, for happy, peaceful living on earth.

Some Questions to Humanity

1. How long two warning individuals, groups, tribes, countries can fight a war against each other?

2. Till such time two are exhausted by manpower (through killings) shortage of weapons, shortage of food, destruction of infrastructure?
3. What can be the outcome of war?
4. If they come to a trace, then why the war was fought?
5. Can the disputes, conflicts be resolved?
6. Through dialogues, negotiations, mediators?

Every war cause loss of lives, loss of economics, destruction of infrastructures, buildings, roads, bridges, communications, supply of electricity, oil reservoirs, crops and environment .

Killing of Innocent – Loss of Humanity

Whenever, wherever on the globe, an innocent human kind is killed, it's a great loss to humanity. No matter which tribe, race, gender, color, nation, faith, region or religion, the victim belongs to.

Safety, security and survival of every human being is the collective responsibility of humanity.

All have the right to exist.

Condemnation of Innocent Killing

Since the inception of human life, countless innocent human beings have been killed. Humanity condemns all those who were directly or indirectly involved in such heinous crime at any time in history.

Terrorism

Terrorism is a condemnable act in all its forms and ways. Wherever, whenever it occurs on the earth, who so ever is perpetrator.

Humanity to impose embargo on killers, associates, financers, sympathizers, supporters, facilitators, trainers, conspirators, planners, weapon suppliers, transport, shelter providers and like.

Let this evil be buried for all times.

Through mutual dialogues, negotiations
Failed to stop negative research
On nukes and lethal weapons all kinds
Failed to eliminate Nuclear Weapons
Failed to control
Manufacturing, trading and use of weapons
Failed to prevent supply of weapons to terrorist
Failed to identify terrorism
Failed to impose sanctions to facilitators of terrorist
Failed to stop violence, rape, abuse of children,

We have also failed
To raise literacy rate
To overcome disparities
To overcome negative norms --
Prejudice, Hatred, Injustice, Inequality

To create harmonious environment among humanity
To share happiness collectively
On festive days of all among all
We failed to create an international forum
With all equals without veto
Failed to follow the principles of collective wisdom
Failed to evolve
Just economic, and social system
Where everyone can live with
Respect, honour and dignity
Let all live in peace.

Humanity and Maturity

We, the humanity do not lack maturity!
Trapped in negative norms and phenomena
Egoism, Arrogance, hate and greed
Power, riches and wealth
All these prevent us
To think and act on positive links
We, intentionally are not ready
To change negative mind set
Instead follow the dogmatic
Trend set by predecessors
Which are being transferred
From generation to generation
With the innovations in interconnectivity
There is a ray of hope

Humanity to undo the label of immaturity
Should follow the positive path

A Law of Nature

Unless one is conscious of respect and care for others safety and security, ones own life will remain in danger. Fear of insecurity will persist continuously in sub conscious of the person concerned.
This principle applies to all families and nations.

Few Questions to Humanity

1. Do you carry feelings, behaviour of hatred for an other person on the basis of colour, caste, clan,

- tribe, profession institution, region, nationality, faith and religion?

 7. Do you believe in oneness of humanity?
 8. Should we share resources on earth among all in all aspects of life?

Love for all

Hatred A Mental Illness

Hatred is a negative norm, a social ill. Unfortunately, some how each one of us is infected with this mental illness called Hatred. On the basis of colour, caste, clan, tribe, profession institution, region, nationality, faith and religion. These cause discrimination,

disparity, sufferings chaos, happiness can only be achieved if human beings follow the positive norms.

All negative norms are mental infections and social ills.

Sick Minds – Result in Demons

For survival, every human being needs, air, water and food.

Polluted air, contaminated water and impure food cause damaging effect on the health of human beings.

Similarly, negative norms, hatred, prejudice, greed, injustice, inequality, dishonesty, arrogance, violence, wars and killings are poisonous for social living environment which cause crime, discrimination, disparity, misery, and chaos. All negative acts and deeds are performed by persons who possess sick minds. Hatred is the most sickening symptom of an unhealthy and mentally ill human being.

A system of harmonized social living environment can only be achieved by persons who possess healthy minds and follow positive norms. Like love, respect, trust, honesty, justice, equality, empathy, compassion, tolerance, forbearance.

Love for all is the most powerful sign of a healthy mind.

Note: Symptoms of Unhealthy Minds

Any state fails to provide these basic essentials, it loses its sanctity of existence as a state. Poors of the world community can be labeled as: “Stateless Citizens of the Earth”.

Transparency, Future of the World

Revolutionary innovations in the field of interconnectivity and fast flow of information reflect that awareness of oneness of humanity is rising at a greater speech. It is presumed that principle of

transparency will be applied in the working affairs of all the institutions of a nation including working of UN. Furthermore principle of collective wisdom will prevail all over the globe, UNO will be free of VETO.

Real Identity

The personal identity of a person being a human being is the real identity of every living person on Earth. Rest all are secondary identities, caste, clan, tribe, nation, profession, region, faith, religion. Human being is the symbol of positivity. Kindness, truth, justice, knowledge, honesty, empathy, compassion, love, care, respect, trust, forbearance, tolerance, equality, negative norms, leads to monstrosity.

Who will hear the Cries

When an act of violence is submitted on any innocent human being, children, men and women,
Who will hear the cries of victim?
God created human being, blessed with wisdom to look after affairs of human life on earth. All institutions, organizations, departments are established to protect from crimes and ensure safety and security of human beings.

Let better senses prevail
Co-sharing, mutual existence
Co-respecting, helping each other
In needs and deeds

Oh Dear Man
Be kind and noble

Nation – Statelessness

For organizing social living system
A nation requires state organs

Non-availability of essentials of life
State pillars fail to deliver their assigned
responsibilities
This reflects non existence of state.
Nation under statelessness.

A Personal Experience

My Home Town: Okara – Pakistan

In 1995, suburb of city a small colony residents belonged to uneducated, daily wages workers class. A dispute developed on issue of small vacant plot. Whether Government a primary school for girls be

built or a dispensary of health.

Being a District President of Political Party in Government. I was asked by the residents to decide the conflict source. I visited the area. There were about 100 people, 80% were in favour of school reason, small girls have to travel to a distantly located and located school. Valid argument, the 20 persons started Rowling, hot words exchanged. They were near to fight.

I intervened with high raised voice stop for a moment listen me first then you can forcibly fight, I explained to them you are all daily wage worker. You and family eat what you daily earn. In case you fight some will be injured and will be taken to hospital for treatment. The accidents will be looked by Police. Huge money and lot of time is required on health care, Police investigation, lawyers, court proceedings. Can you offered all this expenditure where as you are penniless, live penny by penny. Monitory poor people wisdom and sanity prevailed. They stopped and a mishap was avoided. Saved them life and money.

Astongishly

Super Powers, as well as small countries spending the billions trillions on war preparation ignoring the poverty. Sufferings and misery of citizens, humanity in general failed to accept and adopt the path of sanity.

Resolution of issues through dialogues and not by arms and weapons. Leaders and establishment claim they are educated, mature, enough to lead the countries.

They must learn from small uneducated poor people of a small suburb colony.

Dilemma of Human Rights

Human rights are basics of human heads and peaceful living in a social environmental history reflects human social system was based on Master and Slaves. Powerful and the powerless with no rights. With the passage of time and awakening of neurons, and efforts, struggle and sacrifices of powerless community, started their journey of rights. No mention of incidents and episodes like Chicago Hay Market in 1886 and women write to vote in 1919. Journey is ongoing breaking the chains and shackles of powerful. The most obvious barricade is the veto power clause in U.N.O Charter. Veto is a tool of aggression. None can ask, stop the

ruthlessness of a Veto Power Holder. Currently Ukraine is the victim. Demolition, destruction, displacement, killings of innocent children, men and women.

Sanctity and Violations of Human Rights

Exploitation of human rights is an ongoing issue of humanity. Human rights are all sanctified and respectable.

When a child is born on Earth, attains the right to exist along with all other rights. Nature has blessed every human with certain instincts among these two are most distinct.

- (i) Desire to live
- (ii) Fear of Death.

The social system developed by human beings primarily promotes a master and slaves relationship. The powerful with all facilities of life and the powerless with meager facilities and rights. The whole structure of our social system such as civil administration system, justice system, rules, regulations and laws, all are made by the powerful elite of the society. Therefore the interest of powerful and rich is always taken care off at all levels. Disparities in social system cause violations especially in developing

nations. (Former colonies) because of old legacy of ruling system.

Some other features cause violations. Hegemonial war, occupation of foreign land, injustice and imbalance in the economic and financial system widening gap between rich and poor, sponsored military action and its aftermath rampant gender inequalities. It is beyond the imagination of people of developed nations that there exist educational schools with no facilities of sanitation, no shelter, no boundaries and much less in girls institutions.

Humanity experiences all kinds of exploitation because of this phenomena. Veto Power clause in UN Charter is in gross violation of human rights at highest level of humanity. Veto has proved to be a tool of aggression. Currently we observe the Ukrainians are the victims of violence, torture, brutalities innocent killings through ruthless bombings and shellings on infant nurseries, hospitals, schools, residential buildings and other infrastructure, causing “Hell on Earth”. Hard to watch unbearable scenes of deaths, suffering, misery, cries of children during bombings.

Most ironic and unfortunate, none among humanity can stop, these monstrous barbaric acts in this world of 193 nations. “NO ONE IS THERE”.

Humanity to raise unified voice. Free UNO from Veto

captivity for sustainable peace on Earth.

All hopes on youth of the world if they wish and desire to live in a peaceful environment on Earth, then they have to evolve a mechanism which can stop such mentally disordered acts and episodes. In my humble opinion there is only one path through which an environment of safety, security, peace and harmony can be established i.e. Unrestrained Sovereign Collective Wisdom, free of barriers and restrictions.

To discourage trends of human rights violations at higher level, humanity needs to establish museum of the most condemnables of the world in which pictures with briefs of their crimes against humanity of those leaders who have been involved in ruthless killing of humans, massacres and genocide in the world. For future this will help to deter leaders of nations, that their names may not be mentioned among the most condemnables.

Let we say farewell to prevailing dogmatic social system and re-structure it on the basis of independent collective wisdom and transparency in state affairs from the lowest level to highest level. So tax payer's money may not be spent on negative project harming humans.

Peace for all, safety for all, respect and dignity of all.

7. Thanks you Japanese humanitarian agency, Hiroshima Peace Memorial Museum.

History of human kind is preserved mainly books, museum served as visual guide to educate, enhance knowledge for research work, thereby help in evolving future vision.

My conclusion in these exhibition is that people are shown realities of effects of wars, they learn from it. Therefore we can work on making catalogues, videos of all the museum of the world this would enlighten the majority of human population and young generation. This project can be done under the supervision FIHRM with collaboration of UNESCO.

In the end I pay be regard and thank to the organizer of this conference for inviting me on such a great conference.

Law at Abnormal Society

Laws are framed for protection of citizens (Tax Payers)

In a civilized society – at any level

Unlawful acts are treated to be abnormal acts

Bring abnormal results

Which lead a society to abnormal state

While living in a society – a citizen can judge

At his own, the condition of society in which he is living on whether it is normal state or abnormal state

Measures to judge

Condition of society

Traffic Control, Crime Control, Justice System, Merit System

Price Control, Food Quality Control, Supremacy of Law

Note: An abnormal is a mental disorder state

Noam Chomsky, April 29-02-2022

1. The world is hurtling to self annihilation and only creation of another world and reverse this course.
2. Double less of Atom Bomb blast. One lesson was that human intelligence in its glory had devised means for self-annihilation. The second lesson is that human intelligence had not

developed the normal capacity to comprehend what it is doing and to control its death wish.

3. In 1953, U.S and Soviet Union exploded Thermonuclear weapons. The capacity to destroy everything – great achievement.
4. Putting these qualification aside – lets go back to essential lesson. Human technical and scientific vastly out stripped human normal intelligence. The capacity to destroy is not matched by the ability to understand and what we are doing and to change course. Those who see the stark resemblance to today are not mistaken.
5. Scientist established the Bulletin of Atomic Scientists and the famous Doomsday Clock certain distance to midnight. Midnight means termination of human experiment on earth. The clock was first set in 1947. Seven minutes to midnight. The clock provides a kind of measure of the gap between technical and normal intelligence. The clock was first set in 1947. Seven minutes to midnight in 1953 with the explosion of hydrogen bombs the minute hand was moved forward to two minutes to midnight. Since then its oscillated, reflecting analysis of the world situation. It did not reach two minutes again. Now analyst abdoned the minutes and switches to seconds.

100 seconds to midnight. That's where the clock stands now. Next January 2023 it will be set again, it would not surprise, if it moves will close to extermination.

In 1945 it was not known that another inflection point was coming poisoning of the atmosphere and new geological epoch what geologists call. Anthropocene, an epic in which human activity radically influences the global climate and not to its benefit. 50 years back CO² level sharply accelerating. That we were heading towards catastrophe.

6. Capitalist principle 250 years ago Adam Smith described Merchants and manufacturers of England. All for ourselves and nothing for any one else. Essence of unregulated market which is a death warrant for the human species and also for the collateral damage among the rest of life on Earth.

Democracy – A View

Democracy, primarily a phenomena of collective wisdom is a learning and reformatory process based on social experience. It has yet to discard non transparency in state affairs, hegemonial trades and extra possessiveness of elite group restrict its benefits reaching to general masses – common man.

Independent evolutionary democratic process is deeply connected with awakening and awareness of humans regarding problems and their solutions of human social system.

Power when Overwhelm with Arrogance and Greed becomes Senseless

When power becomes senseless only abnormalities, follies, stupidities and insanity can be expected.

Honoured

I feel honoured to receive invitation for participation in
“The World Forum on Cultural Diplomacy” in the
UNO 2023.

Promoting Democracy and Peace through Dialogue
and Cultural Diplomacy.

New York March 29th – 31st 2023.

Abstract

Humans are the best creation of all - one and same all
over the globe

Must live in oneness and unanimity as one family
“Humanity”

To live in Wisdom (positive) way

Citizens of Earth are duty bound to remove disparities,
discrimination, violations of human rights, inequalities,

violence and war, injustice, abuse of children, disrespect of women and hatred of all sorts.

Every generation has to play its role in contribution for better human social system by promoting, spreading, creating, peaceful, harmonized environment.

It has been observed that Peace has become victim of Egoistic, hegemonial syndrome. Earth is common for all, its resources are for humans. Only requirement is of application of wisdom for sharing these resources to eliminate hunger, poverty and to provide basic essentials to all.

“Creation of Human is a Holy Gift

Positive opinion is a Sanctifying Gift

Collective Wisdom is a Sacred Gift

Respect it – trust it – act upon it

Wellness – well being of humanity – lies in it”

Nukes are suicidal for humanity causing killings, imbalancing, Eco-system, horrible effects on human living system.

Quoting Personal Experience

There was a dispute on some issue between too low income groups there was likelihood of bloody clash, they were told pros and cons of outcomes of clash. The issue was resolved peacefully and amicably.

Another incident when under trial prisoners chained and in shackles were de-boarding from a prisoner van, wrote first ever pamphlet “dangerous animals are kept in jail behind bars, dangerous humans are kept in jails

behind bars.”

Humans are the best creation, they should refrain from committing crimes.

1.5 million pamphlets on these social issues have been distributed among masses for awareness and awakening.

Moreover organized countrywide many exhibitions of posters of Hiroshima, Nagasaki Atom Bomb blast, effects.

Main crux of my writing reflect the above mentioned narratives.

An Unaccountable Financial Crime

Invert and Covert Policies against one and another

For letting down each other

For defeat of each other

Absolutely harmful for both the countries involved

Besides wastage of public tax money

On negative objectives

Eventual loss to public on both sides

Yet unpunished financial crime

In the garb of national interest

So far unchecked.

Inefficiency and Incapability – Means Dishonesty

In a human social system

Suffering, deprivations, injustice, inequalities

Reflect incapability, inefficiency of officials and staff working in the government institutions and departments.

Inefficiency and incapability means dishonesty to thyself and to the nation.

Leaders responsible too

Peace In Jeopardy

Super Powers

Clash of Ideologies

Capitalism – Communism

But united on Veto Power

Both factions have Veto Power in the UNO

Conflicts and unity are opposite words

How come humanity expect Peace

In presence of conflicting charter

General Assembly – Collective Wisdom

Security Council – VETO – Anti Collective Wisdom

Peace will remain in Jeopardy

Unless anomaly is removed

False Cloud of Horror – War

Fake and False Cloud of Horror – War
Swirling over minds of innocent
Citizens of conflicting countries
Making a reason for spending on weapons – trillions
Preparation for war
Failure or reliance and trust on wisdom
If humans can live in peaceful environment in a nation
Why not at global level as one world?
Distrust on self wisdom of leadership or some cheat for
greed
Something is wrong somewhere
Humans to find out and resolve this conundrum of
mind set
Human the best creation
Human to justify and testify with good deeds
Peace all over

Disgrace to Human Wisdom

Instead of solving disputes, conflicts
Through collective wisdom
Humanity spend 3 to trillion on military expenditure
Arms & weapon industries – business
Small or Super Power Countries
Sign of immaturity still lower level.

U.N.O Needs Empowerment

Humanity to make U.N.O a powerful Human Organization against hegemonial, anti human activities, attitudes of countries by eliminating VETO an egoistic tool. U.N.O to adopt principle of Collective Wisdom in all its organs including Security Council. Otherwise it may lose its respect, sanctity and status in future.

Down with the anti human forces
Long live humanity.

Note:

Journey of kingly power mind set
Tribal Chief, Kings Powers, Dictatorship, VETO
modern time 1945 to 2024.

Meaning and spirit is the same
VETO a violation of word united

United means unity in action
Nations all united but power with five only.
Kingdom of five

A War Between Ego & Wisdom

Powerful after attaining power start showing its Ego.

Aspect of powerless his wisdom.

Powerful always are few in numbers with deadly weapons, purchased through public tax money of powerless.

Powerful also draw salary from tax money of powerless.

Humanity observe and experience unwise, immoral, unethical, ruthless, brutal acts of powerful.

Thus Ego overpowers wisdom.

A worldwide negative phenomena

Veto is the worst form of Ego

Ego also contain greed in background, intentions,

Cause – reason world remain in disruption state.

None powerful is free from influence of this horrible menace.

Old Timer Colonies

Old timers colonies were banks of natural resources. Colony masters travelled from their countries to other countries, made them colonies.

Colony Masters declared themselves as kings but in fact they were robbers of their time.

Modern time after world war –II, “war between West v/s West”.

Modus Operandi has changed but purpose is the same.

Manufacturer and Traders of Weapons

Manufactures and traders of weapons know very well that it can kill innocent human beings, yet they are selling it for profit.

What a malicious way to fulfill the desire of greed.

Earth Like A Bank

Earth is like a bank of natural resources. This belongs to all humans who exist on the planet. It always remained under control of the powerful. May be in future youth would retrieve the ownership.

Earth is of all, for all for wellness of all

Regardless.

Peace A Star

Does not shine on the sky

It shines in the brains of the humans

It gains energy from principles of humanity

Truth, honesty, justice, empathy, equality, respect and dignity

It depends on the intentions and character of the head of the states, officials, judiciary, administration and the business community.

This principle also applicable on all domestic affairs

Peace is within you

Shine it – enjoy it

Blessings on Earth

Anti Human Gang Among Humanity

Any one person or organization, agency or a country
Kill an innocent human on Earth.

He / she will become the member of Anti Human Gang
among Global Humanity.

Global Humanity consist of all humans existing on
Planet Earth, there can be no justification on the basis
of faith, region, religion and nation.

Innocent is innocent

His / her only fault is born in such community as his
soul sent by nature.

Different faith lover call that power by various names.

Reality is that a child is not born by its will or choice.

The killer of human start punishing the best gift of
nature 'Human'. Killer is denying and act of nature.

Turmoil a Worldwide Syndrome

Extra wealth promote greed

Extra weapon power promote its use by accelerating
exploiting, conflicts and disputes among nations
specially developing countries. Ultimate victim is
humanity.

U.N.O is Subservient Organization **To Powerful**

VETO make U.N.O subservient to five Veto Power Countries. The majority of 8 billions suffer on one account or the other over the globe, particularly developing countries. Author, writer of U.N Charter seems to be in extra normal mental state or abnormal mental state while writing the charter of U.N.O. Perhaps was unaware of importance of sovereign collective wisdom.

Hate Collector Bees Among Humans

Hate is a strong negative value in human ethics. Hate collectors are the practical shape of cruelty violence, injustice, discrimination, inequality, merit violators, suppression, oppression, repression and those who are involved in demolishing buildings and destructive actions and above all killers of innocent humans anywhere on the planet. All those who commit such acts, are hate collector to their community or nation, they belong to. In fact they down grade their status from human to hate collector bees among humanity.

Rule of Wisdom

Humanity world must be run by the Rule of Wisdom of 8 billions humans living on the planet. Every generation is bound to transfer a comfortable with facilities peaceful life as a gift to coming generation. This is only possible by respecting collective wisdom and not by disrespecting, rejecting, sidelining, delusive action which is the mean reason for misery, poverty, hunger, deprivation, sufferings, killing of wars, demolition, destructions and killing of innocent humans, anywhere on the planet Earth.

Future is Unpredictable

Situation may arise VETO holder may face the bitters of VETO

Tomorrow: None can predict future

Rise and decline of power

Supremacy of Sovereign Collective Wisdom is the future of the world. Better for all to follow in world of humans.

Comparison between Cosmetics & Conventional Arms Weapons

<p>Cosmetics in approve skin, appearance, body odour and add beauty to human body. Lotions, creams, powders, cleaning, cleansing, protecting and moisturizing the skin</p> <p>Total cosmetics business cost 500 billion dollars worldwide.</p> <p>Purpose of cosmetics to attract.</p>	<p>Arms and weapons to deter threaten, inflict, physical damage, harm or kill, murder, massacres, meeting a crime, destroy, destruct, infrastructure and have climatic bitter effects. Some times people commits sue side</p> <p>Arms and weapons vanished the human body too.</p> <p>Total business around about two trillions dollars worldwide.</p> <p>Weapon is used as self defense also. It cause negative horrible effects, environmental climatic change, raising temperature of earth, there is no control on production, trade and use of arms and weapons, unused arms and weapons end in scrap.</p>
--	---

Appeal to sane and wise humans to bring change in priorities to live in peaceful and beautiful atmosphere. Maturity, war free world and peace a deeply correlated words.

Deprived Bread and Butter Mindset will over power Hegemonial Mindset

With Rising Hunger and Cost of Living all over, bread and butter mindset will soon over power, hegemonial mindset, locally and globally

It is evident that bread and butter mind set will over turn, over power, hegemonial and greed mind set.

Collective Wisdom of 8 Billions

Sovereign collective wisdom of 8 billions of human on earth would never allow to some humans:

1. To die of hunger, lack of food, water.
2. To suffer from lack of health care, education and jobs.
3. To be victim of violence, cruaility, injustice, inequality, discrimination, disparity, disrespect of women, abuse of children.
4. Innocent humans to be killed by bullet, bombs and missiles.

To be displayed from homes and houses making them refugees, shelter less in prevalence of soverign collective wisdom, none will dare to think of monstrous mind set creating turmoil of any kind on planet earth.

Note: It is unfortunate that sovereign collective wisdom is discourage by local establishment world over.

Holy and Unholy

To keep alive human till natural and in any way, is Holy Work.

To kill innocent human is an un-Holy act

No matter killer belongs to any religion for Faith.

War Abnormal Act

Humanity observed some nations involve ruthless killings of humans. War is related to psychological fits. Question arise when they start war and after sometime why they stop killings.

1. May be when psychological fits ends.
2. Their beastly sense get tired.
3. Shortage of weapons
4. Financial loss
5. Their own human loss
6. Reaction from their public tax money being spend on innocent human killings.
7. Mental status return to orderly state from disorder state.

Why human start wars?

When history speaks loudly

About horrible episodes of the past

These abnormalities can only be expected from abnormal humans regardless of their status

Absolutely inhuman, non-wisdom syndrome

O' Dear World Residents

We are all 'ONE' human
Sowing seeds of crops harvesting, drinking water,
dress all same way.
Why we kill each other
Over food, land, water, resources
Cannot be share in collectiveness among all
Safety one, in-safety of others
All resident of world be mindful of the climate crises
Will sweep all
In unity and togetherness
Be survive
Why not we strive in togetherness
For survival of all

Declaration

I wish to submit some suggestions for the zero draft of declaration on future generation.

1. To provide peaceful atmosphere for the humanity, we recommend the control on surplus production and trade of arms and weapons.
2. Principle of collective wisdom will be followed at all level of UN level including Security Council, we recommend discouraging the research of lethal weapons like nukes to avoid extension of humanity on planet earth.
3. We recognized the need of nuke free world.

War as a Subject in Curriculum

Humanity to suggest

Can war be included as subject in curriculum as educational institutions at university level stating prose and cones, loss and games, spending of public tax money, death and survival, destruction and reconstruction, hunger and food, scarcity and misuse of resources for the general knowledge of the youth of world.

U.N.O

Countries – 91 existed in 1945

Countries 51 UNO in 1945

Now 193

At the time of creation of U.N.O, there were 91 countries were existing only, 51 joined the U.N.O.

Now 2024 there 193 countries are on the world map all over members of U.N.O.

According to new terminology classification 193 are divided into developed and developing class. After 1945, the world nations were further sub-divided into 193, all of merged countries are running the similar governmental system.

Ruling Class, Business Class	20%
Working Class	80%

The Earth belongs to all who born on the planet all

over the globe. Currently 8 billions.

Why 20% enjoy the all facilities, necessities of life, 80% face various kind of deprivation, sufferings and misery. The only reason is parlance of imbalance socio, economic and financial system. World directly need of new social system. Where every global citizen enjoy the basic amenities of life on parity as early possible. No superior, no inferior, no rich, no poor.

In new era of awakening, awareness, information, youth will rise and change the entire system of exploitism, cheating to family of humanity on Earth. All are humans all to live with basics of life.

Long live Humans

A sacred Gift of Nature.

Learn Trust in Collective Wisdom

Invisible Planet – Invisible Forces

Planetary System has an invisible planet.
Which emits invisible force
Which enter in human brain – specially in head of

Make than alien on Earth
Who kill innocent children, men and women
Here, there and everywhere over the globe
These alien have support of fellow aliens in disguise
In shape of suppliers, financiers
They are identifiable by their actions
Killing innocent and other condemnable acts
Invisible forces are as old as human history
Humanity gave the name EVIL – DEMON
Evil is always active and visible
Lets condemn them and pray

Suspension of UN Membership?

Resolution passed by Security Council
Judgment passed by International Court of Justice
If any country refuses to accept and implement
Can UNO suspend its membership?
What is the provision?
If not
Can this be included in U.N Charter

Astonishing Facts & Figure about War Preparation

1945 onward no major war has been fought between world powers except some regional episodes. But preparation for war continued still going on. Thousands of trillions have been spent on weapons, which turned into scrap so far 2025. All spending from public tax money. Space war preparation is separate account.

Can any wisdom mind comment on it.

The graph of gap between rich and poor have run in the same manner.

1945 Population 2.3 billion

2025 Population 8 billion

Gap of disparities between rich and poor is widening at a great speed all over the globe

Modern Lethal Weapons & End of Humanity

Modern weapons are so lethal even if they ballast accidentally, the humanity will disappear from Earth.

Multi reasons.

Temperature will rise so high and heat will be unbearable for humans

Non-availability of oxygen and other elements necessary for life
